Get one step closer to becoming a Florida general contractor with a prep course designed by 1ExamPrep to help you conquer the required Business and Finance examination.-100's of practice questions and answers-test-taking techniques and practice exams-Book overviewsCovered topics include contracting business, managing administrative duties, managing trade operations, conducting accounting functions, managing human resources, complying with government regulationThe Business and Finance exam is a requirement for all types of contractors to become licensed in the State of Florida. This exam must be taken in addition to the contractor or trade exam for which you are trying to become licensed. Topics covered on the business and finance exam portion are establishing the contracting business, managing administrative duties, managing trade operations, conducting accounting functions, managing human resources, and complying with government regulation

In Georgia it is the Georgia Secretary of State's office that accepts licensure applications from contractors. One must have a professional license issued by this office in order to begin new construction works in Georgia. The exam has two parts, the first being the Business and Law test, which is covered by this book. The test covers a wide range of fundamental topics but this study notes will focus on topics related to accounting, finance, purchasing, cost control, human resources and the rules/regulations related to the building and construction

profession. There is no way you can pass the exam without having solid real world experience. Our notes give you knowledge, principles and concepts. To master the topics, you must be "in the field" - you need to go through the real world plans, the various contract documents and the various administrative paperworks all by yourself. And you need to know how the experts get things done. To succeed in the exam, you also need to read as many reference books as possible. There is no single book that can cover everything!
