

Creature Matching Game

Elegant, suggestive, and clarifying, Lewis Thomas's profoundly humane vision explores the world around us and examines the complex interdependence of all things. Extending beyond the usual limitations of biological science and into a vast and wondrous world of hidden relationships, this provocative book explores in personal, poetic essay language, music, death, insects, and medicine. Lewis Thomas writes, "Once you have become permanently startled, as I am, by the realization that we are a social species, you tend to keep an eye out for the pieces of evidence that this is, by and large, good for us."

Ready, set, match! This classic matching game includes 72 cards featuring team and individual sports such as hockey, kayaking, football, figure skating, and more. Children will have a blast getting to know the exciting world of sports while building memory and concentration skills.

Blending language skills and memory enhancement, these cards are sure to challenge young minds while broadening their horizons. Underscoring two themes guaranteed to engage children—animals and transportation—each deck contains two sets of 30 illustrated cards: one containing the English word for the image and the other listing the image. Featuring striking, graphic illustrations and prominent text, this game can be played alone or in groups, providing an easy, enjoyable way for children to learn words in two languages while improving their ability to recollect.

A gargantuan, mind-altering comedy about the Pursuit of Happiness in America Set in an addicts' halfway house and a tennis academy, and featuring the most endearingly screwed-up family to come along in recent fiction, Infinite Jest explores essential questions about what entertainment is and why it has come to so dominate our lives; affects our need to connect with other people; and about what the pleasures we choose say about who we are. Equal parts philosophical quest and screwball comedy, Infinite Jest bends every rule of fiction without sacrificing for a moment its own entertainment value. It is an exuberant, uniquely American exploration of the passions that that renew the idea of what a novel can do. "The next step in fiction...Edgy, accurate, and darkly witty...Think Beckett, think Pynchon, think Gaddis. Think." --Sven Birkerts, The Atlantic
