Queering Your Therapy Practice: Queer Theory, Narrative Therapy, and Imagining New Identities is the first practice-based book for therapists that presents queer theory and narrative therapy as praxis allies. This book offers fresh, hopeful resources for therapists committed to culturally responsive work with queer and trans people and the important others in their lives. It features clinical vignettes from the author's practice that bring to life the application of queer theory through the practice of narrative therapy and serve as teaching tools for the specific concepts and practices highlighted in individual, relational, and family therapy contexts. The text also weaves in questions for reflection and discussion, and Q-tips summarizing key points and practices. A practical resource for both seasoned therapists and students, Queering Your Practice Theory demonstrates how therapeutic practice can be informed, improved, and deepened by queer theory.

Multicultural counseling and psychology evolved as a response to the Eurocentrism prevalent in the Western healing professions and has been used to challenge the Eurocentric, patriarchal, and heteronormative constructs commonly embedded in counseling and psychology. Ironically, some of the practices and paradigms commonly associated with "multiculturalism" reinforce the very hegemonic practices and paradigms that multicultural counseling and psychology approaches were created to correct. In Decolonizing "Multicultural" Counseling through Social Justice, counseling and psychology scholars and practitioners examine this paradox through a social justice lens by questioning and challenging the infrastructure of dominance in society, as well as by challenging ourselves as practitioners, scholars, and activists to rethink our commitments. The authors analyze the ways well-meaning clinicians might marginalize clients and contribute to structural inequities despite multicultural or cross-cultural training, and offer new frameworks and skills to replace the essentializing and stereotyping practices that are widespread in the field. By addressing the power imbalances embedded in key areas of multicultural theory and practice, contributors present innovative methods for revising research paradigms, professional education, and hands-on practice to reflect a commitment to equity and social justice. Together, the chapters in this book model transformative practice in the clinic, the schools, the community, and the discipline. Among the topics covered: Rethinking racial identity development models. Queering multicultural competence in counseling. Developing a liberatory approach to trauma counseling. Decolonizing psychological practice in the context of poverty. Utilizing indigenous paradigms in counseling research. Addressing racism through intersectionality. A mind-opening text for multicultural counseling and psychology courses as well as other foundational courses in counseling and psychology education, Decolonizing "Multicultural" Counseling through Social Justice challenges us to let go of simplistic approaches, however well-intended, and to embrace a more transformative approach to counseling and psychology practice and scholarship.

A powerful and practical guide to help you navigate racism, challenge privilege, manage stress and trauma, and begin to heal. Healing from racism is a journey that often involves reliving trauma and experiencing feelings of shame, guilt, and anxiety. This journey can be a bumpy ride, and before we begin healing, we need to gain an understanding of the role history plays in racial/ethnic myths and stereotypes. In so many ways, to heal from racism, you must re-educate yourself and unlearn the processes of racism. This book can help guide you. The Racial Healing Handbook offers practical tools to help you navigate daily and past experiences of racism, challenge internalized negative messages and privileges, and handle feelings of stress and shame. You'll also learn to develop a profound racial consciousness and conscientiousness, and heal from grief and trauma. Most importantly, you'll discover the building blocks to creating a community of healing in a world still filled with racial microaggressions and discrimination. This book is not just about ending racial harm—it is about racial liberation. This journey is one that we must take together. It promises the possibility of moving through this pain and grief to experience the hope, resilience, and freedom that helps you not only self-actualize, but also makes the world a better place.

The college years are very stressful for many people, so it comes as little surprise that college-aged youth often suffer from diagnosable psychiatric disorders. Even among college students whose distress is not clinically diagnosable, the college years are fraught with developmental challenges that can trigger bouts of psychological suffering. Is it any wonder, then, that suicide is the second leading cause of death in this age group? In Mindfulness and Acceptance for Counseling College Students, clinical researcher Jacqueline Pistorello explores how mindfulness and acceptance-based approaches such as acceptance and commitment therapy (ACT), dialectical behavioral therapy (DBT), mindfulness-based cognitive therapy (MBCT), and mindfulness-based stress reduction (MBSR) are being utilized in higher education settings around the world to treat student mental health problems like severe depression, substance abuse, and eating disorders, and/or to help students thrive--both in and out of the classroom. This book offers easy-to-use programs for college counselors, therapists, instructors, administrators, and even high school counselors who are looking for tools to help high school students prepare for the transition to college. Counselors with extensive experience with mindfulness and acceptance approaches can learn new ways of adapting these approaches to interventions with college students, and counselors interested in these approaches but lacking experience can learn about these effective therapies. Finally, college administrators and staff can gain ideas for implementing mindfulness practices in various campus contexts to help promote student mental health or academic engagement. In addition to chapters by Steven C. Hayes, the founder of acceptance and commitment therapy, this book also contains an online Appendix with helpful original handouts, Power Point slides, and links to podcasts and lectures to help implement mindfulness-based approaches on different campuses. It is a wonderful resource for any professional who works with college students and who is interested in promoting psychological well-being. The Mindfulness and Acceptance Practica Series As mindfulness and acceptance-based therapies gain momentum in the field of mental health, it is increasingly important for professionals to understand the full range of their applications. To keep up with the growing demand for authoritative resources on these treatments, The Mindfulness and Acceptance Practica Series was created. These edited books cover a range of evidence-based treatments, such as acceptance and commitment therapy (ACT), cognitive behavioral therapy (CBT), compassion-focused therapy (CFT), dialectical behavioral therapy (DBT), and mindfulness-based stress reduction (MBSR) therapy. Incorporating new research in the field of psychology, these books are powerful tools for mental health clinicians, researchers, advanced students, and anyone interested in the growth of mindfulness and acceptance strategies. Praxis Core tests measure skills in reading, writing and mathematics.
