There is hardly any doubt that reading and writing are related activities, and that both rely on creating meaning. When we read, as well as when we write, we find ourselves in the process of becoming. We change our knowledge and understanding along the way. However, writing is a daunting activity not only for language learners but for anyone who wants to communicate their thoughts and ideas persuasively and accurately. When students engage in speaking activities they are often able to communicate extraordinarily interesting ideas with few problems. Yet, when asked to form these ideas into coherent texts, they seem helpless. From basic sentence structure to writing persuasively, this book aims to help

students tackle the various challenges and difficulties they when writing. Divided into three accessible sections, Cogni presents a comprehensive and reflective approach to writing that combines grammar, vocabulary, and literature into a simultaneous and coherent whole. Cogni acknowledges that today more than ever learning a language needs to be perceived as a deeply meaningful process, and this book sets to make that possible.

Amazing Sentences was developed with two things in mind: (1) Assisting kids in learning to read, (2) Allowing kids to develop critical skills as they learned how to read. By combining a child's love for mazes with a parent's desire to teach their children easier, we've accomplished both tasks. The child will simply complete the mazes and write down the words along the way. Those words, on the path through the completed maze, will make complete sentences for the child to write down. Once the sentence is written, the parent can go over pronunciation and explain what is being stated. This is the perfect bonding exercise for families. Amazing Sentences also took this revolutionary new learning aid a step further and added translations. All of the sentences your child scribe are translated into Spanish as well as French. As you know, children are sponges that soak up everything in their world, so why not give them a choice of foreign languages? Once the exercises are complete, and with the parent's assistance, the child can start working on the translations, if

for nothing else, just to plant positive seed for future growth. Having a child interested in learning as much as possible at a young age will carry into their adult life. Amazing Sentences also based all the sentences used around the top 100 Sight Words that children are expected to be familiar with. These sight words have been provided so you, the parent, can have a copy of them handy for future use. Some sentences are actually questions which are meant to spark conversation between you and your child. Other sentences used are meant to encourage your child to learn, be a positive person, and always have trust in their teachers and family. We at Amazing Sentences would love your feedback, be it positive or constructive criticism so we can be reached at s607central@gmail.com. The text addresses the most frequent usage errors by explaining how to distinguish between adjectives and adverbs; how to avoid problems of pronoun case, agreement, and consistency; how to ensure that verbs will agree with their subjects and will be appropriate in terms of tense, aspect, voice, and mood; and how to phrase sentences to avoid errors in parallelism or placement of modifiers. Six appendices incorporate further exercises, a summary of key basics from the text, and supplemental material not included in the body of the text but useful for quick reference.
