C'è un incessante e silenzioso lavoro, intorno e dentro di noi, che ci permette di nascere, crescere, respirare e riprodurci: insomma, di vivere.La natura e gli esseri che la abitano si rivelano come uno stupefacente frattale di mondi dentro a mondi, fatto di connessioni e legami inattesi, abitato da milioni di organismi viventi che contribuiscono alla nostra sopravvivenza fornendo servizi e materie prime. Anne Sverdrup-Thygeson ci guida in questi universi, accompagnandoci in un flusso di interazioni che partendo dalla falda acquifera di New York e passando per il ruolo delle vespe e delle termiti, arriva fino ai tronchi in decomposizione nelle foreste e alle incredibili qualità del sangue del linulo, un vena e proprio fossile vivente che permette, ancora oggi, di verificare il livello di sterilizzazione dei dispositivi medici.Nelle mani della natura risponde alle tante domande che ogni giorno ci poniamo sul nostro rapporto con il vivente, e lo fa con una qualità essenziale: la meraviglia.Una meravigliosa celebrazione del nostro mondo, un libro in cui immergersi più volte e uscirne sempre con qualcosa di nuovo. – The Literary Shed

An electrifying, internationally bestselling investigation of the global cocaine trade now a series on Prime Video starring Andrea Riseborough, Dane DeHaan, and Gabriel Byrne, from the author of the #1 international bestseller Gomorrah "Zero zero zero" flour is the finest, whitest available. It is also the nickname among narcotraffickers for the purest cocaine on the market. And it is the title of Roberto Saviano's unforgettable exploration of the inner workings of the global cocaine trade—its rules and armies, and the true depth of its reach into the world economy. Saviano's Gomorrah, his explosive account of the Neapolitan mob, the Camorra, was a worldwide sensation. It struck such a nerve with the Camorra that Saviano has lived with twenty-four-hour police protection for more than eight years. During this time he has come to know law enforcement agencies and officials around the world. With their cooperation, Savaiano has broadened his perspective to take in the entire global "corporate" entity that is the drug trade and the complex money-laundering operations that allow it to function, often with the help of the world's biggest banks. The result is a harrowing and groundbreaking synthesis of literary narrative and geopolitical analysis exploring one of the most powerful dark forces in our economy. Saviano tracks the shift in the cocaine trade's axis of power, from Colombia to Mexico, and relates how the Latin American cartels and gangs have forged alliances with crime syndicates across the globe. He charts the increasing sophistication of these criminal entities as they diversify into other products and markets. He also reveals the astonishing increase in the severity of violence as they have fought to protect and extend their power. Saviano is a writer and journalist of rare courage and a thinker of impressive intellectual depth, able to see connections between far-flung phenomena and bind them into a single epic story. Most drug-war narratives feel safely removed from our own lives; Saviano offers no such comfort. Both heart-racing and eye-opening, ZeroZeroZero is an investigative story like none other. Praise for ZerZeroZero: "[Saviano] has developed a literary style that switches from vivid descriptions of human depravity to a philosophical consideration of the meaning of violence in the modern world. . . . Most important of all is the hope Saviano gives to countless victims of criminal violence by standing up to its perpetrators." —Financial Times

**A bestselling modern classic—both poignant and funny—narrated by a fifteen year old autistic savant obsessed with Sherlock Holmes, this dazzling novel weaves together an old-fashioned mystery, a contemporary coming-of-age story, and a fascinating excursion into a mind incapable of processing emotions. Christopher John Francis Boone knows all the countries of the world and their capitals and every prime number up to 7,057. Although gifted with a superbly logical brain, Christopher is autistic. Everyday interactions and admonishments have little meaning for him. At fifteen, Christopher's carefully constructed world falls apart when he finds his neighbour's dog Wellington impaled on a garden fork, and he is initially blamed for the killing. Christopher decides that he will track down the real killer, and turns to his favourite fictional character, the impeccably logical Sherlock Holmes, for inspiration. But the investigation leads him down some unexpected paths and ultimately brings him face to face with the dissolution of his parents' marriage. As Christopher tries to deal with the crisis within his own family, the narrative draws readers into the workings of Christopher's mind. And herein lies the key to the brilliance of Mark Haddon's choice of narrator: The most wrenching of emotional moments are chronicled by a boy who cannot fathom emotions. The effect is dazzling, making for one of the freshest debut in years: a comedy, a tearjerker, a mystery story, a novel of exceptional literary merit that is as great fun to read.**

L'America proletaria, quella in cui la vita scorre tra un supermercato, una giornata in fabbrica e una cena al Pizza Hut, ma solo il venerdì sera perché dal lunedì al giovedì non è proprio il caso. Siamo nel Kentucky, dove c'è una città che si chiama Roma ed è così piccola che quel nome le calza come un cappello troppo ampio. Ma anche qui le ragazze rimangono incinte e non ne capiscono bene la ragione; anche qui i padri abbandonano il tetto familiare mentre i figli muovono i primi passi, ma in realtà in casa non ci sono stati mai perché la loro vita da sempre scorre altrove, su autostrade protese verso un sogno che non arriverà a realizzarsi: non alla guida di un furgone, non nelle mille notti perse dentro un pensiero fisso che si avvita e non torna. Attraverso questi sette racconti, questi sette feroci ritratti di vita in ognuno dei quali emerge un cuore ferito, una vita stretta in un dolore incedibile perché la libertà è una terra lontana, Molly Goddard Jones traccia un affresco di lancinante verità che conferma quanto si era già intuito quando aveva esordito in American Mystery Stories 2008 accanto a Elizabeth Strout, a Michael Connelly, a Joyce Carol Oates, ad Alice Munro: che la narrativa americana dispone ora di una nuova voce, tersa e vibrante. E che questa voce è impossibile da dimenticare.

How Stella Learned to Talk

Libri per ragazzi

Barking is natural and almost all dogs bark. It is one of the many ways dogs communicate with each other as well as with humans. In this book, author Turid Rugaas, well known for her work on identifying and utilizing canine "calming signals," turns her attention to understanding and managing barking behavior.

"Deep in the Faraway Forest, the wolf was bored to tears. One day, he had an idea...he would travel the world!"--Back cover.

INSTANT NEW YORK TIMES BESTSELLER An incredible, revolutionary true story and surprisingly simple guide to teaching your dog to talk from speech-language pathologist Christina Hunger, who has taught her dog, Stella, to communicate using simple paw-sized buttons associated with different words. When speech-language pathologist Christina Hunger first came home with her puppy, Stella, it didn't take long for her to start drawing connections between her job and her new pet. During the day, she worked with toddlers with significant delays in language development and used Augmentative and Alternative Communication (AAC) devices to help them communicate. At night, she wondered: If dogs can understand words we say to them, shouldn't they be able to say words to us? Can dogs use AAC to communicate with humans? Christina decided to put her theory to the test with Stella and started using a paw-sized button programmed with her voice to say the word "outside" when clicked, whenever she took Stella out of the house. A few years later, Stella now has a bank of more than thirty word buttons, and uses them daily either individually or together to create near-complete sentences. How Stella Learned to Talk is part memoir and part how-to guide. It chronicles the journey Christina and Stella have taken together, from the day they met, to the day Stella "spoke" her first word, and the other breakthroughs they've had since. It also reveals the techniques Christina used to teach Stella, broken down into simple stages and actionable steps any dog owner can use to start communicating with their pets. Filled with conversations that Stella and Christina have had, as well as the attention to developmental detail that only a speech-language pathologist could know, How Stella Learned to Talk will be the indispensable dog book for the new decade.

**The animals of the forest have assembled to discuss what is the most important thing: to have a trunk like an elephant, quills like a porcupine, or a long neck like a giraffe? Naturally, every animal is convinced that its particular trait is the most important one and that everyone should have it. But when the double pages open to show all the animals with the quills of a porcupine, the long neck of a giraffe, or the trunk or the elephant, everyone must agree that the true importance lies precisely in their collective 'diversity'. It is that which makes them all unique and essential to life of the forest. The Most Important Thing received a UNESCO honorable mention for peace and collaboration. An important message of diversity and inclusion delivered in the form of a charming modern fable.**
