Lawrence weaves a dystopian future filled with the best and worst of humanity, highlights the blessings and curses of technology, and pushes the limits of faith and hopelessness. What do you do after life has handed you a wake-up call? Author Brian Seth Hurst experienced a significant professional setback, but, rather than “ soldier on, ” he recognized it as a profound opportunity to acknowledge a deeper foundation at work in his life. It is the affirmation that there is sheer power in what one believes, and, for better or worse, those beliefs are the foundation for the reality we create. The question of “ Why? ” began a thirty-day inquiry and adventure for Hurst into the unknown. The result is the book W H O L E - a collection of powerful essays that examine how beliefs serve, or do not serve, us in our lives, how those beliefs can be transformed to change our circumstances, and the power of the ultimate connection to Source. What do you do after life has handed you a wake-up call? If you decide to remain awake, then you begin looking at your life. W H O L E is your companion as you review the past, balance all areas of your life, and begin to create anew. W H O L E prompts a very personal, progressive, and conscious examination of concepts and belief systems in every area of your life, ranging from relationships, work and time, to money, the environment, morality and your purpose. It asks provocative and thoughtful questions that lead to understanding. How do you reconcile everything that has happened and is happening in your life with the one you truly want? The good and the bad, the joy and the hurt, the wins and the losses - all those parts form the experience of your life and your identity. Yet, you are much greater than the sum of all those parts. W H O L E allows you to make sense of the pieces of your life as part of the greater being that is You. W H O L E presents you with the opportunity to reconcile the past, arrive wholly connected in the present, and create your future. W H O L E literally answers the question, “ What was I thinking? ” “ To know “ whole ” in the duality of your reality, you must know broken. To know broken is to recognize that you are, always have been, and always will be WHOLE. ”

WHEN IT COMES TO LOVE, SOMETIMES IT TAKES THE HEAD YEARS TO DISCOVER WHAT THE HEART HAS

ALWAYS KNOWN When Forbes Branson was a young man ready for something new. A senior in high school, he was a boy. Heir to a fortune, he knew what his life was going to be. But he wanted adventure first. A year to do what he wanted before college. An unexpected betrayal would change everything. Sophie Lipton was fifteen the first time on the Branson ranch. Dragged from one place to another, never having more than one pair of shoes or enough to eat. The moment she saw the wide open spaces, she felt she could breathe for the first time in her life. It was the home she had always dreamed of. But her happiness came at a price. To stay in her new home, Sophie had to keep somebody else's lies. Lies that would eventually tear apart a family. And tear apart her friendship with Forbes. Coming home is never easy-especially after twelve years. Forbes isn't the same young man. He found his adventure-and more. Weary, he's ready to settle into a slower pace. Working on his family's ranch and taking the job as Chief of Police sounds like a piece of cake after the things he has done. Sophie isn't the quiet girl Forbes remembers. She's grown into a strong, confident woman. A woman used to be in charge. The Branson ranch is her territory now. If Forbes thinks he's going to waltz back in and take over, he's going to find out fast that Sophie is no pushover. Twelve years ago, they shared one goodbye kiss. More sweet than passionate. Now it's a whole new game. The attraction between them is undeniable. Just as they begin to move forward, the past has other plans. Lies rarely stay buried forever. Lies. Betrayal. Maybe even murder. Before Forbes and Sophie can think about the future, they need to deal with the past. Together.

This book is a practical guide to using the science of attachment and relationships to find the right life partner. If you were brought up in the Western world, you've been trained on fairy tales of love and relationships that are misleading at best. The worst have you making mistake after mistake in starting relationships with the wrong kinds of people who will waste your time and keep you from finding a loyal partner. Science has the answer! Or at least a guide to save you the time and effort of discovering for yourself how many wrong types of romantic partners there are. Reading this book will help you recognize the signs of some of the syndromes that prevent people from being good partners. We'll go through those syndromes and discuss some of the signs. Those little red flags you sometimes notice when you are getting to know someone? Often they become clear once you understand the types, and you can decide immediately to run away or approach with caution those who are not. If you're young and just starting to look for a partner, good news-the world is swarming with well-adjusted, charming people who will love you, if you know how to recognize them. The bad news: you are inexperienced and you may not recognize the right type when you date them. Many people expect to experience an immediate sense of excitement, an overwhelming rush of emotion, and to fall in love rapidly and equally with someone who feels the same. This rarely happens, and when it does it usu-

badly! And expecting it will cause you to let go of people who are steady, loving, and attentive, if you had given them a chance once you've identified someone who makes you laugh, answers your messages, and is there for you when you want to. Don't make the mistake of tossing them aside for the merely good-looking, sexy, or intriguing stranger. If you're older, back when you were spending time and effort on relationships you were hoping would turn out better, or even happily nestled in a relationship or two, most of the secure, reliable, sane people in your age group got paired off. They're married or happily re-enfamiliarized, and most of the people your age in the dating pool are tragically unable to form a good long-term relationship. You should always ask yourself, "why is this one still available?"-there may be a good answer (recently widowed or left a bad relationship), or it may be that this person has just been extraordinarily unlucky in having over twenty short relationships in twenty years (to cite one case!) But it's far more likely you have met someone with a problematic attachment style. After 40, the percentage of the dating pool that is able to form a secure, stable relationship drops to less than 30%[1]; and it can take months of dating to understand why Mr. or Ms. SeemsNice is really the future ex-partner from Hell, being able to identify the difficult types will help you recognize them faster and move on to the next. This book outlines the basics (which you need), and points you toward more resources if you want to understand more about your problem partner. If you're wondering if the guy or girl you've been hanging out with might not be quite right, this is the place to match those types you've noticed with known bad types. And by getting out fast, you can avoid emotional damage and wasted time, and increase your chances of finding someone who's really right for you. Study all of the bad types and you'll detect them before even getting involved. You could be one of the few people who recognizes their own problems in one of these types. There are study materials and action for you, too. If you've had lots of relationships and they all seem to go wrong, the common factor is you! You can make yourself into a better partner - a goal that even the most evolved of us can always work toward.

Truth is, we've all dated or been involved with someone who drove us nuts or, if we haven't, chances are that we were the ones who got on the other person's nerves. Now, the question is: who is the Psycho; you or the other person? Don't Date a Psycho: Don't Be One, Don't Date One looks at why we behave in the ways that we do in relationships, what makes us stay with the person we're with and what makes us leave them, and how to tell who is safe to be in a relationship with and who is unsafe. Done with humor and written from more than two decades of clinical experience as a psychologist, Dr. Keiron Brown helps us to gain a clearer understanding of who we are as individuals, who we are as partners in relationships and what makes each and every one of us prone to acting a little nuts sometimes when our hearts are at stake.

Grace is Born

It had seemed so simple, even fun, when they explained it: New York needed non-satellite-based relay towers. Commco sent me to find towns along the needed pathway, to offer to restore some of the boons of civilization in return for an agreement to build, power and guard the towers. After all, it had only been fifty years. I would never have believed that the countryside would have turned barbaric so fast. Thus begins Martin Barrister's journey through an unfamiliar landscape, where his training and skills are of little help, and only quick wits and creativity will allow him to survive. When his job turns out to be a ruse, and he becomes bait in a dispute he can barely fathom, Martin discovers what loyalty is worth. And what civilization is - and isn't - comprised of.
