Emphasis has been placed on just exactly how practitioners should conduct hot-button procedures such as airport and border searches. Moreover, the book also addresses the often dire implications of deviating from proper practice - how a false step can translate into a violation of individual rights, or the inability to successfully prosecute the guilty. This edition has been specifically designed for CJ undergraduate programs (rather than higher-level law schools) and completely reorganized for a more logical flow of topics. Moreover, it is newly focused on the most crucial practical applications of the law in the CJ context. There is also added emphasis on the Fourth, Fifth, and Sixth Amendments.

The barrister needs to know how to conduct a criminal case. It is not just a matter of being conversant with the relevant law and procedure; he or she must be able to deal with an actual case in practice. Recognizing this basic necessity, this manual gives practical guidance on how to carry out actual tasks. The first part of the manual follows the stages through which a typical criminal case would pass, starting with the magistrates' court and moving on to the Crown Court, and dealing with the various avenues for appeal. In each area, the main principles are clearly set out, with an explanation and references to statutes and cases where appropriate. Guidance is also given at various points where further research may be needed for a particular case. The second section of the manual deals with sentencing, which is now an integral part of criminal litigation. The text looks not only at the maximum penalties which the court can impose, but also deals with the process of sentencing, including the procedure following conviction, the range of sentences available and the factors likely to influence the sentence which is actually passed. In this way, it provides guidance for tasks which the barrister has to carry out, such as the advice on sentence and the plea in mitigation.

This comparative text provides an understanding of major world criminal justice systems by discussing and comparing the systems of six of the world's countries: England, France, Russia, China, Japan, and a new chapter on South Africa—each representative of a different type of legal system. Political, historical, organizational, procedural, and critical issues confronting the justice systems are explained and analyzed. Each chapter contains material on government, police, judiciary, law, corrections, juvenile justice, and other critical issues.
