Frugal Guide to creating and publishing the kind of content that will make your business thrive Everybody Writes is a go-to guide for attracting and retaining customers through stellar online communication, because in our content-driven world, every one of us is, in fact, a writer. If you have a web site, you are a publisher. If you are on social media, you are in marketing. And that means that we are all relying on our words to carry our marketing messages. We are all writers. Yeah, but who cares about writing anymore? In a time-challenged world dominated by short and snappy, by click-bait headlines and Twitter streams and Instagram feeds and gifs and video and Snapchat and YOLO and LOL and #btbt... . does the idea of focusing on writing seem pedantic and ordinary? Actually, writing matters more now, not less. Our online words are our currency; they tell our customers who we are. Our writing can make us look smart or it can make us look stupid. It can make us seem fun, or warm, or competent, or trustworthy. But it can also make us seem humdrum or discombobulated or flat-out boring. That means you've got to choose words well, and write with economy and the style and honest empathy for your customers. And it means you put a new value on an often-overlooked skill in content marketing: How to write, and how to tell a true story really, really well. That's true whether you're writing a listicle or the words on a Slideshare deck or the words you're reading right here, right now. . . And so being able to communicate well in writing isn't just nice; it's necessary. And it's also the oft-overlooked cornerstone of nearly all our content marketing. In Everybody Writes, top marketing veteran Ann Handley gives expert guidance and insight into the process and strategy of content creation, production and publishing, with actionable how-to advice designed to get results. These lessons and rules apply across all of your online assets - like web pages, home page, landing pages, blogs, email, marketing offers, and on Facebook, Twitter, LinkedIn, and other social media. Ann deconstructs the strategy and delivers a practical approach to create ridiculously compelling and competent content. It's designed to be the go-to guide for anyone creating or publishing any kind of online content - whether you're a big brand or you're small and solo. Sections include: How to write better. (Or, for "adult-onset writers": How to hate writing less.) Easy grammar and usage rules tailored for business in a fun, memorable way. (Enough to keep you looking sharp, but not too much to overwhelm you.) Giving your audience the gift of your voice. (Only you make the right decision by choosing WordPress and what they have to offer How to choose the right domain name and how to get your site live on the web with a host server Learn basic but vital SEO tips How to easily synchronize your chosen domain and host server with WordPress How to add a touch of your personality through the use of amazing themes! New York Times, Wall Street Journal, and USA Today Bestseller Tony Fadell led the teams that created the iPod, iPhone and Nest Learning Thermostat and learned enough in 30+ years in Silicon Valley about leadership, design, startups, Apple, Google, decision-making, mentorship, devastating failure and unbelievable success to fill an encyclopedia. So that's what this book is. An advice encyclopedia. A mentor in a box. Written for anyone who wants to grow at work-from young grads navigating their first jobs to CEOs deciding whether to sell their company-Build is full of personal stories, practical advice and fascinating insights into some of the most impactful products and people of the 20th century. Each quick 5-20 page entry builds on the previous one, charting Tony's personal journey from a product designer to a leader, from a startup founder to an executive to a mentor. Tony uses examples that are instantly captivating, like the process of building the very first iPod and iPhone. Every chapter is designed to help readers with a problem they're facing right now-how to get funding for their startup, whether to quit their job or not, or just how to deal with the jerk in the next cubicle. Tony forged his path to success alongside mentors like Steve Jobs and Bill Campbell, icons of Silicon Valley who succeeded time and time again. But Tony doesn't follow the Silicon Valley credo that you have to reinvent everything from scratch to make something great. His advice is unorthodox because it's old school. Because Tony's learned that human nature doesn't change. You don't have to reinvent how you lead and manage-just what you do. And Tony's ready to help everyone make things worth making.

We all know we're not supposed to judge books by their covers, but the truth is that we do just that nearly every time we walk into a bookstore or pull a book off a tightly packed shelf. It's really not something we should be ashamed about, for it reinforces something we sincerely believe: design matters. At its best, book cover design is an art that transcends the publisher's commercial imperative to reflect both an author's ideas and contemporary cultural values in a vivid, intelligent, and beautiful way. In this groundbreaking and lavishly illustrated history, authors Ned Drexler and Paul Sternberger establish American book design as a tradition of sophisticated, visual excellence that has put shape to our literary landscape. By Its Cover traces the story of the American book cover from its inception as a means of utilitarian protection for the book to its current status as an elaborately produced form of communication art. It is, at once, the intertwined story of American graphic design and American literature, and features the work of such legendary figures as Rockwell Kent, E. McKnight Kauffer, Paul Rand, Alvin Lustig, Rudy deHarak, and Roy Kuhlman along with more recent and contemporary innovators including Push Pin Studios, Chermayeff & Geismar, Karen Goldberg, Chip Kidd, and John Gall.

A tool to help gain momentum and clarity in the sometimes-confusing maze called life and work. The book covers subjects as diverse as parenting, finances, relationships, career, and more.
