*Examining the clandestine and subversive activities of Algerian nationalists in West Germany and Europe, Mathilde Von Bulow sheds new light on the extent to which FLN activities and French counter-measures impacted the conflict in Algeria and the politics of the global Cold War.*

*As memories of the Cold War recede, it becomes more and more difficult to remember what it was about and why it evoked such feelings of intensity and fatalism. Fortunately, we have a gold mine of movies and novels to help us recall why an entire generation of Americans grew up ducking under school desks in air raid drills and stocking the family bomb shelter. Cold War Fantasies retrieves those memories, based on the idea that a nation's history, self-concept, and collective anxiety are reflected in popular culture. In Cold War Fantasies, Ronnie Lipschutz combines an historical account of foreign and domestic politics from 1945 to 1965 with summaries and analyses of thirty novels and films contemporaneously published and produced. Lipschutz rejects the standard line on the Cold War and critically examines the impacts and effects of language and images on politics. Viewing those films and reading those novels enables the reader to come away with a clearer sense of how people felt during the Cold War period-about themselves, about "the enemy," and about the world while living in the shadow of the atomic bomb.*

*This book translates and contextualizes the recollections of men and women who built, lived, and worked in some of the factory compounds relocated from China's most cosmopolitan city—Shanghai. Small Third Line factories became oases of relatively prosperous urban life among more impoverished agricultural communities. These accounts, plus the guiding questions, contextual notes, and further readings accompanying them, show how everyday lives fit into the sweeping geopolitical changes in China and the world during the Cold War era. Furthermore, they reveal how the Chinese Communist Party's military-industrial strategies have shaped China's economy and society in the post-Mao era. The approachable translations and insight into areas of life rarely covered by political or West Germany, Cold War Europe and the Algerian War*

Accounts of the relationships between states and terrorist organizations in the Cold War era have long been shaped by speculation, a lack of primary sources and even conspiracy theories. In the last few years, however, things have evolved rapidly. Using a wide range of case studies including the British State and Loyalist Paramilitaries in Northern Ireland, as well as the United States and Nicaragua, this book sheds new light on the relations between state and terrorist actors, allowing for a fresh and much more insightful assessment of the contacts, dealings, agreements and collusion with terrorist organizations undertaken by state actors on both sides of the Iron Curtain. This book presents the current state of research and provides an assessment of the nature, motives, effects, and major historical shifts of the relations between individual states and terrorist organizations. The articles collected demonstrate that these state-terrorism relationships were not only much more ambiguous than much of the older literature had suggested but are, in fact, crucial for the understanding of global political history in the Cold War era.

Three young men in their 20s experience intrigue and adventure as members of the elite U.S. Naval Security Group during the 1960s cold war. They're expertly prepared to intercept and analyze Soviet communications-but not for the dangerous missions that put them in harm's way above, on, and under the oceans of the Pacific Rim. Having just left his new bride, Jake Morton finds himself facing challenges solving communications mysteries for the Navy, and flying into danger over Soviet territory. Cold War Spooks offers a rare glimpse into clandestine intelligence-gathering as Sonny Powell becomes trapped in an American submarine, in Russian waters. Art Spencer-who thought he'd coasted into a cushy Navy desk job in Hawaii, boards a clandestine freighter plying the former atomic test sites in the South Pacific in pursuit of a mysterious Russian submarine far from its home.Lives of two of the men converge in the Sea of Japan-one as a 'guest' on a Russian submarine and the other aboard a U.S. Navy intelligence ship-in a meeting with grave international consequences.

*For too long, American women have been hidden in the history of the Cold War. In Cold War Women Helen Laville recovers their significance by examining the activities and ambitions of American women's organisations in the long period of uneasy peace. After the Second World War, women around the globe claimed that to avoid more death and devastation in the Atomic Age, they must promote internationalism and strive together for a peaceful future. However, as the Cold War escalated, American women abandoned the internationalist outlook of their foreign sisters in favour of solidarity with their national brothers. Far from being advocates of internationalism, many of these women became active agents for Americanism. This fascinating study will be invaluable to those in the field of gender and women's history, cultural studies and American history.*

*This multi-volume work began as a biography of Martha Wadsworth Coicely, who was a pioneering thought leader and advocate of internationalism in the American theatre during the cold war. It was expanded to include the contributions of her mentors and friends Rosamond Glider, Maurice McClelland, Roger L. Stevens, and Ellen Stewart. Coicely served as director of the International Theatre Institute (ITI) of the United States for thirty-two years and President of ITI International from 1987-1995. The International Theatre Institute is an independent NGO devoted to the UNESCO mission of peace through mutual understanding. After World War II the organization sustained cultural exchange between artists on either side of the Iron Curtain, across religious divides and war zones.*

The cross-national analyses of Western and Russian political cultures presented in this book are partly based on the 1990 EVS data. Another data source comes from surveys that were conducted since the late 1980s by the Department of Social Dynamics of the Institute of Socio-Political Research of the Russian Academy of Sciences (ISPR RAS) This Volume pictures a wide variety of values in the two cultures. It reveals unique insights in Russian culture. It makes clear that, despite many differences, Russian and Westerners have also many things in common as far as basic values are concerned. Between 1945 and 1991, tension between the USA, its allies, and a group of nations led by the USSR, dominated world politics. This period was called the Cold War, a conflict that stopped short to a full-blown war. Benefiting from the recent research of newly open archives, the Encyclopedia of the Cold War discusses how this state of perpetual tensions arose, developed, and was resolved. This work examines the military, economic, diplomatic, and political evolution of the conflict as well as its impact on the different regions and cultures of the world. Using a unique geopolitical approach that will present Russian perspectives and others, the work covers all aspects of the Cold War, from communism to nuclear escalation and from UFOs to red diaper babies, highlighting its vast-ranging and lasting impact on international relations as well as on daily life. Although the work will focus on the 1945/1991 period, it will explore the roots of the conflict, starting with the formation of the Soviet state, and its legacy to the present day.

During the early years of the Cold War, racial segregation in the American South became an embarrassing liability to the international reputation of the United States. For America to present itself as a model of democracy in contrast to the Soviet Union's totalitarianism, Jim Crow needed to end. While the discourse of anticommunism added the leverage of national security to the moral claims of the civil rights movement, the proliferation of Red Scare rhetoric also imposed limits on the socioeconomic changes necessary for real equality. Describing the ways anticommunism impaired the struggle for civil rights, James Zeigler reconstructs how Red Scare rhetoric during the Cold War assisted the black freedom struggle's demands for equal rights but labeled "un-American" calls for reparations. To track the power of this volatile discourse, Zeigler investigates how racialist black artists and intellectuals managed to answer anticommunism with critiques of Cold War culture. Stubbornly addressed to an American public schooled in Red Scare hysteria, black radicalism assisted that antiracist politics require a leftist critique of capitalism. Zeigler examines publicly campaigns against Dr. Martin Luther King Jr.'s alleged Communist Party loyalties and the impact of the Cold War in his oratory. He documents a Central Intelligence Agency-sponsored anthology of ex-Communist testimonials. He takes on the protest essays of Richard Wright and C. L. R. James, as well as Frank Marshall Davis's leftist journalism. The uncanny return of Red Scare invective in reaction to President Obama's election further substantiates anticommunism's lasting rhetorical power as Zeigler discusses conspiracy theories that claim Davis groomed President Obama to become a secret Communist. Long after playing a role in the demise of Jim Crow, the Cold War Red Scare still contributes to the persistence of racism in America.

The US-Soviet arms race, told through the story of a colorful and visionary American Air Force officer—melding biography, history, world affairs, and science to transport the reader back and forth from individual drama to world stage. "Compulsively readable and important." —The New York Times Book Review In this never-before-told story, Neil Sheehan—winner of the Pulitzer Prize and the National Book Award -- details American Air Force officer Bernard Schriever's quest to prevent the Soviet Union from acquiring nuclear superiority, and describes American efforts to develop the unstoppable nuclear-weapon delivery system, the intercontinental ballistic missile, the first weapons meant to deter an atomic holocaust rather than to be fired in anger. In a sweeping narrative, Sheehan brings to life a huge cast of some of the most intriguing characters of the cold war, including the brilliant physicist John Von Neumann, and the hawkish Air Force general, Curtis LeMay.

Presents alphabetically arranged reference entries on the Cold War between the United States and Russia during the late twentieth century, covering its military, social, and political aspects and its impact on other countries in the world.

A fascinating journey around one of the Nordic region's least known countries. A detailed exploration and explanation of the character of the Finnish people. The author's family background gives him a unique access to his very private John. At an age when many of his peers might be considering a cardigan and slippers lifestyle, Max Boyle departs his native Huddersfield for a backpacking journey in the southern regions of Finland. There he takes in the cities of Helsinki, Tampere and Turku, as well as many smaller towns and villages. Inspired by his own Finno-Ugric roots, he seeks out aspects of Finnish history and culture, enjoys boat trips in Finnish Lakeland and a not-so-daring funfair ride, discovers something of Finland's celebrated heavy-metal scene, indulges in a traditional sauna and, not least, samples a variety of bars and restaurants. The reason for the trip, however, is an enquiry into Finnish national character. During the course of his journey he conducts a number of interviews with those he encounters, examining their views on supposed Finnish characteristics such as sisu (a never-give-up attitude), concealment of feelings, modesty and, above all, ultra-honesty. Various basking in sunshine, assailed by rain, and targeted by mosquitoes, Boyle makes his way around the county's South, home to the majority of Finland's population, and duly encounters a people referred to by American Finophile Richard D. Lewis as 'the honest tribe'. This is an often a light-hearted journey around one of Europe's most quietly successful countries.

"With his finger firmly placed on sailors' wartime experiences, Hess delivers a potent, thrilling collection of sharply drawn tales." —Kirkus Reviews The stories in Cold War Canoe Club are like vertical launch missiles that explode to reveal a darker side of the US Navy in a time when most of the action took place away from the headlines. Welcome to the period between World War II and the Desert Storm, when enemies were just as likely to be seen on radar as aboard the same ship. The characters who populate the stories Hess has written face their own doom through dangers—foreign and domestic, including shipmates, spouses, secrets, lies, greed, lust, and bad decisions. As Cold War Canoe Club unfolds, we witness the darkest recesses of war ships and the men who sail aboard them as well as the women who wait for them in port and at home. There 's a submarine sinking in frigid waters, a pregnant Navy wife distraught over the Cuban Missile Crisis, a race riot aboard an air craft carrier, fist fights, loose women, bad luck, and bad decisions. Hess ' s sailors and veterans hank deeply with the authentic sense of people being on ships at sea or at the ends of their ropes as civilians. These stories bristle with noir intrigue and energy, while transporting readers to worlds few have ever seen. A dark exploration of service men, officers, gentlemen, lowlifes, and those trying to navigate troubled waters across oceans and on land. Praise for Cold War Canoe Club... " Jeffery Hess combines a flair for gripping storytelling with a powerful lyrical sensibility to produce that rarest of birds: a book full of page-turners that read like literary fiction. Like Tim O ' Brien and Kevin Powers, Hess writes with absolute authority about the military men whose lives he sees with utter clarity and intimacy." —Pinckney Benedict, author of Miracle Boy, The Wrecking Yard, and Town Smokes " Eerily timely and rendered with gritty realism, Cold War Canoe Club beckons us to recall a time when actions and attitudes appeared motivated by an entire world perpetually hovering along the brink of utter destruction. Each tightly woven gem of a short story represents a microcosm of the Cold War macrossm, and dares to expose Hess as a genius for his artful juxtaposition of humanity ' s brash boldness with humanity ' s amnesic naïveté." —Tracy Crow, author of Eyes Right: Confessions from a Woman Marine, and editor of Red, White, & True: Stories from Veterans and Families, WWII to Present " Hess is one of those rare talents who tells a great story with compelling characters, pacing and action." —Terrance McCauley, author of Sympathy for the Devil and The Devil Dogs of Belleau Wood " Cold War Canoe Club presents an eclectic array of situations and stories all tied together by Hess ' s hard-edged prose style and deeply-developed characters. In the smart, snappy tradition of Elmore Leonard and James Lee Burke, Hess is a writer who pulls no punches and delivers authenticity in rapid-fire doses." —Steph Post, author of Lightwood and A Tree Born Crooked " Smart, poignant, often slyly funny, these are stories that will both take your breath away and take you places you ' ve never been before. A true and honest salute to much more than those who serve in the Navy, rich with history real and imagined." —Fred Leeborn, author of Welcome to Christiania and Out West " Jeffery Hess reminds of the glory days of noir: wayward women, brawling sailors, and shadow-lurking heroes who were too hung over when redemption dawned. If you want a quick literary jab to your heart, any of Hess ' s short fiction will do. Just finish burying that body, pal, and read." —James R. Duncan, author of Blood Republic
