Medical education and the tools used for assessment are continually evolving. Single Best Answer (SBA) questions are a relatively new method of assessment commonly encountered in final surgical exams. The key to success in any SBA-style examination is practice, practice and more practice. With nearly 300 structured questions, this book comprehensively covers the surgical curriculum. Each specialty-specific chapter contains a combination of clinical vignettes and knowledge-based questions of varying degrees of difficulty, both challenging the more able candidates as well as giving a realistic appreciation of the standard required to pass. Each question gives a detailed explanation of the correct answer to aid reflection and reinforce understanding. This book is the ideal

SAQs for the Final FRCA

There has been a marked

change in examination strategy over the last five years; EMQs (extended matching questions) are popular with tutors and students alike as they present a more realistic view of a student's ability to apply his or her knowledge in a clinical situation. The new edition of MCQs in Physiology has been subject to a complete overhaul to become MCQs and EMQs in Physiology. This reflects the current methods of examination techniques and will provide the student with a complete revision resource book. Packed with MCQs and EMQs along with clear and simple explanations of each answer,

this book covers all the main physiological systems. The questions stretch from basic to applied and interpretative and are written with the modern integrated syllabus firmly in mind. Presented alongside other core revision books such as EMQs in Clinical Medicine this book will soon be seen as a must-have for any medic's shelf. OSCEs for Medical Finals has been written by doctors from a variety of specialties with extensive experience of medical education and of organising and examining OSCEs. The book and website package consists of the most common OSCE

scenarios encountered in medical finals, together with checklists, similar to OSCE mark schemes, that cover all of the key learning points students need to succeed. Each topic checklist contains comprehensive exam-focussed advice on how to maximise performance together with a range of 'insider's tips' on OSCE strategy and common OSCE pitfalls. Designed to provide enough coverage for those students who want to gain as many marks as possible in their OSCEs, and not just a book which will ensure students 'scrape a pass', the book is fully

## Strategies for Exam Success

Filling a gap for a pre-clinical phase revision guide, this book will help medics pass their intermediate exams in order to proceed to the clinical years. It is based on the SAQs, EMQs and MCQ school curriculum as set out by the GMC. By covering each module individually but also integrating other disciplines of medicine into the questions, it helps students to think laterally as well as thoroughly revising each module. With a minimum of 4 SAQs, 7 MCQs and 3 EMQs

With over 1000 questions, MCQs  
and EMQs in Surgery is the ideal  
self-assessment companion guide  
to Bailey & Love's Short Practice in  
Surgery. The book assists readers  
in their preparation for  
examinations and to test their  
knowledge of the principles and  
practice of surgery as outlined  
within Bailey & Love. Sub-divided  
into 13 subject-specific sections,  
both MCQs and EMQs provide a  
comprehensive coverage of the

surgical curriculum as well as the core learning points as set out in Bailey & Love: Each section emphasises the importance of self-assessment within effective clinical examination and soundly based surgical principles, while while taking into account the latest developments in surgical practice. MCQs and EMQs in Surgery is an excellent companion to Bailey & Love and provides a valuable revision tool for those studying for MRCS.

Zero to Finals is a resource dedicated to helping students of medicine. It was created from scratch in the belief that, with better tools, you can accelerate your learning, achieve more in less

time and feel more motivated along the way. The Zero to Finals books are designed to be studied from cover to cover in preparation for your exams. I have removed the waffle and focused on the key information you need for your exams. I have added helpful "Tom Tips" I have picked up during a decade of sitting medical exams, that will help you score those extra marks. The focus is on learning the concepts, vocabulary and latest guidelines so you can take the fastest route to exam success and proficiency as a new doctor. The Zero to Finals books are supplemented by the resources on the website ([zerotofinals.com](http://zerotofinals.com)). There is a webpage on each topic

with illustrations, diagrams, podcasts and videos that tackle the problem from every angle. You can also find carefully crafted practice questions, with feedback to help you develop your exam technique. This guide to the short answer question section of the final FRCA not only comprehensively covers the subject matter of the exam with past paper examples, it also guides trainees on the most effective manner in which to approach the questions. Chapters reflect the different topics contained within the examination, including pain medicine, ICM, paediatric anaesthesia and more. Every question from the past 6 1/2 years of examinations is addressed and
