For too long, women have been told to confine themselves—physically, socially, and emotionally. Eliza VanCort says now is the time for women to stand tall, raise their voices, and claim their space. Women fight the pressure to make themselves small in private, professional, and public spaces. Eliza VanCort, a teacher, consultant, and speaker, provides the necessary tools for women to rewrite the rules and create the stories of their choosing safely and without apology. VanCort identifies the five key behaviors of all “Space Claiming Queens”: use your voice and posture to project confidence and power, end self-sabotage, forge connections, neutralize unsafe spaces, and unite across differences. Through personal narrative, research, and actionable strategies, VanCort provides how-tos on combatting challenges like antimentors and microaggressions and gives advice for building up your “old girls” club, asking for what you're worth, and owning your space without apology. Bold, fun, and enlightening, this book is birthed from VanCort's incredible story. Having a mother with schizophrenia forced VanCort to learn to be small and invisible at an early age, and suffering a traumatic brain injury as an adult required her to rethink communication from the ground up. Drawing on these experiences, and those of real women everywhere, VanCort empowers women to claim space for themselves and for their sisters with courage, empathy, and conviction because “when we rise together, we rise so much higher.”

A tour de force.” -Eve Ensler "Terrifying, courageous reportage from our internal war zone." -Andrew Solomon "Extraordinary." -New York Times, "Editors' Choice" "Gut-wrenching, required reading." -Esquire "Compulsively readable. . . . It will save lives." -Washington Post "Essential, devastating reading." -Cheryl Strayed, New York Times Book Review An award-winning journalist's intimate investigation of the true scope of domestic violence, revealing how the roots of America's most pressing social crises are buried in abuse that happens behind closed doors. We call it domestic violence. We call it private violence. Sometimes we call it intimate terrorism. But whatever we call it, we generally do not believe it has anything at all to do with us, despite the World Health Organization deeming it a “global epidemic.” In America, domestic violence accounts for 15 percent of all violent crime, and yet it remains locked in silence, even as its tendrils reach unseen into so many of our most pressing national issues, from our economy to our education system, from mass shootings to mass incarceration to #MeToo. We still have not taken the true measure of this problem. In *No Visible Bruises*, journalist Rachel Louise Snyder gives context for what we don't know we're seeing. She frames this urgent and immersive account of the scale of domestic violence in our country around key stories that explode the common myths-that if things were bad enough, victims would just leave; that a violent person cannot become nonviolent; that shelter is an adequate response; and most insidiously that violence inside the home is a private matter, sealed from the public sphere and disconnected from other forms of violence. Through the stories of victims, perpetrators, law enforcement, and reform movements from across the country, Snyder explores the real roots of private violence, its far-reaching consequences for society, and what it will take to truly address it.

This book, Space Capstone Publication Spacepower: Doctrine for Space Forces, is capstone doctrine for the United States Space Force and represents our Service's first articulation of an independent theory of spacepower. This publication answers why spacepower is vital for our Nation, how military spacepower is employed, who military space forces are, and what military space forces value. In short, this capstone document is the foundation of our professional body of knowledge as we forge an independent military Service committed to space operations. Like all doctrine, the SCP remains subject to the policies and strategies that govern its employment. Military spacepower has deterrent and coercive capacities - it provides independent options for National and Joint leadership but achieves its greatest potential when integrated with other forms of military power. As we grow spacepower theory and doctrine, we must do so in a way that fosters greater integration with the Air Force, Army, Navy, Marine Corps, and Coast Guard. It is only by achieving true integration and interdependence that we can hope to unlock spacepower's full potential. Together these five women face hardship, passion and danger, and form a bond that sees them through their darkest hours, and lasts for the rest of their lives.

"The Auntie Sewing Squad Guide to Mask Making, Radical Care, and Racial Justice is a community manifesto of essays, poems, recipes, and art describing people who stepped up in the absence of government leadership. In March 2020, when the US government failed to provide personal protective equipment in the face of COVID-19, the Auntie Sewing Squad emerged to meet a critical need--sewing masks--and to critique the US government failure to protect the public's health. Led primarily by Asian American women and other women of color, including some who learned to sew from refugee mothers and grandmothers working in sweatshops, the Auntie Sewing Squad openly tells a history of exploited immigrant labor, while turning it on its head. The Auntie Sewing Squad became a cadre of dispersed mask-sewers who nimbly funneled masks to asylum seekers, indigenous communities, incarcerated people, and many others in need of protection. Sewing masks became a way not only to meet a public health need, but also to come together in mutual aid and to support cross-racial solidarity and political action in a moment of social upheaval"--

The school's responsibility is to provide an effective learning environment for students to achieve academic success. The California Safe Schools Assessment (CSSA) collects data on individual incidents of school crime from all California public schools and county-operated education programs. The California Department of Education strongly discourages comparisons between or among school districts and county offices of education (COE's). This handbook presents data on school incidents reported during 1995-96 from the four major crime categories--property crimes, crimes against persons, drug and alcohol offenses, and other. Some of the highlights include the following: (1) Property crimes were the most common crimes affecting California schools, representing 34 percent of all crimes reported and an incident rate of 4.9 per 1,000 students; (2) vandalism was the most commonly reported incident in the property-crimes category with an incident rate of 1.7 per 1,000 students; (3) crimes against persons represented 28 percent of all reported crimes with an incident rate of 4.1 per 1,000 students; (4) drug and alcohol offenses represented 26 percent of all reported crimes with an incident rate of 3.8 per 1,000 students; (5) of the reported crimes against persons, 89 percent of the incidents involved no weapon; and (6) students were most often identified as the victims in the crimes-against-persons category (89 percent). Five recommendations are included. Two tables and five figures are included. Appendices contain copies of the school-crime reporting form and reference guide to crime definitions; information on grant programs for 1996-97 through the California Department of Education Safe Schools and Violence Prevention Office; and data for incident frequencies and crime rates by COE and by county. CPCE Practice Questions are the simplest way to prepare for the CPCE test. Practice is an essential part of preparing for a test and improving a test taker's chance of success. The best way to practice taking a test is by going through lots of practice test questions. If someone has never taken a practice test, then they are unprepared for the types of questions and answer choices that they will encounter on the official test. There is a tremendous advantage to someone taking the test that is already familiar with the questions and answer choices. Another advantage of taking practice tests is that you can assess your performance and see if you need to study and practice more, or if you're already prepared enough to achieve success on your test day. If you do well on the practice test, then you know you're prepared. If you struggle on the practice test, then you know you may still have more work to do to get prepared. Taking lots of practice tests helps ensure that you are not surprised or disappointed on your test day. Our CPCE Practice Questions give you the opportunity to test your knowledge on a set of questions. You can know everything that is going to be covered on the test and it will not do you any good on test day if you have not had a chance to practice. Repetition is a key to success and using practice test questions allows you to reinforce your strengths and improve your weaknesses. Detailed answer explanations are also included for each question. It may sound obvious, but you have to know which questions you missed (and more importantly why you missed them) to be able to avoid making the same mistakes again when you take the real test. That's why our CPCE Practice Questions include answer keys with detailed answer explanations. These in-depth answer explanations will allow you to better understand any questions that were difficult for you or that you needed more help to understand.
