The national bestseller that “reads like a cross between Charles Frazier’s *Cold Mountain* and Ernest Hemingway’s *A Farewell to Arms*” (*The Dallas Morning News*). In this ambitious, incandescent debut, Malcolm Brooks animates the untamed landscape of the West in the 1950s.

Catherine Lemay is a young archaeologist on her way to Montana, with a huge task before her. Working ahead of a major dam project, she has one summer to prove nothing of historical value will be lost in the flood. From the moment she arrives, nothing is familiar—the vastness of the canyon itself mocks the contained, artifact-rich digs in post-Blitz London where she cut her teeth. And then there’s John H, a former mustanger and veteran of the

John H inspires Catherine to see beauty in the stark landscape, and her heart opens to more than just the vanished past. Painted Horses sends a dauntless young woman on a heroic quest, sings a love song to the horseman's vanishing way of life, and reminds us that love and ambition, tradition and the future, often make strange bedfellows. "Engrossing . . . The best novels are not just written but built—scene by scene, character by character—until a world emerges for readers to fall into. Everyone is born curious. So, what happens? Why do some people become less curious than others? For individuals, leaders, and companies to be successful, they must determine the things that hold curiosity hostage. Think of the most innovative companies and you will notice they employ people who do not accept the status quo, they aren't reluctant to change, they evolve with the times, they look for problems to solve, and focus on asking questions. Drawing on decades research and incorporating

Have you ever wondered what your cat is saying? Cats do

not meow randomly, nor do they growl or hiss because they have nothing better to do. Cat sounds have a purpose, and they can carry important messages, whether for us or other cats. Susanne Schötz is hard at work on breaking the cat code. She is a professor at Lund University in Sweden, where a long-standing research program is proving that cats do actually use vocal communication—with each other and with their human caretakers. Understanding the vocal strategies used in human-cat communication will have profound implications for how we communicate with our pets, and has the potential to improve the relationship between animals and humans within several fields,

A former firearms executive pulls back the

curtain on America's multibillion-dollar gun industry, exposing how it fostered extremism and racism, radicalizing the nation and bringing cultural division to a boiling point. As an avid hunter, outdoorsman, and conservationist—all things that the firearms industry was built on—Ryan Busse chased a childhood dream and built a successful career selling millions of firearms for one of America's most popular gun companies. But blinded by the promise of massive profits, the gun industry abandoned its self-imposed

decency in favor of hardline conservatism and McCarthyesque internal policing, sowing irreparable division in our politics and society. That drove Busse to do something few other gun executives have done: he's ending his 30-year career in the industry to show us how and why we got here. Gunfight is an insider's call-out of a wild, secretive, and critically important industry. It shows us how America's gun industry shifted from prioritizing safety and ethics to one that is addicted to fear, conspiracy, intolerance, and

Online Library Crusoe The Celebrity Dachshund 2018 Box Calendar

secrecy. It recounts Busse's personal transformation and shows how authoritarianism spreads in the guise of freedom, how voicing one's conscience becomes an act of treason in a culture that demands sameness and loyalty. Gunfight offers a valuable perspective as the nation struggles to choose between armed violence or healing.

Malcolm Brooks returns with a soaring, spirited novel set during the summer of Amelia Earhart's final flight—a tale of American ingenuity and optimism set against the backdrop of a deepening Great Depression. The summer of 1937 will be a turning point for fourteen year old Houston “Huck” Finn. When he and a friend find a dead body in a local creek, a rare Lindbergh flight watch on its wrist, it seems like a sign. Huck is building his own airplane, a fact he has concealed from his mother. That summer also marks the arrival of his cousin Annelise, sent to live with the family under mysterious circumstances. As it turns out, she has had flying lessons—another sign.

Online Library Crusoe The Celebrity Dachshund 2018 Box Calendar

As Huck's airplane takes shape, so does his burgeoning understanding of the world, including the battle over worldliness vs. godliness that has split Annelise from her family, and, in a quieter way, divides Huck's family too. And meanwhile, there's the matter of the watch, which it turns out the dead man's cohort of bank robbers would very much like back. In Brooks' trademark "lush, breathtaking prose" (San Francisco Chronicle on *Painted Horses*) and with a winking nod to the Sam Clemens who inspired its hero's nickname, *Cloudmaker* is a boisterous, heartfelt novel that brings to life the idealism, inventiveness, traditionalism, and deep contradictions of

Award-winning journalist rafts down the Green River, revealing a multifaceted look at the present and future of water in the American West. The Green River, the most significant tributary of the Colorado River, runs 730 miles from the glaciers of Wyoming to the desert canyons of Utah. Over its course, it meanders through ranches, cities, national parks, endangered fish habitats, and some of the most significant natural gas fields in the country, as it provides water for 33 million people.

Online Library Crusoe The Celebrity Dachshund 2018 Box Calendar

Stopped up by dams, slaked off by irrigation, and dried up by cities, the Green is crucial, overused, and at-risk, now more than ever. Fights over the river's water, and what's going to happen to it in the future, are longstanding, intractable, and only getting worse as the West gets hotter and drier and more people depend on the river with each passing year. As a former raft guide and an environmental reporter, Heather Hansman knew these fights were happening, but she felt driven to see them from a different perspective—from the river itself. So she set out on a journey, in a one-person inflatable pack raft, to paddle the river from source to confluence and

heartbreaker, Tuna the Chiweenie has won the adoration of millions. Now the charming and unconventional pooch has his own book, filled with more than a hundred all-new photographs and witty commentary to give fans an intimate and hilarious look at the Internet's most prized pup. Tuna's cartoonish looks—with an exaggerated overbite, a recessed jawline, and a wrinkly neck—are truly one of a kind. And yet his quirky appearance is no match for his unique perspective on life, overcoming his proclivity for staying in bed all day to keep his eye on the (bacon-flavored) prize. Teaming up with his owner, Courtney Dasher, Tuna shares a behind-the-scenes look
