Jeff Garmire was living the fast paced life of a successful young professional when he gave it all up to embark on the adventure of a lifetime. He set out to become only the fifth person to thru-hike the Pacific Crest Trail, Appalachian Trail and Continental Divide Trail in a single calendar year. Finishing the 8,000 mile Calendar Year Triple Crown would be an adventure of a lifetime. The journey was riddled with inclement weather, shady characters, wildlife attacks, and injuries. Along the way Jeff swam frozen rivers, encountered wildfires and battled his own mind. He offers a captivating story of strength and courage. Hiking through some of the most remote areas in America, Jeff is continually overwhelmed by the kindness and generosity of strangers. Free Outside is the fascinating story of Jeff Garmire’s journey along the national historic trails that define wild America. Finishing would take everything he had, and he was willing to give it all.

This is a book about Courage and Patriotism. It tells the dramatic stories of a number of American politicians of various political and regional allegiances whose one overriding loyalty was to the United States and to the right as God gave them to see it. They range from born aristocrats to self-made men. Some are well-known, some almost forgotten. But all of them, in the face of dreadful consequences, exhibited a special kind of greatness. These stories about them remind us sharply that there is, in addition to a courage with which men die, a courage by which men must live. —Print Ed.

First published in 1958, this horrifying chronicle of the U.S.S. Indianapolis is updated with newly uncovered data retracing the privations suffered by survivors of this World War II vessel in the aftermath of a Japanese torpedo attack. Reprint.

Few people know that during the 2016 presidential campaign, former Secretary of State Hillary Rodham Clinton received a devotion every day. Over the course of those 20 months, Rev. Dr. Bill Shillady/a pastoral friend of Clinton’s/and a small team of other pastors provided the Democratic nominee with spiritual support to stay strong through arguably one of the more contentious elections in American history. Strong for a Moment Like This: The Daily Devotions of Hillary Rodham Clinton includes 365 of the more than 600 devotions written for Secretary Clinton, along with personal notes, portions of her speeches, and headlines that provide context for that day’s devotion. Clinton is writing the foreword, the first time post-election readers will have a chance to hear directly from her about her faith during that time. The book will include: • A foreword from Hillary Rodham Clinton •365 devotions • Selected reflections on the writing by the author • Selected responses from Secretary Clinton •Additional material including a timeline of events, speech excerpts, press selections, and quotes •Gorgeous gift-book packaging: a jacketed hardcover, ribbon, photographs, and a devotion-like interior design. The book’s devotions are organized into 12 themes, such as Forgiveness, Doing Good, Courage, and Women. A portion of the proceeds from the book will go to the United Methodist City Society in New York. As Secretary Clinton said in The New York Times (January 26, 2016), “My study of the Bible, my many conversations with people of faith, has led me to believe the most important commandment is to love the Lord with all your might and to love your neighbor as yourself. And that is what I think we are commanded by Christ to do. And there is so much more in the Bible about taking care of the poor, visiting the prisoners, taking in the stranger, creating opportunities for others to be lifted up, to find faith themselves that I think there are many different ways of exercising your faith.[] Strong for a Moment Like This gives readers an inside, personal look at the faith of one of our nation’s most lauded leaders.

This unique book explores research related to education for sustainability within early childhood education in the United Kingdom. Divided into the four home nations, it examines what education for sustainability looks like in practice, discusses the different application and positions of each region, and considers the contribution of early childhood education to support the Sustainable Development Goals. Each chapter considers the relevant early years framework and includes associated case studies which highlight connections between statutory guidance, policy and positive early years pedagogical practice. The authors use an education for sustainability lens to explore the critical issues and explicit and implicit links embedded in each of the curricula frameworks. Each chapter acknowledges the context of outdoor learning with discussion related to different interpretations of ecological sustainability. This exploration should help readers to consider the idea of sustainability within early childhood education. The book considers early childhood education as a distinct and valuable phase beyond the readiness for school discourse and recognises the importance of having skilful and knowledgeable adults to work with young children from birth. It offers a unique resource for students, practitioners, leaders and researchers engaged in the study of education for sustainability in early childhood and the importance of the early years for the development of life-long pro-environmental attitudes.

Chapters include case studies from a wide range of continents and regions including the U.S., Africa, Asia, Australia, Europe, Latin America, and the Middle East. Each case study pays careful attention to the unique historical, political, and cultural contexts of reform and closely examines how performance informed the budgetary process.
