

Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

Mei Ling, Raj, Emily and Solomon have no idea why they have been selected for this assignment. Together they must learn to trust each other and decipher truth from illusion in search of the seven secrets of the universe. Mother Nature is finally ready to regenerate the planet, tired of human misuse and abuse. Human beings will join the regeneration process only if these four International School students are able to discover the Seven Secrets in time. A master of illusion will do everything in her power to stop them with obstacles - both inner and outer. Beijing is the setting for this adventure of the spirit.

Without the right mindset recruiting, duplicating and rank advancing in network marketing seem daunting. We all have MASSIVE fears in network marketing. This book is based on a study from hundreds of network marketer's who gave the biggest fears that hold them back. This is the first book everyone should read in network marketing.

What makes someone covet a Kelly bag? Why are Cirque Du Soleil or Grey Goose so successful despite breaking all the conventions of their categories? What does Gucci's approach to marketing have in common with Nespresso's? And why do some people pay a relative fortune for Renova toilet paper or Aesop detergent even though they hardly ever 'advertise' and seem to have none of the 'functional performance advantages' conventional marketers would seek to demonstrate? Prestige brand experts JP Kuehlwein and Wolfgang Schaefer have dedicated themselves to studying what

Access PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

drives the success of prestige brands. Rethinking Prestige Branding collects their insights. Uncovering the secrets of why and how some brands are created more equal than others, Rethinking Prestige Branding includes over 100 case studies from Apple and Abercrombie & Fitch to Tate Modern and Tesla. Rather than re-telling brand success stories or re-hashing long-standing marketing principles, it takes readers on a colourful journey behind the scenes of today's marketing pros. This book will fascinate marketing professional just as much as those who are simply curious as to how premium brands tick.

This book revisits the historically different paths to economic development that Spain, the Netherlands, Great Britain and the United States followed at different time periods since the early modern period. Addressing the questions of how economic growth came about in these four countries and why sustained economic growth was achieved only by the two latter economic powers - Great Britain and the United States, it clearly highlights the long-term economic impact of the individual economic systems each country had developed. This discussion draws on two important variables in economic systems: whether its primary activity is agriculture, commerce, or manufacturing, and whether its productive system expands or simply reproduces. From this interpretive framework, the book suggests that the existing literature has not yet paid sufficient attention to the enduring impact on a nation's long-term economic performance of their differing economic systems - simple agricultural reproduction system (Spain), expansive commercial reinvestment system (the Netherlands), and expansive industrial reproduction system (Great Britain and the United States). The book also demonstrates why sustained economic growth was viable only

Acces PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

within an expansive industrial reproduction system, and what conditions Great Britain and the United States had to fulfill to create such an economic system in their specific historical contexts. It concludes by reflecting on the policy implications of the findings on current discussions concerning economic development within the global economy.

Conquering Global Markets

Financial Behavior: Players, Services, Products, and Markets provides a synthesis of the theoretical and empirical literature on the financial behavior of major stakeholders, financial services, investment products, and financial markets. The book offers a different way of looking at financial and emotional well-being and processing beliefs, emotions, and behaviors related to money. The book provides important insights about cognitive and emotional biases that influence various financial decision-makers, services, products, and markets. With diverse concepts and topics, the book brings together noted scholars and practitioners so readers can gain an in-depth understanding about this topic from experts

Access PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

from around the world. In today's financial setting, the discipline of behavioral finance is an ever-changing area that continues to evolve at a rapid pace. This book takes readers through the core topics and issues as well as the latest trends, cutting-edge research developments, and real-world situations. Additionally, discussion of research on various cognitive and emotional issues is covered throughout the book. Thus, this volume covers a breadth of content from theoretical to practical, while attempting to offer a useful balance of detailed and user-friendly coverage. Those interested in a broad survey will benefit as will those searching for more in-depth presentations of specific areas within this field of study. As the seventh book in the Financial Markets and Investment Series, Financial Behavior: Players, Services, Products, and Markets offers a fresh look at the fascinating area of financial behavior.

Have you ever wondered how the top City traders make big profits from share trading? Do you know why the best investors know exactly when the market is going to rise or fall? And do you wish you could do the same? By following 20 hard and fast rules, Trading Secrets shows you how you can make the same high returns as experienced investors and traders. Using historical, economic and technical trend analysis from the last fifty years, it identifies the ways for you to capitalise on such events as the clocks going back or moving forward, religious holidays, major sporting events and even the US presidential election. Written for both experienced

Access PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

investors and also those with little knowledge of the stock market, Simon Thompson's practical investing guide offers trading strategies that you can use over the short-term or the long-term. For instance, do you know how daylight changes affect how the stock market performs and, more importantly, how to make big gains by trading on this knowledge? Or do you know which sector has massively outperformed the market in the first quarter of the year - posting a quarterly return of 12 per cent - in all but four years in the past three decades? Trading Secrets uncovers all and more importantly explains why these trends occur, so that you can be confident your investments will pay off, even when the market is falling. China business experts analyze the next wave of Chinese corporate giants as they emerge into the global marketplace The rise of China and its major corporations will be a key economic development in this century. Even as leading Chinese firms show their muscle through ambitious acquisitions of firms like Thinkpad and RCA, many western investors and business leaders know little or nothing about them. This book looks at the rise of Chinese firms, who they are, how they'll change the global competitive landscape, their strengths and weaknesses, and how established western firms might meet the challenges and opportunities this trend presents. Throughout the book, the authors examine and highlight the major differences between Chinese and western firms, particularly differences related to corporate leadership and organizational

Acces PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

structure, how and why they choose M&A targets, global workforces, and political issues like unionization. A comprehensive, expert examination of emerging Chinese global corporations and how they will affect the global economy Ideal for investors and executives of western companies Written by a team of top China business experts and curated by the editor of the Chinese edition of the Harvard Business Review For anyone who wants to understand the future of Chinese companies and the opportunities and challenges their global emergence will present, The Globalization of Chinese Companies offers comprehensive, expert insight.

Gentry was a simple baker who knew there was more to life but did not know what it was or how to get there. One day, a traveler came to town and told Gentry that he is seeking The Destination. However, the traveler provides a warning. The path to The Destination is guarded by dragons that only seek to take travelers off of the path. Armed with a scroll, a shield and a sword, Gentry sets out on his quest. As Gentry heads towards The Destination, he is expecting to face fierce dragons that he heard so many stories about growing up. He pictured himself doing battle with a large scaly beast. But what he found surprised him. The dragons were not the fire breathing animal he expected but much more deceiving. Gentry had to face each dragon before he can travel on towards The Destination or be sent back to the town as a failure. Each dragon, however, has a different name and affect on Gentry. He must use the wisdom he finds in the scroll in order to defeat each of the dragons. As we each travel the journey to success, we are often times side tracked by dragons of our own. Through this book and as you travel with Gentry, you will learn the secrets to defeating many of the common dragons that only seek to hold us back from reaching our destination.

Conquering Fears to Create Masterpieces Acquisition

The story of an uncovered voyage as colorful and momentous as any on record for the Age of Discovery--and of the Black mariner whose stunning accomplishment has been until now lost to history It began with a secret mission, no expenses spared. Spain, plotting to break Portugal's monopoly trade with the fabled Orient, set sail from a hidden Mexican port to cross the Pacific--and then, critically, to attempt the never-before-accomplished return, the vuelta. Four ships set out from Navidad, each one carrying a dream team of navigators. The smallest ship, guided by seaman Lope Martín, a mulatto who had risen through the ranks to become one of the most qualified pilots of the era, soon pulled far ahead and became mysteriously lost from the fleet. It was the beginning of a voyage of epic scope, featuring mutiny, murderous encounters with Pacific islanders, astonishing physical hardships--and at last a triumphant return to the New World. But the pilot of the fleet's flagship, the Augustine friar mariner Andrés de Urdaneta, later caught up with Martín to achieve the vuelta as well. It was he who now basked in glory, while Lope Martín was secretly sentenced to be hanged by the Spanish crown as repayment for his services. Acclaimed historian Andrés Reséndez, through brilliant scholarship and riveting storytelling--including an astonishing outcome for the resilient Lope Martín--sets the record straight.

In *Never Give Up*, Donald Trump tells the dramatic stories of his biggest challenges, lowest moments, and worst mistakes—and how he uses tenacity and creativity to turn defeat into victory. Each chapter includes an inspiring story from Trump's career and concludes with expert commentary and coaching from adversity researcher and author Paul Stoltz. Inspirational and

Over half of acquisitions fail and acquirers keep making the same fatal mistakes time and time again: poor planning, a lack of communication and mishandled implementation. This book explores the process of acquiring through an in depth look at its various stages and enables the reader to understand the process in order to avoid its pitfalls. Throughout the book practical tools and up to date information analysis are used to demonstrate the latest in acquisition best practice. In addition five case studies are used to illustrate the process of acquiring and examine how different companies approached their respective acquisitions and their varying degrees of success. Including focused consideration of the key success determinants such as the psychology of acquisition, pre-acquisition planning, communication and acquisition development, this book is a vital guide for all those considering the acquisition process.

Graduate students, college libraries, and organizations or management teams will benefit tremendously when they acquire and use the solutions to the case studies in this book. Case studies are the well-established and proven techniques that guide

Access PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

students or management teams to adopt prudent concepts theoretically in real-world situations. These studies can help to address an organization's dilemma depending upon the expectations of the stakeholders and the investors. In this edition, this book gives readers access to exemplary solutions to case studies drawn from a wide variety of cases in both academic and applied fields. By studying these examples, students can actively develop their skills in problem-solving using analytical tools to make decisions in complex situations. The reader can cope with ambiguities and learn how to apply optimal solutions in similar situations. It is a must read for anyone intending to tackle managerial case studies.

This chapter is from the book "Conquering Global Markets: Secrets from the World's Most Successful Multinationals" which presents the findings of one of the largest research projects undertaken of its type. Senior executives from fifty multinational companies from sixteen countries were interviewed to understand the issues, risks, challenges and key success factors of how companies have globalized using greenfield investment, joint ventures and alliances as well as mergers and acquisitions. This chapter discusses the historical routes and factors influencing the market entry mode choices made. Historical patterns of internationalization are discussed including the Uppsala Theory, networking theory, "born global", and early internationalizer theories. A fifth pattern is identified and discussed, the

Access PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

"opportunistic globalizer". Those interviewed for the research indicated that four factors heavily influenced their choice of entry mode. Those factors were control, speed, local market awareness, and resource allocation all of which are discussed in depth. Further factors that can influence market entry choice are also discussed and include: openness to inward investment, corruption, competition, risk markets, and intellectual property rights are also discussed. Quotes from participants are used throughout the chapter and a case study highlighting the expansion profile of Teva Pharmaceuticals is summarized.

Are you a fast developing company at a strategic inflection point? A tech start-up that needs to raise funds? Or you have raised funds and now need to deliver? Are you the investor and wants to secure your ROI? In any case, you have an ambition for rapid growth, you look for performance and efficiency or you consider international expansion. This book is for you, regardless of your company size or sector. It comes from the author's field experience of business and entrepreneurship in Silicon Valley and in Europe. A Ph.D in Material Sciences and a HEC Paris graduate, Chantal Neri has been engaged in innovation for 20+ years. Her mission to "scale technology into profitable business" is targeted to help companies grow successfully. In Silicon Valley, she has evolved in the global and fast-paced high-tech sector. In Europe, she has consulted with 400+ CEOs and brings her expertise to

Access PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

EASME, the Executive Agency for economic development of the European Commission. She speaks, writes, trains and advises CEOs on entrepreneurship, growth strategies, performance, marketing and innovation. Bursting with ideas and real-life examples, buzzing with positive energy from start to finish, this concentrated fun-filled book presents the best proven strategies to create an uncontested market space and make the competition irrelevant. It explains how to:

- * Grow your business, income and profitability,**
- * Launch new or innovative products successfully,**
- * Attract new customers and keep them,**
- * Conquer international market,**
- * Outthink the competition,**
- * Sell more,**
- * Raise your performance level,**
- * Have a winning attitude !**

Utterly practical and results-oriented, this book aims to bring the conquering vision and methods of Silicon Valley companies to all disruptors and strivers of the world. If you feel like one of them, get this book now! Today's financial and economic tribulations were a long time in the making. Many people ask, "Why didn't someone see it coming?" A New York Times bestselling book did see it coming. Over 100,000 people read it in time to protect their wealth. The book foresaw and explained the collapse in home prices, plunge in stocks, subprime debacle, liquidity crisis, the demise of Fannie and Freddie, the Federal Reserve's failure to turn the trend, and lots more. The book was Robert Prechter's Conquer the Crash, published in early 2002, when the Dow was above 10,000 and

Access PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

the financial world was partying around-the-clock. Fast forward to today: the average U.S. homeowner has suffered a decline of 30% to 40% in property value. Stocks and commodities had their biggest fall since 1929-1932. Fannie Mae is a zombie corporation under the government's protection. The Fed has pushed every button at its disposal (and then some), to no avail. If Prechter thought a whole new book would help, he'd have written one. But Conquer the Crash is a book-length forecast that's still coming true -- only some of the future has caught up with the specific predictions he published back then. There is much more to come. That means more danger, but also great opportunity. Conquer the Crash, 2nd edition offers you 188 new pages of vital information (480 pages total) plus all the original forecasts and recommendations that make the book more compelling and relevant than the day it published. In every disaster, only a very few people prepare themselves beforehand. Think about investor enthusiasm in 2005-2008, and you'll realize it's true. Even fewer people will be ready for the soon-approaching, next leg down of the unfolding depression. In this 2nd edition, Prechter gives a warning he's never had to include in 30 years of publishing -- namely, that the doors to financial safety are closing all over the world. In other words, prudent people need to act while they can. Conquer the Crash, 2nd Edition readers will receive exclusive online access to the Conquer the Crash Readers Page, where Prechter continually updates

Tema sentral buku ini adalah bagaimana nilai Islam dan kapitalisme terdapat di dalam perusahaan multinasional Timur Tengah di Indonesia. Penelitian ini mengeksplorasi relasi Islam dengan kapitalisme secara konsep dan praktis di Indosat Ooredoo dan Qatar. Metodologi penelitian di dalam penelitian ini adalah kualitatif dengan analisa deskriptif, menggunakan pendekatan konstruktivisme Onuf dan hermeneutika Ricoeur atas laporan tahunan Indosat Ooredoo. Penelitian terdahulu menunjukkan bahwa terdapat hubungan antara Islam dan Kapitalisme di kawasan Laut Tengah (Banaji), Turki (Adas) dan Maroko (Willis, Doukkali). Hubungan tersebut dilihat dalam perspektif kultural (Karim), sosiologis (Turner) juga manajerial (Chowdhury). Bahkan praksis kapitalisme dalam Islam sudah dijalankan oleh para

Acces PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

pedagang muslim pada abad pertengahan—dan juga Muhammad SAW dikenal sebagai pedagang (Labib). Hasil penelitian dalam buku ini menunjukkan Islam dan kapitalisme itu komptibel, baik dari segi konsep maupun praktik. Nilai Islam di sini adalah tawh{id, 'adl, nubuwwah, khila>fah dan ma'ad. Adapun nilai kapitalisme yang dieksplorasi dalam penelitian ini terdiri dari property, monopoly, contract, bankruptcy dan law enforcement. Kedua nilai tersebut kompatibel dengan nilai perusahaan yaitu Trust, Care, Passion To Be The Best dan Fast, juga dengan model pembangunan ekonomi Qatar sebagai home country dari Indosat Ooredoo, yaitu entrepreneurial state dan state-capitalism. China has increased its engagement with the world and is pursuing ambitious economic goals. Much has been written about the economic and social impact of Inbound Foreign Direct Investment (IFDI) on China with the transfer-in of Western resources and expertise. Less has been written, in an accessible way at least, on the unleashing of the entrepreneurial spirit and Outbound Foreign Direct Investment (OFDI) of China as Chinese firms have gone global. The global expansion of Chinese firms is a recent phenomenon, which is not well understood. The book is aimed at providing an important context for understanding the challenges and biases Chinese firms face while going global, using a multi-disciplinary approach weaving themes from history, contemporary Chinese politics, geopolitics, international

Access PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

relations, economics, finance, strategy, culture and society, together with the role of management education in developing entrepreneurs' capabilities for success. The book also explores the basis upon which Chinese firms can compete outside their domestic market by using a Four Cs' framework -- core capabilities, cultural adaptability, competencies of management and country of origin. The book argues that weaknesses in several of the Four Cs' might be compensated for by the Fifth C -- cooperation from government. The book will appeal to the growing legion of China-watchers and general readers who are open-minded and keen to better understand their increasing profile of Chinese firms in international markets. Are they a threat? To whom? And why? Contents: The China Dream The Facts on Chinese OFDI The Five Biases The Barrier of Political Ideology The Complexity of Culture International Strategy Firm Performance and the Role of the Financial System Management Education Concluding Remarks Readership: General readers interested in China's Economy, China's overseas investment, Chinese firms' international strategies. Keywords: Chinese Firms; Globalization; OFDI; Biases; Insurmountable Challenges; Management Capabilities; Political Ideology; Culture; Management Education Review: Key Features: Comprehensive and rigorous, but accessible treatment of an important topic that is rarely addressed in a balanced manner in most western

Access PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

media discourse Bridges academia and popular treatment in a unique manner which appeals to both the Chinese and Western readers Conquering Global Markets offers assessments of the issues, statistics, cases, and best practices of mergers, acquisitions, joint ventures and alliances throughout the world. Using information gleaned interviews with CEOs, the book provides insights into making global M&As successful.

Overcoming the Barriers to Personal and Corporate Success

Over time we have seen large corporations, in many cases with multinational operations, begin to play an increasingly significant role in modern society. This in turn has put the governance of these corporations into focus. Against this background, Corporate Governance in Action helps provide a framework for examining corporate governance through a focus provided by external pressures on large corporations. It also brings together the approach of economics and finance with theories in organization studies, such as aspects of resource dependency theory. This framework takes into consideration not only the market relations of modern corporations but also their dependence on regulators and different kind of scrutinizers. This thoughtful book is a complete research guide that provides a new understanding and applicable framework for advanced students, academics and researchers in the area of corporate governance and the related disciplines.

This book is for diligent individuals aiming for the edge in

business negotiations. The secrets revealed in this book are based on ancient strategic principles and have been evaluated by seasoned executives. Frank Feather, Special Advisor to Govt of China on economic modernization and market reform since 1984, says about Conquering China: "This excellent pocket-sized book is your passport to business success in China! It is crammed with bite-sized pieces of essential content - all pertinent, relevant, well-written, and to-the-point. Take it on the airplane to read, and skim it before every key meeting." If you are serious about doing business with the Chinese and want the inside scoop: save tens of thousands of dollars by avoiding to make the obvious yet subtle mistakes by learning & applying the secrets as described in this book.

NEW YORK TIMES BESTSELLER Shortlisted for the Financial Times/McKinsey Business Book of the Year Award The unbelievable story of a secretive mathematician who pioneered the era of the algorithm--and made \$23 billion doing it. Jim Simons is the greatest money maker in modern

Access PDF Conquering Global Markets Secrets From The Worlds Most Successful Multinationals

financial history. No other investor--Warren Buffett, Peter Lynch, Ray Dalio, Steve Cohen, or George Soros--can touch his record. Since 1988, Renaissance's signature Medallion fund has generated average annual returns of 66 percent. The firm has earned profits of more than \$100 billion; Simons is worth twenty-three billion dollars. Drawing on unprecedented access to Simons and dozens of current and former employees, Zuckerman, a veteran Wall Street Journal investigative reporter, tells the gripping story of how a world-class mathematician and former code breaker mastered the market. Simons pioneered a data-driven, algorithmic approach that's sweeping the world. As Renaissance became a market force, its executives began influencing the world beyond finance. Simons became a major figure in scientific research, education, and liberal politics. Senior executive Robert Mercer is more responsible than anyone else for the Trump presidency, placing Steve Bannon in the campaign and funding Trump's victorious 2016 effort. Mercer also impacted the campaign behind Brexit. *The Man Who Solved the Market* is a

A Washington Post Notable Book of the Year • An Economist Book of the Year
“A must-read for anyone wanting to better understand what has already happened here in America and what lies ahead if Trump is reelected in November.... A magisterial account of the money and violence behind the world's most powerful dictatorships.” –Washington Post In this shocking, meticulously reported work of narrative nonfiction, an award-winning investigative journalist exposes “capitalism’s monster”—global kleptocracy—and reveals how it is corrupting the world around us. They are everywhere, the thieves and their people. Masters of secrecy. Until now we have detected their presence only by what they leave behind. A body in a burned-out Audi. Workers riddled with bullets in the Kazakh Desert. A rigged election in Zimbabwe. A British banker silenced and humiliated for trying to expose the truth about the City of London. They have amassed more money than most countries. But what they are really stealing is power. In this real-life thriller packed with jaw-dropping revelations, award-winning investigative journalist Tom Burgis weaves together four stories that reveal a terrifying global web of corruption: the troublemaker from Basingstoke who stumbles on the secrets of a Swiss bank, the ex-Soviet billionaire constructing a private empire, the righteous Canadian lawyer with a mysterious client, and the Brooklyn crook protected by the CIA. Glimpses of this shadowy world have emerged over the years. In Kleptopia, Burgis connects the

dots. He follows the dirty money that is flooding the global economy, emboldening dictators, and poisoning democracies. From the Kremlin to Beijing, Harare to Riyadh, Paris to the White House, the trail shows something even more sinister: the thieves are uniting. And the human cost will be great.

If you've ever been paralyzed in fear, and your fears have kept you from following your dreams, this book is for you. Nadine Larder is an entrepreneur turned artist who overcame her fears and created a masterpiece - The 11:11 Masterpiece Wall. She shares the details of her journey in this moving and inspirational journal along with the miraculous story of how it all came to be. If you ever wondered about being able to manifest your dreams, her journey is a true testament that anything and everything is possible. In the pages of this full color journal, you'll find so many amazing photos, complete vulnerability, sincere truth, the absolute fear of failure and the reality of what can happen when you set your fears aside and power through.

This work brings together major accords and protocols that form the institutional framework of the Commonwealth of Independent States (CIS); a selection of policy statements by the leaders of CIS countries; a chronological record of political, economic and military security developments and major crises in CIS "hot spots"; and statistics and country profiles.

Between 1492 and 1914, Europeans conquered 84 percent of the globe. But why

did Europe establish global dominance, when for centuries the Chinese, Japanese, Ottomans, and South Asians were far more advanced? In *Why Did Europe Conquer the World?*, Philip Hoffman demonstrates that conventional explanations—such as geography, epidemic disease, and the Industrial Revolution—fail to provide answers. Arguing instead for the pivotal role of economic and political history, Hoffman shows that if certain variables had been different, Europe would have been eclipsed, and another power could have become master of the world. Hoffman sheds light on the two millennia of economic, political, and historical changes that set European states on a distinctive path of development, military rivalry, and war. This resulted in astonishingly rapid growth in Europe's military sector, and produced an insurmountable lead in gunpowder technology. The consequences determined which states established colonial empires or ran the slave trade, and even which economies were the first to industrialize. Debunking traditional arguments, *Why Did Europe Conquer the World?* reveals the startling reasons behind Europe's historic global supremacy.

M. Blaine Smith shares his insights and counsel with all who struggle with shyness and fear that it is holding them back socially, in the workplace and even spiritually. The first historical study of export control regulations as a tool for the sharing and withholding of knowledge. In this groundbreaking book, Mario Daniels and John Krige set out to show the enormous political relevance that export control regulations have had for American debates about national security, foreign policy, and trade policy since 1945. Indeed, they argue that from the 1940s to today the issue of how to control the transnational movement of information has been central to the thinking and actions of the guardians of the American national security state. The expansion of control over knowledge and know-how is apparent from the increasingly systematic inclusion of universities and research institutions into a system that in the 1950s and 1960s mainly targeted business activities. As this book vividly reveals, classification was not the only—and not even the most important—regulatory instrument that came into being in the postwar era.

A riveting account of the five most crucial days in twentieth-century diplomatic history: from Pearl Harbor to Hitler's declaration of war on the United States. By early December 1941, war had changed much of the world beyond recognition. Nazi Germany occupied most of the European continent, while in Asia, the Second Sino-Japanese War had turned China into a battleground. But these conflicts were not yet inextricably linked—and the United States remained at peace. Hitler's American Gamble recounts the five days that upended everything: December 7 to 11. Tracing developments in real time and backed by deep archival research, historians Brendan Simms and Charlie Laderman show how Hitler's intervention was not the inexplicable decision of a man so bloodthirsty that he forgot all strategy, but a calculated risk that can only be understood in a truly global context. This book reveals how December 11, not Pearl Harbor, was the real watershed that created a world war and transformed international history.

factors” that can block the path to innovation success, along with solutions to energize innovation. Original advances in innovation practice and new case studies are applied to guide inventors, entrepreneurs, companies, universities, and even policy makers in conquering innovation fatigue. Cost-effective solutions include guidance on intellectual assets, dealing with disruptive innovation, and driving innovation using the “Horn of Innovation” and “Circuit of Innovation” models. A surprising view of DaVinci as an engine of open innovation is presented. Throughout the book, a unique aspect is exploring the journey of innovators, including corporate employees and entrepreneurs, at the often-overlooked personal level using the metaphor of immigrants in a strange land to identify barriers and solutions.
