

Confessions Of A G

In a hilarious memoir, a one-time New York career woman and mother describes her family's move from the suburbs to a five-hundred-head beef farm in the South, whimsically chronicling the struggle of a city girl to love--or at least tolerate--country life while dealing with the culture shock of a world without Starbucks. Original.

Dr. Moore shares an engaging firsthand account of his many years spent as the ultimate Greenpeace insider, a co-founder, and leader in the organization's top committee. Moore explains why, 15 years after co-founding it, he left Greenpeace to establish a more sensible, science-based approach to environmentalism.

Confessions of an Accidental Advocate

Have you ever had any memories of your childhood that might change your life forever? If your answer is yes, this book is definitely worth reading. Have you ever had any childhood regrets or dreams that shape the course of your life in the current moment or the future? If your answer is yes, this book will guide you to that path as well. Basically, this book is based on the actual events of my childhood and I felt the needs to tell my confessions to the readers. Furthermore, this book will unfold my childhood adventures and my personal experiences that shape my life forever. Bottom line, this manuscript will guide the readers to the endless moment of my family pastime, romance and my personal story. Additionally, the purpose of this manuscript is to inform and entertain people. Finally, the readers will discover the humors, the misfortunes and the circumstances that shape or influence my childhood course of life.

In the midst of World War II, when death and chaos were the daily norm in Nazi Germany, a man began his own war--a gruesome bloody warfare against the women of Berlin. By mid 1938, Paul Ogorzow, who later became known as The S-Bahn Murderer, embarked on a series of violent attacks, randomly sexually assaulting and raping dozens of women in and around Nazi-era Berlin, culminating with the grisly murders of eight women by throwing them off a moving train. Between October 1940 and July 1941, The S-Bahn - Berlin's main commuter train - became the site of senseless horrors and death, a playground for a monster who, helped by the blackout reigning over the city, carried out his most perverted desires at the expense of young innocent human lives.This is the story of Nazi Germany's most notorious serial killer, the story of a brutal murderer and his crimes, penned in a novel inspired by true events. Told by the detective in charge with Paul Ogorzow's case, this fast-pace dynamic detective story offers an insight into the workings of the German Criminal Police, and into how catching an elusive killer proved every bit harder in a time of inconceivable confusion, racial misconceptions and all around chaos.This is a story about human depravity and coldblooded ruthlessness, about a brutal reality as old as it is new, a story that reveals the lowest depths that can be traced within the human nature deprived of emotional intelligence.

Confessions of a Congressman

My Country 'Tis of Thee

A " wide-ranging and incisive anthology " of articles and essays by the eminent journalist and antiwar activist from the 1960s to the twenty-first century (Publishers Weekly). David Harris is a reporter, an American dissident, and, as these selected pieces reveal, a writer of great character and empathy. As an undergraduate, he gained recognition for his opposition to the Vietnam War and was imprisoned for two years when he refused to comply with the draft. Throughout his long career, his writing has championed outsiders, the downtrodden, and those who demand change. These eighteen pieces of long-form journalism, essays, and opinion writings remain startlingly relevant to the world we face today. This career-spanning collection follows Harris from his early days as a prominent leader of the resistance to the Vietnam War, through regular contributions to many publications, including Rolling Stone and the New York Times. Born in Fresno and elected student body president of Stanford University in 1966, Harris has always had an undeniably Californian point of view—he imagines the future with an open heart and mind and pursues stories out of genuine curiosity, embedding himself among striking farmworkers, marijuana growers, the homeless on LA ’ s skid row, and occasionally, redwood trees. Inspiring, clarifying, and fearless, his abiding and lucid patriotism insists that our country live up to its own ideals.

Ever wondered how your tax money is really spent? Discover how the federal government works and what the lives of civil servants and their jobs are really like. Ramona Swann's 30-year career spanned assignments at the Departments of Defense, Transportation, Agriculture and Energy in a navigation up the civil service career ladder that plays out like a dark comedy. Ramona's world was one of excessive waste, tangled rules, indecipherable regulations and, of course, ever present politics. Confessions offers the taxpayer a view from the inside of government, complete with arrogance, misappropriation and even the rare unsung hero. As a whistleblower she did what she thought was right and suffered the inevitable consequences. Her life became a struggle against alcoholism, divorce and finally a battle to regain her integrity while serving a nation she loves. Ramona Swann was born in 1954 in the small town of Puyallup, Washington. At 24 she began her 30-year federal career when she enlisted in the Air Force. Ramona currently lives in Vancouver, Washington where she is enjoying retirement and considering writing a second memoir titled, Confessions: Rants and Exploits of a retired civil servant.

The hilarious follow-up to the memoir, Confessions of a Counterfeit Farm Girl. It's been four years since Susan's husband dragged her kicking and screaming from their comfortable, big city East Coast life to a farm in Virginia cattle country. Susan's adjusting as best she can, which isn't easy considering she's been known to wear Manolos in manure. She'll never be a real farm girl, but as readers will see from her side- splitting confessions, she's faking it just fine.

In this bestselling combination memoir, polemic, and gardening manual, Gussow discusses the joys and challenges of growing organic produce in her own New York garden. This work offers encouragement to urban and suburban gardeners who want to grow at least some of their own produce. 30 recipes.

The true confession of an assassin, a sicario, who rose through the ranks of the Southern California gang world to become a respected leader in an elite, cruelly efficient crew of hit men for Mexico's "most vicious drug cartel," and eventually found a way out and an (almost) normal life. Martin Corona, a US citizen, fell into the outlaw life at twelve and worked for a crew run by the Arellano brothers, founders of the the Tijuana drug cartel that dominated the Southern California drug trade and much bloody gang warfare for decades. Corona's crew would cross into the United States from their luxurious hideout in Mexico, kill whoever needed to be killed north of the border, and return home in the afternoon. That work continued until the arrest of Javier Arellano-Félix in 2006 in a huge coordinated DEA operation. Martin Corona played a key role in the downfall of the cartel when he turned state's evidence. He confessed to multiple murders. Special Agent of the California Department of Justice Steve Duncan, who wrote the foreword, says Martin Corona is the only former cartel hit man he knows who is truly remorseful. Martin's father was a US Marine. The family had many solid middle-class advantages, including the good fortune to be posted in Hawaii for a time during which a teenage Martin thought he might be able to turn away from the outlaw life of theft, drug dealing, gun play, and prostitution. He briefly quit drugs and held down a job, but a die had been cast. He soon returned to a gangbanging life he now deeply regrets. How does someone become evil, a murderer who can kill without hesitation? This story is an insight into how it happened to one human being and how he now lives with himself. He is no longer a killer; he has asked for forgiveness; he has made a kind of peace for himself. He wrote letters to family members of his victims. Some of them not only wrote back but came to support him at his parole hearings. It is a cautionary tale, but also one that shows that evil doesn't have to be forever.

Featuring 15 explosive new chapters, this new edition of the New York Times bestseller brings the story of Economic Hit Men up-to-date and, chillingly, home to the U.S.?but it also gives us hope and the tools to fight back. Former economic hit man John Perkins shares new details about the ways he and others cheated countries around the globe out of trillions of dollars. Then he reveals how the deadly EHM cancer he helped create has spread far more widely and deeply than ever in the US and everywhere else—to become the dominant system of business, government, and society today. Finally, he gives an insider view of what we each can do to change it. Economic hit men are the shock troops of what Perkins calls the corporatocracy, a vast network of corporations, banks, colluding governments, and the rich and powerful people tied to them. If the EHMs can't maintain the corrupt status quo through nonviolent coercion, the jackal assassins swoop in. The heart of this book is a completely new section, over 100 pages long, that exposes the fact that all the EHM and jackal tools—false economics, false promises, threats, bribes, extortion, debt, deception, coups, assassinations, unbridled military power—are used around the world today exponentially more than during the era Perkins exposed over a decade ago. As dark as the story gets, this reformed EHM also provides hope. Perkins offers specific actions each of us can take to transform what he calls a failing Death Economy into a Life Economy that provides sustainable abundance for all.

This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1909 edition. Excerpt: ... CHAPTER IV. THE SWAMP OF KARAFERIA. There was a time when all that vast swamp country in southern Macedonia and Turkish government. Negotiations were on with a foreign syndicate to drain it and exploit the rich alluvion for agricultural purposes. French scientists and engineers came, explored and surveyed and wrote glowing reports. But like all Turkish business, it went slow. Meanwhile asker built posts on the islands and garrisoned them. During the winter of 1907-8 the malarial fevers had decimated them the first summer. It happened that a cheta was hard pressed by cavalry patrols on the plain, one summer, and the Bulgar fishermen lent the outlaws their boats to escape into the swamps. The place took their fancy and the idea suggested itself to them that they could stay there. They burned the reeds and cut themselves. When the soldiers came back they were ignorant of what had happened until a volley of Manlicher bullets ripped through the high swamp cane and carried death to some and enlightenment to others. One young officer, more dense than his fellows, shouted: "We are asker! Kim sin sis?" The answer came out of the cane brake: "We are asker and stepped out on the shining slime, meaning to take a short cut out of danger, and so sank into their graves alive. Without knowing much about tactics the survivors began realizing that approaching an invisible enemy in small, unwieldy punts along a channel three feet wide is giving him a chance to laugh at you, and to shoot at you." The commander pasha who was fuming three miles in the rear. Next day an army corps gathered and bombarded the...

This book details and analyzes an extensive farm survey of Armenian land reform. Zvi Lerman and Astghik Mirzakhanian, two principal contributors to the design of the study, present their invaluable insight into the rapid land reform strategy implemented in Armenia. Unique among the former Soviet Republics, the entire agricultural sector of Armenia is now based on large-scale, farm enterprises to individual production in 1992. The authors pay special attention to the commercialization of private farms and their access to supply and marketing channels outside the old state-controlled system. Family incomes from farming and off-farm sources are discussed, as well as problems of rural social services and how to demonstrate how official statistical measures and record keeping practices in Armenia do not adequately account for this dramatic transition.

In this candid memoir, James Schroeder shares his experience as the husband of former US congresswoman Pat Schroeder, one of the best-known women in American politics. Recounting his experience as "Mr. Pat Schroeder," the author brings humor and insight to such topics as compromise in marriage, women as friends and colleagues, and the challenges and rewards of being part of a power couple. He looks at how men come to terms with today's evolving gender roles and the challenges and compromises of two-career families. James Schroeder is the husband of former congresswoman Pat Schroeder (D-CO, 1972 - 1996), whom he met at Harvard Law School. He practiced law for many years in Colorado and Washington, DC, before serving in the Clinton administration as deputy undersecretary for farm and foreign agricultural services. The Schroeders now reside in Celebration, Florida.

Up Fanno Creek chronicles the life and near-death of a small, urban stream in Portland, Oregon. " Drano Creek, " nearby neighbors once called it, and on hot summer days in the late 1960s you could sometimes smell it before you could see it. The once flourishing waterway was so filled with sewage, agricultural waste, and industrial pollutants that it was on the verge of extinction. It also posed a health risk so serious that it helped shut down all residential and commercial development in its area for almost a year. Like other urban streams around the country, Fanno Creek was temporarily saved from almost certain destruction by the passage of the Clean Water Act in 1972. Thanks to that law and the efforts of a growing army of wetland advocates, the creek has recovered significantly from the abuses of more than a century of mostly unchecked or poorly regulated land-use practices. Point-source pollution, once thought to pose the greatest threat to the creek ' s biological survival, is now largely under control. But the long term outlook for Fanno Creek ' s existence is anything but rosy, as Eric Lindstrom quickly learned when he set out to discover his personal Watershed Address. Up Fanno Creek tells his story as well, and in the process shows what it means to become a wetlands advocate—accidentally or not.

When the Dough Doesn't Rise

Confessions of a Greedy Giver

Chloe Benet is excited about her senior year of high school. She and her best friend, Jesse are a part of her school's dance squad. Chloe decided to try out for captain since she was the most qualified for the position. Between her looks, athletic skills and brains, why not? In addition, Chloe is madly in love with Derek, the boy next door. He has been her crush since the first day they met. As the end of her junior year, comes to end, Chloe decided that now is the right time to confess her love to him. Feeling uncertain as to what the future will hold for them, Chloe feels uneasy for some reason or another. She soon learns that everyone has secrets, and that the life as she has known will never be the same. Secrets eat away at her soul and leave her questioning everything or everyone. Many of the relationships around her are tested, forcing her to make drastic decisions that affect those whom she loves dearly. Some folks say that confessions are good for the soul, however Chloe soon learns that love is often complicated. Although secrets can hurt us, they also help to make us better in the end. Will Chloe's confessions leave her with regrets?

WHEN THE DOUGH DOESN'T RISE: SELF HELP CONFESSIONS OF A CHRISTIAN ENTREPRENEUR is the honest, no-nonsense book from a successful businessman who sets out to tell the hard truth about what it means to succeed and fail in business, regardless of how perfectly you lay out your business plan. Scott Cloud tells his story of success owning and operating seven thriving businesses in trucking and agriculture. Driven to prosper greater than his father who had gone bankrupt before his eyes, Scott and his wife launch into a large scale poultry operation on their farm. On the first day of operation, his wife, Roxanne, suddenly fell ill. As a business team, he and his wife followed their plan, did the due diligence and adhered to their perceived recipe for success, but what Scott couldn't foresee was his spouse and business partner being struck down by an illness that would debilitate her for the rest of her life. This account is just one instance of the "dough" not rising in the life of a dedicated Christian entrepreneur and his family. Using illustrative stories born from a simple up-bringing on a Mid-western pig farm, "When the Dough Doesn't Rise" invites readers on a true-life journey that attempts to offer enlightened answers to some of life's toughest questions. The reader learns about a young man who watches his father struggle for success but never achieve it. Scott uses that perceived failure to motivate himself onto and up the ladder of great financial success. As his journey continues, the reader feels the joy of winning and the pain of great loss as Scott achieves financial success, but then tragically loses his brother along the way. The readers of this book explore what it means to follow the recipe of life and yet experience the "dough" not rising in his or her life. Readers beware: the authors, Scott Cloud and Darrel Campbell, attempt to offer answers from the Bible as well as practical life experiences that provide hope and inspiration -- NOT easy, pat answers that provide little consolation or motivation.
