

## Counting Things Learn With Little Mouse

Vols. 5-15 include "Bibliography of child study," by Louis N. Wilson.

From the beloved author of Memoirs of an Imaginary Friend comes a wonderful new novel about a struggling man, written entirely in lists. Daniel Mayrock's life is at a crossroads. He knows the following to be true: 1. He loves his wife Jill... more than anything. 2. He only regrets quitting his job and opening a bookshop a little (maybe more than a little) 3. Jill is ready to have a baby. 4. The bookshop isn' t doing well. Financial crisis is imminent. Dan doesn' t know how to fix it. 5. Dan hasn' t told Jill about their financial trouble. 6. Then Jill gets pregnant. This heartfelt story is about the lengths one man will go to and the risks he will take to save his family. But Dan doesn' t just want to save his failing bookstore and his family' s finances: 1. Dan wants to do something special. 2. He' s a man who is tired of feeling ordinary. 3. He' s sick of feeling like a failure. 4. He doesn' t want to live in the shadow of his wife' s deceased first husband. Dan is also an obsessive list maker; his story unfolds entirely in his lists, which are brimming with Dan' s hilarious sense of humor, unique world-view, and deeply personal thoughts. When read in full, his lists paint a picture of a man struggling to be a man, a man who has reached a point where he' s willing to do anything for the love (and soon-to-be new love) of his life.

Let's Count Summer is a fun book for your toddler or preschool child to help learn their numbers from 1 to 20. There are colorful cartoon illustrations of different things you see during the summer season or at the beach or swimming pool. Pictures include sand castles, fish, watermelon, crabs, lemonade, beach towels, umbrellas, and balls. Your child can point to the objects while counting and learning about the seasons. Get a head start on your little one's education with this engaging book. For kids who are learning their numbers and counting, usually between ages 2 to 5. Check out the other counting books in the "Let's Count" series, including Let's Count Trucks!

A surprisingly simple way for students to master any subject--based on one of the world's most popular online courses and the bestselling book A Mind for Numbers and its wildly popular online companion course "Learning How to Learn" have empowered more than two million learners of all ages from around the world to master subjects that they once struggled with. Fans often wish they'd discovered these learning strategies earlier and ask how they can help their kids master these skills as well. Now in this new book for kids and teens, the authors reveal how to make the most of time spent studying. We all have the tools to learn what might not seem to come naturally to us at first--the secret is to understand how the brain works so we can unlock its power. This book explains: • Why sometimes letting your mind wander is an important part of the learning process • How to avoid "rut think" in order to think outside the box • Why having a poor memory can be a good thing • The value of metaphors

In developing understanding • A simple, yet powerful, way to stop procrastinating Filled with illustrations, application questions, and exercises, this book makes learning easy and fun.

NOW A NETFLIX FILM, STARRING ELLE FANNING AND JUSTICE SMITH! The New York Times bestselling love story about two teens who find each other while standing on the edge. And don't miss Take Me with You When You Go. Jennifer Niven's highly anticipated new book with bestselling author David Levithan! Theodore Finch is fascinated by death. Every day he thinks of ways he might kill himself, but every day he also searches for—and manages to find—something to keep him here, and alive, and awake. Violet Markey lives for the future, counting the days until in the wake of her sister's recent death. When Finch and Violet meet on the ledge of the bell tower at school—six stories above the ground— it's unclear who saves whom. Soon it's only with Violet that Finch can be himself. And it's only with Finch that Violet can forget to count away the days and start living them. But as Violet's world grows, Finch's begins to shrink. . . . A Book of Almost Counting Words

One More Wheel

Learn to count to ten with Little Mouse! This cute board book features a large lift-flap on every page, making learning to count easy and fun! With stylish retro-modern illustrations this is the perfect introduction to counting for young children.

Counting on Community is Innosanto Nagara's follow-up to his hit ABC book. A is for Activist. Counting up from one stuffed piñata to ten hefty hens--and always counting on each other--children are encouraged to recognize the value of their community, the joys inherent in healthy eco-friendly activities, and the agency they posses to make change. A broad and inspiring vision of diversity

is told through stories in words and pictures. And of course, there is a duck to find on every page!

A colorful I-Spy counting book.

The beloved debut novel about an affluent Indian family forever changed by one fateful day in 1969, from the author of The Ministry of Utmost Happiness NEW YORK TIMES BESTSELLER • MAN BOOKER PRIZE WINNER Compared favorably to the works of Faulkner and Dickens, Arundhati Roy's modern classic is equal parts powerful family saga, forbidden love story, and piercing political drama. The seven-

year-old twins Estha and Rahel see their world shaken irrevocably by the arrival of their beautiful young cousin, Sophie. It is an event that will lead to an illicit liaison and tragedies accidental and intentional, exposing "big things [that] lurk unsaid" in a country drifting dangerously toward unrest. Lush, lyrical, and unnerving, The God of Small Things is an award-winning landmark

that started for its author an esteemed career of fiction and political commentary that continues unabated.

For kids who are learning their numbers and counting, usually between ages 2 to 5. Check out the other counting books in the "Let's Count" series, including Let's Count Trucks!**

**NEW YORK TIMES BESTSELLER, uncensored history of the award-winning The Daily Show with Jon Stewart, as told by its correspondents, writers, and host. For almost seventeen years, The Daily Show with Jon Stewart brilliantly redefined the borders between television comedy, political satire, and opinionated news coverage. It launched the careers of some of today's most significant comedians, highlighted the hypocrisies of the powerful, and garnered 23 Emmys. Now the show's behind-the-scenes gags, controversies, and camaraderie will be chronicled by the players themselves, from legendary host Jon Stewart to the star cast members and writers-including Samantha Bee, Stephen Colbert, John Oliver, and Steve Carell - plus some of The Daily Show's most prominent guests and adversaries: John and Cindy McCain, Glenn Beck, Tucker Carlson, and many more. This oral history takes the reader behind the curtain for all the show's highlights, from its origins as Comedy Central's underdog late-night program to Trevor Noah's succession, rising from a scrappy jester in the 24-hour political news cycle to become part of the beating heart of politics-a trusted source for not only comedy but also commentary, with a reputation for calling bullshit and an ability to effect real change in the world. Through years of incisive election coverage, passionate debates with President Obama and Hillary Clinton, feuds with Bill O'Reilly and Fox, and provocative takes on Wall Street and racism, The Daily Show has been a cultural touchstone. Now, for the first time, the people behind the show's seminal moments come together to share their memories of the last-minute rewrites, improvisations, pranks, romances, blow-ups, and moments of Zen both on and off the set of one of America's most groundbreaking shows.**

*If you listen closely, the lone tree behind Oak Lane School has a story to tell. It starts with one owl, two spiders, and goes all the way up to ten earthworms using the tree as their home! So what does this tree need? Learn about the importance of trees and count from one to ten in this tale about going green.*

The God of Small Things

Oh, the Things You Can Count from 1-10

A Saga of Race, Civil Rights, and Murder in the Jazz Age

Illustrated by Coloured Diagrams and Engravings of Novel Teaching Devices

An electrifying story of the sensational murder trial that divided a city and ignited the civil rights struggle In 1925, Detroit was a smoky swirl of jazz and speakeasies, assembly lines and fistfights. The advent of automobiles had brought workers from around the globe to compete for manufacturing jobs, and tensions often flared with the KKK in ascendance and violence rising. Ossian Sweet, a proud Negro doctor-grandson of a slave-had made the long climb from the ghetto to a home of his own in a previously all-white neighborhood. Yet just after his arrival, a mob gathered outside his house; suddenly, shots rang out: Sweet, or one of his defenders, had accidentally killed one of the whites threatening their lives and homes. And so it began-a chain of events that brought America's greatest attorney, Clarence Darrow, into the fray and transformed Sweet into a controversial symbol of equality. Historian Kevin Boyle weaves the police investigation and courtroom drama of Sweet's murder trial into an unforgettable tapestry of narrative history that documents the volatile America of the 1920s and movingly re-creates the Sweet family's journey from slavery through the Great Migration to the middle class. Ossian Sweet's story, so richly and poignantly captured here, is an epic tale of one man trapped by the battles of his era's changing times. Arc of Justice is the winner of the 2004 National Book Award for Nonfiction.

This counting and coloring book is for toddlers that help bring nature alive. Children learn by experience and what better way to keep little ones busy by learning about living things in the ocean.Counting Starfish was inspired by sea stars living off the coast of Alaska. Young learners of English need to count numbers start from one to ten. Enjoy to learn counting with their favorite sea animals Counting numbers are the set of numbers that we use to learn how to count. 1, 2, 3, 4, 5, to ten. They are also called basic natural numbers. Any number you can use for counting things: 1, 2, 3, 4, 5, ... (and so on). The basic for your kids just start from 1-10.

Give your children their first exposure to numbers with the help of some animal friends.. The Kids Learning Essentials "Number Tracing For Preschoolers" book is a great way to get your children started counting, a valuable skill that is a must during your little one's development. Along with the help of some furry friends from the animal kingdom, give your preschooler the start they need!Many children come into preschool with a bit of knowledge on numbers and counting. They can count five to ten objects with some precision and can also read a few numbers. But many other children have not quite developed this knowledge. These children need many chances to learn the words for numbers, to count things, and to learn to read and write numbers. With "Number Tracing For Preschoolers", you can give them the chance they need.Our book doesn't just provide your child with numbers to trace - it provides detailed instructions on how to form the numbers exactly. The exercises aren't limited to number tracing, either: while part 1 is dedicated to tracing numbers 1 through 20, part 2 is all about counting. Guide your child through counting the animals on the page individually, then congratulate them on a job well done!Join our VIP Learning Essentials Club! When you join the Kids Learning Essentials VIP Learning Essentials Club, you'll get access to VIP only sales, FREE unique worksheets, early access to new releases, and more. Transform Your Life, Work, and Confidence with Everyday Courage

These Bees Count!

All the Bright Places

Throughout your life, you've had parents, coaches, teachers, friends, and mentors who have pushed you to be better than your excuses and bigger than your fears. What if the secret to having the confidence and courage to enrich your life and work is simply knowing how to push yourself? Using the science habits, riveting stories and surprising facts from some of the most famous moments in history, art and business, Mel Robbins will explain the power of a "push moment." Then, she'll give you one simple tool you can use to become your greatest self. It take just five seconds to use this tool, and every time you do, you'll be in great company. More than 8 million people have watched Mel's TEDx Talk, and executives inside of the world's largest brands are using the tool to increase productivity, collaboration, and engagement. In The 5 Second Rule, you'll discover it takes just five seconds to: Become confident Break the habit of procrastination and self-doubt Beat fear and uncertainty Stop worrying and feel happier Share your ideas with courage The 5 Second Rule is a simple, one-size-fits-all solution for the one problem we all face—we hold ourselves back. The secret isn't knowing what to do—it's knowing how to make yourself do it. p.p1 {margin: 0.0px 0.0px 0.0px 0.0px; font: 12.0px Arial}

A monthly journal for the musician, the music student, and all music lovers.

Unicycle. One wheel Bicycle. One more wheel Tricycle? Nope! Steamroller! One more wheel! In this novelty concept book with a moving multi-wheel cover, readers spin their way through a tale of two animal friends competing to find the vehicle with more wheels. Simple text and expressive artwork make this counting book an absolute delight for toddlers learning to count from one to ten. A new and often unexpected vehicle appears on each spread, from rollerskates to a jet. Readers won't be able to guess what's on the next page! A final spread expands to reveal a train with "all the wheels" and the two friends celebrating together.
