Winner of the 2001 National Book Award for Fiction Nominated for the National Book Critics Circle Award An American Library Association Notable Book Jonathan Franzen's third novel, *The Corrections*, is a great work of art and a grandly entertaining overture to our new century: a bold, comic, tragic, deeply moving family drama that stretches from the Midwest at mid-century to Wall Street and Eastern Europe in the age of greed and globalism. Franzen brings an old-time America of freight trains and civic duty, of Cub Scouts and Christmas cookies and sexual inhibitions, into brilliant collision with the modern absurdities of brain science, home surveillance, hands-off parenting, do-it-yourself mental healthcare, and the anti-gravity New Economy. With *The Corrections*, Franzen emerges as one of our premier interpreters of American society and the American soul. Enid Lambert is terribly, terribly anxious. Although she would never admit it to her neighbors or her three grown children, her husband, Alfred, is losing his grip on reality. Maybe it's the medication that Alfred takes for his Parkinson's disease, or maybe it's his negative attitude, but he spends his days brooding in the basement and committing shadowy, unspeakable acts. More and more often, he doesn't seem to understand a word Enid says. Trouble is also brewing in the lives of Enid's children. Her older son, Gary, a banker in Philadelphia, has turned cruel and materialistic and is trying to force his parents out of their old house and into a tiny apartment. The middle child, Chip, has suddenly and for no good reason quit his exciting job as a professor at D----- College and moved to New York City, where he seems to be pursuing a "transgressive" lifestyle and writing some sort of screenplay. Meanwhile the baby of the family, Denise, has escaped her disastrous marriage only to pour her youth and beauty down the drain of an affair with a married man--or so Gary hints. Enid, who loves to have fun, can still look forward to a final family Christmas and to the ten-day Nordic Pleasurelines Luxury Fall Color Cruise that she and Alfred are about to embark on. But even these few remaining joys are threatened by her husband's growing confusion and unsteadiness. As Alfred enters his final decline, the Lamberts must face the failures, secrets, and long-buried hurts that haunt them as a family if they are to make the corrections that each desperately needs.

Corrections: From Research, to Policy, to Practice is focused on corrections as it is in the 21st Century and the treatment and rehabilitative themes that are driving it, rather than the mass incarceration and penal harm sentiments of the 1990s. Authors Mary K. Stohr and Anthony Walsh offer a comprehensive and practical approach, offering coverage of often-overlooked topics like problem-solving courts, classification and assessment, correctional organization and management, and comparative corrections. Weaving together research, policy, and practice, *Corrections* offers students an essential understanding of the punishment and treatment of offenders in U.S. correctional institutions.

The Book of Corrections

A rich examination of the neglect and abuses occurring to women in correctional facilities, Women, Incarceration, and Human Rights Violations draws upon a wealth of case studies from around the world and class action lawsuits to shed light on 'covert' abuse such as sexual or physical abuse, as well as 'overt' abuse such as the denial of medical treatment. Adopting a feminist framework, this book offers a comparative evaluation of abuse in domestic and international correctional facilities, demonstrating the extent to which women are at high risk of being sexually abused and re-victimized in the correctional system, where pregnancy and other specific medical and health issues are consistently ignored. Calling attention to the necessity of addressing the gender-specific needs of women who are incarcerated, Women, Incarceration, and Human Rights Violations offers a review of current policy, laws, and regulation bearing on the issue, while providing concrete recommendations and policy changes to address abuses. As such it will appeal to sociologists, criminologists, and policymakers concerned with questions of gender, penology, and institutional abuse.

Corrections: Exploring Crime, Punishment, and Justice in America provides a thorough introduction to the topic of corrections in America. In addition to providing complete coverage of the history and structure of corrections, it offers a balanced account of the issues facing the field so that readers can arrive at informed opinions regarding the process of corrections in America. The third edition introduces new content and fully updated information on America's correctional system in a lively, colorful, readable textbook

Written by scholars who have practical experience in corrections, the readable essays in this one-of-a-kind collection draw on real-world experiences to illustrate theoretical and methodological concepts and demonstrate approaches to corrections practice. Spanning the three general types of correctional environments—incarceration, community corrections, and juvenile corrections—the essays discuss working in prisons or prison systems, juvenile residential and community corrections, and probation and parole.

This book features unique insights of the complex world of probation in the U.S. with an emphasis on the role of human dignity.

Corrections in the 21st Century

Corrections in the United States

According to his obituary, Wesley Sultan died at the age of 63, leaving behind three children, a wife, an ex-wife, a brother, a sister, and a life-long business career. According to his obituary, Wesley Sultan led a quiet, respectable, and unremarkable life. Our narrator, however, is about to discover that nothing could be further from the truth. Using Sultan's obituary as a road map to the unknown terrain of the man himself, our narrator discovers dead-ends, wrong turns, and unexpected destinations in every line. As he travels from the bleak Michigan winter to the steamy streets of Miami to the idyllic French countryside, in search of those who knew Wesley best, he gradually reconstructs the life of an exceptionally handsome, ambitious, and deceptive man to whom women were everything. And as the margins of the obituary fill with handwritten corrections, as details emerge and facts are revised, our mysterious narrator-whose interest in his quarry is far from random-has no choice but to confront the truth of his own life as well.

Introduction to Corrections provides students with an understanding of basic concepts in the field of corrections. Designed for introductory corrections courses in criminal justice programs at two- and four-year schools, for both traditional ground and online settings, it offers comprehensive coverage of both institutional and community corrections, with particular emphasis on the perspective of the practitioner. Students taking corrections classes often have wild misconceptions about prison work and the corrections environment - misconceptions typically derived from movies and the news, and even current textbooks. In this new text, Robert Hanser uses his own on-the-ground experience to colorfully explain how the corrections system actually works, and what it's like to be a part of it.

Corrections in the 21st Century uses a practical approach to introduce students to the ideas and practices characteristic of modern corrections while equipping them with the skills necessary to succeed in the field. Its approach to corrections includes a thorough description of correctional ideology, a comprehensive overview of correctional practice, and the development of personal skills applicable to the corrections field. The text's central theme throughout is professionalism in corrections. The fifth edition offers an enhanced the theme of evidence-based corrections as a way of measuring the effectiveness of corrections policies and practices. Utilizing the latest data, up-to-the-minute news, and cutting-edge technological developments, students learn to be an effective and ethical corrections professional in today's interdependent world.

In Addicted to Incarceration, author Travis C. Pratt uses an evidence-based approach to explore the consequences of what he terms America's "addiction to incarceration." Highlighting the scope of the issue, the nature of the political discussions surrounding criminal justice policy in general and corrections policy in particular, and the complex social cost of incarceration, this book takes an incisive look at the approach to corrections in the United States. The Second Edition demonstrates that the United States' addiction to incarceration has been fueled by American citizens' opinions about crime and punishment, the effectiveness of incarceration as a means of social control, and perhaps most important, by policies legitimized by faulty information. Analyzing crime policies as they relate to crime rates and society's ability to both lower the crime rate and address the role of incarceration in preventing future crime, the book shows students how ineffective the rush to incarcerate has been in the last decade and offers recommendations and insights to navigate this significant problem going forward.

Collaborative efforts between police and corrections personnel are gaining steam as we move toward the new millenium. This report examines this trend in criminal justice and provides a look at initial elements jurisdictions should consider when moving toward this kind of partnership. The principle of this partnership is to join valuable resources and share important crime fighting information so goals common to each agency can be achieved. The report uses case studies of current applications throughout the USA to examine the advantages and difficulties encountered in implementing such partnerships. For example, this exchange of information

between police and corrections allow police officers to be better prepared in detecting violation of parolees. *Corrections in the Community*, Seventh Edition, examines the current state of community corrections and proposes an evidence-based approach to making programs more effective. As the U.S. prison and jail systems continue to struggle, options like probation, parole, alternative sentencing, and both residential and non-residential programs in the community continue to grow in importance. This text provides a solid foundation and includes the most salient information available on the broad and dynamic subject of community corrections. Authors Latessa and Lovins organize and evaluate the latest data on the assessment of offender risk/need/responsivity and successful methods that continue to improve community supervision and its effects on different types of clients, from those with mental illness or substance abuse problems to juveniles. This book provides students with a thorough understanding of the theoretical and practical aspects of community corrections and prepares them to evaluate and strengthen these crucial programs. This seventh edition includes new chapters on pretrial, and graduated responses as well as updated information on specialty drug and other problem-solving courts. Now found in every state, these specialty courts represent a way to deal with some of the most devastating problems that face our population, be it substance abuse or re-entry to the community from prison. Chapters contain key terms, boxed material, review questions, and recommended readings, and a glossary is provided to clarify important concepts. The instructor's guide is expanded, offering sample syllabi for semester, quarter, and online classes; student exercises; research and information links; and a transcription of the Bill of Rights. A test bank and lecture slides are also available at no cost.

Police-corrections Partnerships

The authors of the Fifth Edition of *Human Relations and Corrections* contend that effective relationships are the key component to correctional successes. The inmate, judge, probation officer, correctional officer, counselor, cleric, warden/superintendent, and others interact to form critical relationships that can either enhance or detract from the rehabilitative and correctional potential of incarcerated offenders, as well as those on probation and parole. This thought-provoking collection of case studies enables the reader to assume each of these roles, engages them in ethical analysis of real-life situations, and immerses them in the complex decision-making processes necessary to solve the problems encountered in today's correctional process.

An IntroductionAn Introduction

Human Relations and Corrections

For one-semester, undergraduate/graduate introductory corrections courses. Comprehensive in scope and contemporary in perspective, this introduction to corrections in the U.S. covers the history, functions, types, and issues of jails and prisons. It explains parole and community-based corrections programs; surveys various aspects of corrections personnel; and explores the special issues of women and juveniles in relation to the system. Up-to-date material, and legal cases affecting correctional law and institutional corrections, provide students with broad coverage of both institutional and community corrections, probation, and parole.

Key Issues in Corrections critically analyzes the most important challenges affecting the correctional system in the USA, offering a no-nonsense explanation of the problems of correctional officers, correctional managers, prisoners, and the public.

One of the first contemporary works to bring together research focused on community corrections

officers, *Professional Lives of Community Corrections Officers: The Invisible Side of Reentry*, by Faith E. Lutze, helps readers understand the importance of community corrections officers to the success of the criminal justice system. The author brings the important work of these officers out from the shadows of the prison and into the light of informed policymaking, demonstrating how their work connects to the broader political, economic, and social context. Arguing that they are "street-level boundary spanners" who are in the best position to lead effective reentry initiatives built on interagency collaboration, the author shows how community corrections officers can effectively lead a fluid response to reentry that is inclusive of control, support, and treatment. This supplement is ideal for community corrections or probation and parole courses to supplement core textbooks.

This report concludes that overall, Corrections; payments for hospital care services have risen \$59.4 million from FY1998-99 through 2002-03, and grew at an average rate of 21% per year, outpacing the national consumer price index average of 8% annual growth for hospital services during this same period. The reasons for this growth can be attributed to the combination of more expensive health care and to Corrections; increased use of contracted hospital facilities. Analysis indicates that increases in its inpatient hospital payments are driven primarily by more expensive services, whereas increases in its outpatient hospital payments are driven by increases in both the price of services and number of hospital visits. Enid Lambert begins to worry about her husband when he begins to withdraw and lose himself in negativity and depression as he faces Parkinson's disease.

In the second edition of this introductory text, the authors offer the idea of the corrections system to enhance understanding of the complexity of corrections. Students become aware that there are not just prisons, but a wide variety of programs and methods to deal with offenders.

***Corrections: A Critical Approach* (third edition) confronts mass imprisonment in the United States, a nation boasting the highest incarceration rate in the world. This statistic is all the more troubling considering that its correctional population is overrepresented by the poor, African-Americans, and Latinos. Not only throwing crucial light on matters involving race and class, this book also identifies and examines the key social forces shaping penal practice in the US — politics, economics, morality, and technology. By attending closely to historical and theoretical development, the narrative takes into account both instrumental (goal-oriented) as well as expressive (cultural) explanations to sharpen our understanding of punishment and the growing reliance on incarceration. Covering five main areas of inquiry — penal context, penal populations, penal violence, penal process, and penal state — this book is essential reading for both undergraduate and graduate students interested in undertaking a critical analysis of penology.**

#1 NEW YORK TIMES Bestseller NATIONAL BOOK AWARD WINNER "A spellbinding novel" (People) from the New York Times bestselling author Jonathan Franzen, *The Corrections* is a comic, tragic epic of worlds colliding: an old-fashioned world of civic virtue and sexual inhibitions, a new world of home surveillance, hands-off parenting, do-it-yourself mental health care, and globalized greed. After almost fifty years as a wife and mother, Enid Lambert is ready to have some fun. Unfortunately, her husband, Alfred, is losing his sanity to Parkinson's disease, and their children have long since flown the family nest to the catastrophes of their own lives. The oldest, Gary, a once-stable portfolio manager and family man, is trying to convince his wife and himself that, despite certain alarming indicators, he is not clinically depressed. The middle child, Chip, has lost his seemingly secure academic job and is failing spectacularly at his new line of work. And Denise, the youngest, has escaped a disastrous marriage only to pour her youth and beauty down the drain of an affair with a married man—or so her mother fears. Desperate for some pleasure to look forward to, Enid has set her heart on an elusive goal: bringing her family together for one last Christmas at home.
