Book covers a broader range of topics than other books in this area. Notably, extensive coverage of the neurobiology of anger in context of psychology and sociology is unique. Book provides broad, integrative coverage while avoiding unnecessary duplication. Contributors have read each others' chapters and there is extensive cross-referencing from chapter to chapter. Book contains a guide to content and organization of chapters and topics, along with interpolated commentary at the end of each section.

Once Bukowski was asked: "Do you believe in God?" He replied: "No, I believe only in horses. I do not know why we always realize things when it is too late. I've also bet on horses for a period. But, differently from Bukowski whom I respect so much, I quit horses and bet on God. Really, I think it is for this faith that I found myself with my back against the wall. "Against the wall" was the first title I wanted to give to this book. There are a lot of people in the world: tramps, prisoners, all types of emarginated people who are alienated just because, in my opinion, they do not manage to keep pace with a cheering occidental cult of efficiency, to keep up with the rules for which the society, the system did not forgive them. But Christ said: "I came to the world for the ill, not for the sane". Thus, is it really true the last will be the first? Maybe, if, as far as I know, a probable God does not consider things the way people do. Anyway, what I have never understood is: there is a baby born from Gypsies and there is another one born from a rich American family. What is the fault of the first one whose destiny is immediately signed? A mystery! So, "A Gemstone in the Rock", in its essential message, is an invitation to bet on God as it is the only chance we have in our life. It is also an invitation to pray—to pray more often during the day. Even at work. But without putting the entertainment aside: it gives colours to our life. That's why the title is "A Gemstone in the Rock": life is nothing but a precious stone in the rock: you can observe it in its splendour but you cannot take it with your naked hands. As far as the emarginated people are concerned, let us help them bearing in mind that, differently from what the main part of respectable Catholics think, to help them is not at all a walk of pleasure. I say it with a poem: "How much pain I get for a kiss to a poor wretch!" "This book has got a particular: it is like a human being in the course of his life with it's high and low moments between faith and total loss of courage". P.S. As far as my poem "Now" ("Faith") is concerned, for a question of a dramaturgic effect I left the sequence of the passion events according to my poetic license". Have a good time reading! Sincerely, Donato Placido

This book was born as a synthesis of our writings, our thoughts and vision of the world. I made Donato's acquaintance while he was focused on hypotheses of a staged version of a Pirandello's play. His poetry published and appreciated in Italy, inspired me. I proposed to him being published abroad. I read Donato's material thoroughly and put it in a sequence (I would rather say I had to cut it like a movie: his writings evoke movie-like images). This book owes to me its structure, order and some chapters: trilogy "Loneliness of Light" I wrote on the basis of apocryphal Gospels found in the Dead Sea in 2004, in particular, Judas' and Magdalene's Gospels. However, the dialogue between Judas and Magdalene (staged in 2006 in Moscow at an international festival of directing plays) and Magdalene's monologue are of pure intuition (or, if we prefer so, of artistic invention). Other book parts of which I am the author are: the dialogue "Puppets of freedom" inspired by "Danton's Death" by Georg Büchner, extracts from Disillusions (money, power, female love), extracts from Absence and silence ("The end of the world", "Silence, loneliness and . . ."), the whole chapter of "Encounter" (which is Donato's novel of the same name I put in a nutshell and in blank verse) and my poem on a true love, "Till the darkness". In a human life everyone passes from happiness to despair, from the idea of God dissolved in everything to the idea of his absence, one stakes on the material goods accumulation, on power, on love, even on the idea of freedom—but then one notices all these concepts are only illusions, just glimpses

This gripping wilderness survival tale grabs young readers at the first sputtering of the small plane engine and does not let go. They survive the landing but that is the end of their good luck. For fans of Gary Paulsen's Hatchet, this book delivers the same powerful, page-turning, scalp-tingling adventure.

*When the father of all gods Zeus discovered his beloved daughter Athena was pregnant with Apollo's baby, he ordered all gods and goddesses to keep it a secret because he wanted all mortals to believe Athena was an eternal virgin. The moment I was born Zeus gave me away to a loyal mortal 'witch' named Maia which means 'nursing mother'. My father Apollo had to have a special magic spell done by Maia because he was the god of truth who can't speak a lie. Zeus also asked Maia to cast a spell on my mother so she would not fight him when he gave me away. Maia lived in Mykonos, Greece and decided to name me 'Myka'. She was careful to cast the biggest magic spell on me. I was going to be a mortal girl until the day of my eighteen - birthday.*

*Admired for the poetical heights of his Canti, the gentle wit of his prose dialogues and the soul-searching questionings of his Zibaldone (Notebooks), Leopardi was also an acute social commentator and a sharp dissector of the human mind. Thoughts - a collection of philosophical and critical observations put together for publication by Leopardi himself shortly before his death in 1837 - shows a more light-hearted side to Leopardi's personality, and offers both those who are familiar with and those who are new to his works a fresh insight into the thought processes and the worldview of Italy's last great polymath.*

“ ...If history was made by the victims / it would be / a time made by minutes / of incessant and springing up ants / yet one by an intent to be... ” so the great poet Alfonso Gatto wrote. History is made by so many little men and gestures. In “ The Doge and other stories ” they are gathered some little gestures that have changed the course of the history, extraordinary stories seen in their humanity. So, besides the great characters as a not specified Doge, the philosopher Blossio, Annibale Barca, Paolo Diacono, Muzio Scevola, Graiano d'Asti, Tiberius and Caius Gracchus, Nero, Maria Antonietta also little and ignored characters find a place: the killer who murdered Richard Coeur de Lion, an Ensi Sumero, a jailbird, a Mayor of the XIX century, a canter of the Middle Ages, the ghost of the Connacht, the companion-in-arms of Pietro Micca (who died for saving Turin in 1706). Here it is the essence of the history: a whole life crushed by the destiny, endless and small things in the hands of God.

Equites, Book 4 in the Heku Series, starts off with the beginnings of a war. Damon and Emily are still fighting while the Equites defends itself against attacks from both the Valle and the Encala. An accident sends Emily to the hospital, and the tension with the Valle becomes more explosive. Emily suspects the heku have a secret, and will go to any measure to find out what it is. She comes face-to-face with the darker side of the heku and

quickly comes to terms with it. An agricultural coven takes her in and her views of the sinister heku begin to change. Emily ' s past with Keith comes back to haunt her, and a vile attack shows the Equites how far the Valle and Encala are willing to go to gain possession of the Winchester Heirs. Sam ' s loyalty comes into question as Emily finds a small niche out in the world with the mortals. Attacks on her become more dangerous, and she finds that the heku may not be as indestructible as she once thought. An ultimatum is placed that could upend the entire species.

A New Kind of History

Tracing the story of anger from the Buddha to Twitter, Rosenwein provides a much-needed account of our changing and contradictory understandings of this emotion. All of us think we know when we are angry, and we are sure we can recognize anger in others as well. But this is only superficially true. We see anger through lenses colored by what we know, experience, and learn. Barbara H. Rosenwein traces our many conflicting ideas about and expressions of anger, taking the story from the Buddha to our own time, from anger's complete rejection to its warm reception. Rosenwein explores how anger has been characterized by gender and race, why it has been tied to violence and how that is often a false connection, how it has figured among the seven deadly sins and yet is considered a virtue, and how its interpretation, once largely the preserve of philosophers and theologians, has been gradually handed over to scientists—with very mixed results. Rosenwein shows that the history of anger can help us grapple with it today.

In over three centuries of growth and change, American cities have exerted forces that have been both centrifugal -- pulling people, resources, and interest toward them -- and centripetal -- sending out goods, services, and ideas. The story of how these forces evolved over time encompasses almost every aspect of American history. Always cognizant of change over time, this book explores the ways that urban development influenced people's lives and on the ways people shaped the urban environment. A city is simultaneously a social, economic, and political entity, and Howard P. Chudacoff and Judith E. Smith have taken care to examine each of these dimensions of urban life. Their focus is on urban society: its institutions, its activities, and, especially, its people. In this, the Sixth Edition, Chudacoff and

Smith pay particular attention to issues of race, ethnicity, gender, the built environment, regional differentials, and emerging cultural forms such as rock and rap music. New material has been added on the environmental impact of cities and suburbs and on the new racial and ethnic mix produced by the most recent immigration trends. In addition, the final chapter has been expanded to take into account issues relating to the presidential administration of George W. Bush and to the consequences of the terrorist attacks of September 11, 2001. Book jacket.

Blood and Violence in Early Modern France

What is the difference between a stabbing in a tavern in London and one in a hostelry in the South of France? What happens when a spinster living in Paris finds knight in her bedroom wanting to marry her? Why was there a crime wave following the Black Death? From Aberdeen to Cracow and from Stockholm to Sardinia, Trevor Dean ranges widely throughout medieval Europe in this exiting and innovative history of lawlessness and criminal justice. Drawing on the real-life stories of ordinary men and women who often found themselves at the sharp end of the law, he shows how it was often one rule for the rich and another for the poor in a tangled web of judicial corruption.

The rise of civilized conduct and behaviour has long been seen as one of the major factors in the transformation from medieval to modern society. Thinkers and historians alike argue that violence progressively declined as men learned to control their emotions. The feud is a phenomenon associated with backward societies, and in the West duelling codified behaviour and channelled aggression into ritualised combats that satisfied honour without the shedding of blood. French manners and codes of civility laid the foundations of civilized Western values. But as this original work of archival research shows we continue to romanticize violence in the era of the swashbuckling swordsman. In France, thousands of men died in duels in which the rules of the game were regularly flouted. Many duels were in fact mini-battles and must be seen not as a replacement of the blood feud, but as a continuation of vengeance-taking in a much bloodier form. This book outlines the nature of feuding in France and its intensification in the wake of the Protestant Reformation, civil war and dynastic weakness, and considers the solutions proposed by thinkers from Montaigne to Hobbes. The creation of the largest standing army in Europe since the Romans was one such solution, but the militarization of society, a model adopted throughout Europe, reveals the darker side of the civilizing process.

Ellen Murphy spent her childhood in an idyllic house by the sea. A house surrounded by flower filled gardens and a white picket fence. A house she fled at eighteen. A house full of secrets. When Ellen's mother Rose, an ex-nun, is diagnosed with terminal cancer, Ellen reluctantly returns home to care for her and uncovers a clue to the one secret that has haunted Ellen all her life: the identity of her father. But that is just one of the many secrets hidden behind the beautiful facade of the house on Rose Hill.

In this important study, Trevor Dean examines the history of crime and criminal justice in Italy from the mid-thirteenth to the end of the fifteenth century. The book contains studies of the most frequent types of prosecuted crime such as violence, theft and insult, along with the rarely prosecuted sorcery and sex crimes. Drawing on a diverse and innovative range of sources, including legislation, legal opinions, prosecutions, chronicles and works of fiction, Dean demonstrates how knowledge of the history of criminal justice can illuminate our wider understanding of the Middle Ages. Issues and instruments of criminal justice reflected the structure and operation of state power; they were an essential element in the evolution of cities and they provided raw material for fictions. Furthermore, the study of judicial records provides insight into a wide range of social situations, from domestic violence to the oppression of ethnic minorities.

**Lucius Annaeus Seneca (4 BCE-65 CE) was a Roman Stoic philosopher, dramatist, statesman, and adviser to the emperor Nero, all during the Silver Age of Latin literature. The Complete Works of Lucius Annaeus Seneca is a fresh and compelling series of new English-language translations of his works in eight accessible volumes. Edited by world-renowned classicists Elizabeth Asmis, Shadi Bartsch, and Martha C. Nussbaum, this engaging collection restores Seneca—whose works have been highly praised by modern authors from Desiderius Erasmus to Ralph Waldo Emerson—to his rightful place among the classical writers most widely studied in the humanities. Anger, Mercy, Revenge comprises three key writings: the moral essays On Anger and On Clemency—which were penned as advice for the then young emperor, Nero—and the Apocolocyntosis, a brilliant satire lampooning the end of the reign of Claudius. Friend and tutor, as well as philosopher, Seneca welcomed the age of Nero in tones alternately serious, poetic, and comic—making Anger, Mercy, Revenge a work just as complicated, astute, and ambitious as its author.**
