National Construction Estimator 2019

Current building costs for residential, commercial, and industrial construction. Estimated prices for every common building material, the labor cost to install the material and a total "installed" cost. For those jobs where you can't rely on your past experience to estimate, rely on the prices in this national standard of construction costs to get you safely in the ballpark. Provides manhours, recommended crew, and the labor cost for installation of every job and practically every type of material in construction. Provides clear descriptions on what is included in the job being estimated so you know exactly what the job and the prices for that job entail. Every cost is carefully described. It even provides suggested crew sizes, and equipment rates.

Consumer Union Reports

The area of Silver Creek Township was settled in the 1850s by Swedish immigrants who left their ancestral home to face the challenges of life in the new world. They cleared the land and developed a prosperous farming community, which they named Enfield when a post office was established in 1910. Enfield was a booming farm community in the early part of the 20th century, with schools, churches, a potato warehouse, a cheese factory, and its own baseball team. The rural farm community thrived for a century, but now the farming way of life has given way to a residential bedroom community for nearby Minneapolis. Those first homesteaders are long gone, but their legacy lives on, and many of their descendants continue to live and work in the community.
