### Bontrager's Handbook of Radiographic Positioning and Techniques

The Toxicology Handbook 2e is a practical, didactic guide to the approach, assessment and management of poisoned patients. It has been written for hospital-based doctors at all levels and describes the risk assessment-based approach pioneered by the principal authors. The concise layout enables the reader to quickly locate information in a poisoning emergency. The book also features locally relevant information on bites, stings and envenoming. This book will also be useful for ambulance service paramedics and pharmacists.

Paediatric Dentistry, Fourth Edition successfully combines
