

D Reading Activity The Cold War Begins

*****This is the chapter slice "Place Gr. 5-8" from the full lesson plan "Antarctica"*** Go on an exhibition to the South Pole as you explore the harsh climate of Antarctica. Study the ice, atmosphere, magnetic field, and greenhouse effect over this vast continent. Draw the locations of research stations inhabiting Antarctica. Understand how Antarctica's temperatures can result in surface ice two miles thick. Become a scientist and research the atmosphere above Antarctica. Find ways in which scientists move around Antarctica without roads or highways. Compare Antarctica's active volcano, Mt. Erebus, with others found around the world, like Mt. St. Helens and Mt. Vesuvius. View the continent as seen from Earth with a globe view map. Aligned to your State Standards and the Five Themes of Geography, additional maps, crossword, word search, comprehension quiz and answer key are also included.***

Unlock the mysteries of energy. Our resource demonstrates how energy is more than "the ability to do work". Learn about all the different kinds of energy. Dissect mechanical energy by identifying the different points on a roller coaster as using kinetic or potential energy. Find out how an object's thermal energy is calculated from its kinetic energy. Understand that amplitude, wavelength and frequency are all part of sound waves, and use these terms to correctly label one. Take a look at the electromagnetic spectrum as you see all the colors of light energy. Explore other forms of potential energy from nonrenewable and renewable sources. Finally, measure the speed of sound in a group

The importance of being able to read for meaning should never be underestimated. The ability to decode text is not enough. It is vital that children understand what they are reading. More importantly, it is fundamental that they enjoy what they are reading, so that they grow up to become lifelong readers. The passages in the Brilliant Activities for Reading Comprehension series are designed to do just that. They provide children with a variety of engaging, enjoyable texts that will grab their attention, and indeed their teacher's attention as well. The types of comprehension passages range from newspaper articles and dialogues, to plays, stories and poems. They gradually increase in difficulty as you progress through the book, and through the series, encouraging children to develop their ability to read for meaning and use a range of strategies to engage with the text. Tasks range from simple factual recall and vocabulary work to more open-ended questions enabling the reader to provide a more personal response. The cross-curricular activities provide a wealth of ideas for extending the passages further and are ideal for fast-fininishers.

from the full lesson plan "Energy"*** Unlock the mysteries of energy! Energy is more than “ the ability to do work ” ; we present these concepts in a way that makes them more accessible to students and easier to understand. The best way to understand energy is to first look at all the different kinds of energy including: What Is Energy, Mechanical Energy, Thermal, Sound Energy and Waves, as well as Light Energy. Our resource provides ready-to-use information and activities for remedial students using simplified language and vocabulary. We also explore other forms of potential energy, as well as how energy moves and changes. Written to grade and comprised of reading passages, student activities and color mini posters, our resource can be used effectively for your whole-class. All of our content meets the Common Core State Standards and are written to Bloom's Taxonomy and STEM initiatives.

"Many of the brightest Chinese minds have used the form of the commentary to open the terse and poetic chapters of the Laozi to their readers and also to develop a philosophy of their own. None has been more sophisticated, philosophically probing, and influential in the endeavor than a young genius of the third century C.E., Wang Bi (226-249). In this book,

Rudolf G. Wagner provides a full translation of the Laozi that extracts from Wang Bi's Commentary the manner in which he read the text, as well as a full translation of Wang Bi's Commentary and his essay on the "subtle pointers" of the Laozi. The result is a Chinese reading of the Laozi that will surprise and delight Western readers familiar with some of the many translations of the work." --Book Jacket.

Hope and determination can bring results... Ellie Weatherby and the four other grandmothers living at Sanderling Cove decide with only two great-grandchildren, it ' s time to swing into action. They invite their grandchildren to spend the summer at the cove, hoping to encourage romance between them. Ellie invites all three of her granddaughters to take over the management of the Sanderling Cove Inn so that she and her bridegroom can spend the time traveling in Europe for their honeymoon. Charlotte Bradford, Olivia Winters, and Brooke Weatherby are all at a point in their lives where they have the time to do as she asks. For Charlotte, it ' s an excuse to leave her marketing career and life in New York City. After realizing her partner was never going to step up and do her share of work, Livy has just sold her bakery store in Virginia. Brooke is

Science Activities for Elementary Students, Eleventh Edition, a revision of George Lorbeer and Leslie Nelson's classic Science Activities for Children, gives instructors practical, fun, hands-on learning activities to help teach children about science and problem-solving skills. Each activity follows the same step-by-step format: Problem, Procedure, Result, Supplemental Information, and Thought Questions. The activities are accompanied by simple illustrations that help clarify procedures and expected results. With a total of nearly 600 activities in both spiral-bound books, future science teachers will find a wealth of ideas to help them become more effective in the classroom. Science Activities for Elementary School Children features basic, introductory activities while Science Activities for Middle School Children contains more rigorous, more challenging, higher-level science activities. The elementary text discusses basic ecology, while the middle school book has activities about the Greenhouse Effect, the Icehouse Effect, Ozone Depletion, and the Eutrophication of some of our

"Conservation: Ocean Water Resources"*** The oceans contain 97% of the Earth's water, cover 71% of its surface, and hold 50-80% of all life on the planet. Our resource explores the importance of conserving this vast area. Design a board game that illustrates the effects of climate change on Earth's oceans. See how the water cycle explains why most of Earth's salt water is found in the oceans. Find out how climate change will affect ocean currents, resulting in a dramatic change to the farming and fishing industries. Explain how an increase in human population can cause some salt lakes to shrink. Conduct a case study on a container ship that lost several containers in a storm in the north Pacific Ocean. Make your own salt water to represent Earth's oceans and experience what it would be like to visit them. Get tips on what we can do to help protect ocean water. Written to Bloom's Taxonomy and STEAM initiatives, additional hands-on activities,
