If we are all powerful creators blessed with the ability to manifest whatever we want in life, why is it so difficult for some people to do so? Is there anything we have to do to "activate" our latent creative abilities as free-willed beings? In his latest book *Your Greatest Gift*, bestselling author and spiritual explorer Richard Dotts shares the two chance encounters in his life that led him to the realization of his greatest gift. A gift which not only unlocks all our desired manifestations but also has the power to help us transcend the perceived issues and challenges in our lives,

whatever they may be. Many years ago while studying the various spiritual traditions, it suddenly dawned on Richard that tapping into our manifestation abilities should be something that anyone can do at will. It should not be something complicated, certainly not something that requires an instruction manual or a PhD to understand. As Richard writes in *Your Greatest Gift*, "I reasoned that if creation is our birthright, then manifesting should be a fundamental ability that every human being on this planet, regardless of race, background or education can tap into at will.

Could it be something so fundamentally simple and obvious that most of us have overlooked?" It wasn't until the most challenging years of his life that pieces of the puzzle began to fall in place. Richard experienced the power of the greatest gift twice during his most trying times and noticed how his insurmountable problems seemed to straighten themselves out each time without his active intervention. The more Richard studied these two serendipitous episodes in his life, the more he realized something in common but overlooked at their core. He had unknowingly

tapped into the greatest gift that unlocks all our desired manifestations. The greatest gift is not what we think it is. It is not about the Law of Attraction, not about having a sense of gratitude, appreciation or love, not about praying, affirmations and certainly not about tapping into the powers of our subconscious mind. All of those are useful tools along our journey, but our greatest gift is something way more fundamental than that. It is a latent ability which all of us possess, but have either forgotten or overlooked along the way. It is an action so simple that we can do it at

any time and any place... yet most of us do not do it because we are always looking for external solutions to our "problems" in life. It is an action which does not depend on our intellect. It is something which is referred to over and over again in the Bible and in religious texts across the ages, but a concept that is so misunderstood in our modern society. When you finally understand what the greatest gift is and how it has always been within you, you'll understand how it can be transmuted and applied not only in your own life but also in the lives of others. In Your Greatest

Gift, Richard teaches readers how to access this gift for themselves and also how to guide others to their own healing. This book goes beyond the manifestation of physical objects into the realm of effecting spiritual healing and wellness in all areas of our life. In his usual trademark and frank style, Richard explains how this greatest gift can be called upon in times of need and even used to help others through a non-verbal protocol which he shares in the book. When you have experienced the transformational power of this gift for yourself, you too, will recognize it as your greatest gift that
