Organized thematically around important questions in comparative politics, Introducing Comparative Politics, Fourth Edition by Stephen Orvis and Carol Ann Drogus integrates a set of extended case studies of 11 core countries into the narrative. Serving as touchstones, the cases are set in chapters where they make the most sense topically—not separated from theory or in a separate volume—and vividly illustrate issues in cross-national context. The book's organization allows instructors flexibility and gives students a more accurate sense of comparative study. In this edition, a brand new chapter on Contentious Politics covers ethnic fragmentation, social movements, civil war, revolutions, and political violence. New case

studies on this topic include the Occupy and Tea Party movements in the US; Zapatista rebellion in Mexico; Boko Haram in Nigeria; and; and revolutions in China and Iran. The chapter on States and Identity has been substantially revised to better introduce students to the concept of identity and how countries handle identity-based demands. Case studies include nationalism in Germany; ethnicity in Nigeria; religion in India; race in the US; gender in Iran; and sexual orientation in Brazil. Content on states and markets, political economy, globalization, and development has all been consolidated into a new Part III of the book, focusing in a sustained way on economic issues.

Paradigms and Sand Castles demonstrates the relationship between thoughtful research design and the collection of persuasive evidence in support of theory. It teaches the craft of research through interesting and carefully selected examples from the field of comparative development studies. Barbara Geddes is Professor of Political Science at the University of California, Los Angeles.

About the Advanced Placement Program The Advanced Placement Program is designed to provide high school students with the opportunity to pursue college-level studies while still attending high school. The program consists of two components: an AP course and an AP exam. In addition, the AP in Government and Politics curriculum is divided into two courses: United States Government & Politics and Comparative Government & Politics. If you wish to pursue an Advanced Placement in Government and Politics course you may enroll in the United States course, the Comparative course, or both. You will be expected to leave the course(s) with college-level writing skills and knowledge of government and politics. Upon completion of the course(s), you may then take the corresponding AP exam(s). Test results are then used to grant course credit and/or determine placement level in the subject when you enter college. AP exams are administered every May. The exam schedule has been designed to allow you the opportunity to take both exams, if you are enrolled in both courses. If the United States exam is given during the morning administration, the Comparative exam will be given during the afternoon administration. The AP United States Government & Politics Exam The United States exam is 145 minutes in length and is divided into two sections:

I. Multiple-Choice (50% of your grade): This 45-minute section is composed of 60 questions designed to measure your understanding of facts, concepts, and theories pertinent to United States government and politics. Your ability to analyze and understand data, and the patterns and consequences involved with political processes and behaviors will also be tested. In addition you must have knowledge of the various institutions, groups, beliefs, and ideas relevant to United States government and politics.

II. Free-Response (50% of your grade): This 100-minute section consists of four mandatory questions, each of which accounts for one-fourth of your total free-response score. You should allot roughly 25 minutes - or one-quarter of the total time in the free-response segment - for each essay. Each question normally asks you to interrelate ideas from different content areas from among the topics listed below. In addition, you may also be asked to evaluate and define fundamental concepts in the study of United States politics, and possibly to analyze case studies that bear on political relationships and events in the United States. You will be required to demonstrate mastery of political interpretation, and analytic and organizational skills through writing. In addition, you may be presented with graphs, charts and tables from whose data you would be asked to draw logical conclusions.

Here's a breakdown of coverage on the United States exam: Topics / % of Exam

I. Constitutional Underpinnings of United States Government / 5-15%

II. Political Beliefs and Behaviors / 10-20%

III. Political Parties, Interest Groups, and Mass Media / 10-20%

The countries normally tested in the multiple-choice questions include Great Britain, France, the former Soviet Union (Commonwealth of Independent States), and China; these are referred to as the core countries tested on the exam. For certain questions, basic knowledge of the United States will be assumed.

Special emphasis is placed on the governments and politics of: - Britain - France - The former Soviet Union - The People's Republic of China A glossary for the Comparative Government and Politics exam enables you to brush up on terms that you are likely to encounter on this test. Scoring the Exam After the AP administrations, more than 1,700 college professors and secondary school teachers are brought together to grade the exams during the first two weeks of June. These readers are chosen from around the United States for their familiarity with the AP program. The Multiple-Choice sections of the Comparative Government & Politics and U.S. Government & Politics exams are scored by granting one point for each correct answer and deducting one-fourth of a point for each incorrect answer. Unanswered questions receive neither credit nor deduction. The Free-Response answers are read and scored using a specific set of objective criteria, but the actual points available for each question may vary from administration to administration. For purposes of this discussion - and REA's practice tests - the Comparative exam questions will yield a score between 0 and 9 (with 0 being the lowest and 9 the highest) on Free-Response Part I, and a score of between 0 and 5 (with 0 being the lowest and 5 the highest) on Free-Response Part II. All four Free-Response items on our U.S. Government

practice exam are scored on the 0-to-9 scale. Once the responses are graded, the scores can be converted. The AP Government and Politics exam is based on a 120-point scale. The breakdown of the percentages and points is as follows (note that the available free-response points will vary): Once raw scores have been obtained for each section, they are weighted to produce a composite score. Then the composite scores for each section are added together to form a total composite score for the exam. The range for the composite score is from 0 to 120. Finally, the composite score is translated into a range of from 1 to 5, with 1 being the lowest and 5 the highest.

Scoring the Multiple-Choice Section Use this formula to calculate your raw score for the multiple-choice section: $(\# \text{ right answers}) - (\# \text{ wrong} \times 1/4) = \text{raw score}$ "round off to nearest whole number; if the number is less than zero, enter zero"

Scoring the Free-Response Section The following guide explains typical free-response scoring criteria:

Score Explanation of Score 8-9 The thesis is extremely well developed and is supported with concrete evidence; all aspects of the question have been addressed thoroughly; discussions presented are balanced.

6-7 The thesis is defined and supported; the evidence provided is very organized; the essay may be slightly imbalanced with one strong argument and one weak argument and/or discuss one topic more thoroughly than the next; sporadic factual errors may appear.

5 A basic argument or thesis is provided; evidence given supports the argument or thesis, but does not clearly connect with the argument or thesis; only the formal facets of the question are dealt with, and informal facets are not adequately covered; not all aspects of the question are discussed.

4 The thesis is not organized and is not referred to in the essay; the essay is little more than a recounting of facts and events; the essay may be overloaded with data; only one facet of the questions may be discussed; numerous factual errors may appear.

3 The thesis is weak; evidence provided in support does not apply to the thesis; factual errors are apparent.

2 The thesis is very weak; little or no factual evidence is provided to support the thesis; irrelevant and inaccurate information appears.

1 An attempt is made to answer the question, but the support given is insignificant and the coverage of topics is incomplete.

0 The question is not answered with any significance.

Free-Response Part II (Comparative only)

Score Explanation of Score 5 The thesis is extremely well developed and is supported with concrete evidence; all aspects of the question have been addressed thoroughly; discussions are presented in a balanced way.

4 The thesis is defined and supported; the evidence provided is very organized; the essay may be slightly imbalanced, with one strong argument and one weak argument; likewise, one topic may be more

thoroughly explored than another; may be marred by sporadic factual errors. 3 A basic argument or thesis is presented; evidence given supports the argument or thesis, but does not clearly connect with the argument or thesis; only the formal facets of the question are dealt with, and informal facets are not adequately covered; not all aspects of the question are discussed. 2 The thesis is weak; evidence provided in support does not apply to the thesis; factual errors are apparent. 1 An attempt is made to answer the question, but the support given is insignificant and the coverage of topics is incomplete. 0 The question is not answered with any significance.

It would be extremely helpful to find someone who is willing to score your essay - your teachers or anyone who is familiar with the test material. If you do, ask the person to assign each of your U.S. and Comparative (Part I) essays a score of 0 to 9. For your Comparative (Part II) essays, use the 0-to-5 scale. If you must grade your own essays, try to be objective! In addition, you may want to give your essays three different grades. For instance, if you feel you did well, try giving the essay a score of 5, 6, or 7 to represent the various scores you may receive. By underestimating what your score may be, you are more likely to receive a better score on the actual exam. Use the following formulae to determine your raw score for the Free-Response section: United States Exam (Free-Response) Response (1) score x 1.66 = raw score Response (2) score x 1.66 = raw score Response (3) score x 1.66 = raw score Response (4) score x 1.66 = raw score Comparative Exam Response (1) score x 1.66 = raw score Response (2) score x 1.66 = raw score Response (3) score x 3 = raw score Response (4) score x 3 = raw score

The Composite Score Once you have obtained your raw scores for both the Multiple-Choice and the Free-Response sections, add the scores together to get your composite score: United States Exam Multiple-Choice raw score + Free-Response raw score = composite score (round to nearest whole number) Score Essay 1 + Score Essay 2 + Score Essay 3 + Score Essay 4 = raw score Comparative Exam Multiple-Choice raw score + Free-Response raw score = composite score (round to nearest whole number)

Now compare your composite score with the scale below: Composite Score / AP Grade
88 - 120 / 5 74 - 87 / 4 54 - 73 / 3 35 - 53 / 2 0 - 34 / 1

AP grades are interpreted as follows: 5-extremely well qualified, 4-well qualified, 3-qualified, 2-possibly qualified, and 1-no recommendation. Scores that Earn College Credit and/or Advanced Placement Most colleges grant students who earn a 3 or above college credit and/or advanced placement. You should check with your school guidance office about specific college requirements. Studying for Your AP Examination It is never too early to start studying. The earlier you begin, the more time you

will have to sharpen your skills. Do not procrastinate! Cramming is not an effective way to study, since it does not allow you the time needed to learn the test material. It is very important for you to choose the time and place for studying that works best for you. Some students may set aside a certain number of hours every morning to study, while others may choose to study at night before going to sleep. Other students may study during the day, while waiting on a line, or even while eating lunch. Only you can determine when and where your study time will be most effective. But, be consistent and use your time wisely. Work out a study routine and stick to it! When you take the practice exam(s), try to make your testing conditions as much like the actual test as possible. Turn your television and radio off, and sit down at a quiet table free from distraction. Make sure to time yourself. As you complete the practice test(s), score your test(s) and thoroughly review the explanations to the questions you answered incorrectly, but do not review too much during any one sitting. Concentrate on one problem area at a time by reviewing the question and explanation, and by studying our review(s) until you are confident that you completely understand the material. Since you will be allowed to write in your test booklet during the actual exam, you may want to write in the margins and spaces of this book when practicing. However, do not make miscellaneous notes on your answer sheet. Mark your answers clearly and make sure the answer you have chosen corresponds to the question you are answering. Keep track of your scores! By doing so, you will be able to gauge your progress and discover general weaknesses in particular sections. You should carefully study the reviews that cover the topics causing you difficulty, as this will build your skills in those areas. To get the most out of your studying time, we recommend that you follow the Study Schedule which corresponds to the exam you are taking. It details how you can best budget your time. If you are taking both exams, do not try to study for each at the same time. Try alternating days by studying for the United States exam one day and the Comparative exam the next. Test-Taking Tips Although you may be unfamiliar with tests such as the Advanced Placement exams, there are many ways to acquaint yourself with this type of examination and help alleviate your test-taking anxieties. Listed below are ways to help yourself become accustomed to the AP exam, some of which may also be applied to other standardized tests. Become comfortable with the format of the AP Examination in Government and Politics that you are taking. When you are practicing to take the exam(s), simulate the conditions under which you will be taking the actual test(s). You should practice under the same time constraints as well. Stay calm and pace yourself. After

simulating the test only a couple of times, you will boost your chances of doing well, and you will be able to sit down for the actual test much more confidently. Know the directions and format for each section of the exam. Familiarizing yourself with the directions and format of the different test sections will not only save you time, but will also ensure that you are familiar enough with the AP exam to avoid nervousness (and the mistakes caused by being nervous). Work on the easier questions first. If you find yourself working too long on one question, make a mark next to it in your test booklet and continue. After you have answered all of the questions that you can, go back to the ones you have skipped. Use the process of elimination when you are unsure of an answer. If you can eliminate three of the answer choices, you have given yourself a fifty-fifty chance of getting the item correct since there will only be two choices left from which to make a guess. If you cannot eliminate at least three of the answer choices, you may choose not to guess, as you will be penalized one-quarter of a point for every incorrect answer. Questions not answered will not be counted. Be sure that you are marking your answer in the circle that corresponds to the number of the question in the test booklet. Since the multiple-choice section is graded by machine, marking the wrong answer will throw off your score.

This bold venture into political theory and comparative politics combines traditional concerns about democracy with modern analytical methods. It asks how contemporary democracies work, an essential stage in asking how they can be justified. An answer to both questions is found in the idea of the median mandate. The voter in the middle - the voice of the majority - empowers the centre party in parliament to translate his or her preferences into public policy. The median mandate provides a unified theory of democracy - pluralist, consensus, majoritarian, liberal, and populist - by replacing each qualified 'vision' with an integrated account of how representative institutions work. The unified theory is put to the test with comprehensive cross-national evidence covering 21 democracies from 1950 through to 1995. This exciting book will be of interest to specialists and general readers alike, representing as it does a reaffirmation of traditional democratic practice in an uncertain and threatening world. Comparative Politics is a series for students and teachers of political science that deals with contemporary government and politics. The General Editors are Max Kaase, Professor of Political Science, Vice President and Dean, School of Humanities and Social Science, International University, Bremen, Germany; and Kenneth Newton, Professor of Comparative Politics, University of Southampton. Political party organizations play large roles in democracies, yet their organizations differ widely, and their statutes change much more frequently than constitutions or electoral laws. How do these differences, and these frequent changes, affect the operation of democracy? This book seeks to answer these questions by presenting a comprehensive overview of the state of party organization in nineteen contemporary democracies. Using a unique new data collection, the book's chapters test propositions about the reasons for variation and similarities across party organizations. They find more evidence of within-country similarity than of cross-national patterns based on party ideology. After exploring parties' organizational differences, the remaining chapters investigate the impact of these differences. The volume considers a wide range of theories about how party organization may affect political life, including the impact of party rules on the selection of female candidates, the links between party decision processes and the stability of party programmes, the connection between party finance sources and public trust in political parties, and whether the strength of parties' extra-parliamentary organization affects the behaviour of their elected legislators. Collectively these chapters help to advance comparative studies of elections and representation by inserting party institutions and party agency more firmly into the centre of such studies. Comparative Politics is a series for researchers, teachers, and students of political science that deals with contemporary government and politics. Global in scope, books in the series are characterised by a stress on comparative

analysis and strong methodological rigour. The series is published in association with the European Consortium for Political Research. For more information visit: www.ecprnet.eu. The series is edited by Emilie van Haute, Professor of Political Science, Université libre de Bruxelles; Ferdinand Müller-Rommel, Director of the Center for the Study of Democracy, Leuphana University; and Susan Scarrow, Chair of the Department of Political Science, University of Houston.

Principles of Comparative Politics offers the most comprehensive and up-to-date introduction to comparative inquiry, research, and scholarship. In this thoroughly revised Third Edition, students now have an even better guide to cross-national comparison and why it matters. The new edition retains a focus on the enduring questions with which scholars grapple, the issues about which consensus has started to emerge, and the tools comparativists use to get at the complex problems in the field. Among other things, the updates to this edition include a thoroughly-revised chapter on dictatorships that incorporates a discussion of the two fundamental problems of authoritarian rule: authoritarian power-sharing and authoritarian control; a revised chapter on culture and democracy that includes a more extensive examination of cultural modernization theory and a new overview of survey methods for addressing sensitive topics; a new section on issues related to electoral integrity; an expanded assessment of different forms of representation; and a new intuitive take on statistical analyses that provides a clearer explanation of how to interpret regression results. Examples from the gender and politics literature have been incorporated into various chapters, the Problems sections at the end of each chapter have been expanded, and the empirical examples and data on various types of institutions have been updated. Online videos and tutorials are available to address some of the more methodological components discussed in the book. The authors have thoughtfully streamlined chapters to better focus attention on key topics.
