

Daniel Boone And Kit Carson

"The saga of the West, 'the most American part of America', has always fascinated. John Selby's thoroughly researched book is a mammoth tour of the United States, concentrating on the colourful and the dramatic. In it are to be found the exploits of Daniel Boone, Meriwether Lewis, Kit Carson and John Fremont; the treks of the Mormons, the pioneer work of the mountain men, the missionaries and the miners and the subjugation of the Native Americans. Here too are the dramatic incidents of American history conveyed with a startling immediacy: the Alamo, the Bear Flag Revolt, the Fetterman Massacre, Custer's Last Stand, Wovoka's Ghost Dances and Wounded Knee."--BOOK JACKET.

This book contains biographies of five significant figures in the settlement of the Ohio River Valley region of the United States.

*When we think of American pioneers we recall automatically certain names--Daniel Boone, Davy Crockett, Kit Carson, perhaps Simon Kenton. Of course there were hundreds, yes, thousands of others, who met the same dangers, exhibited at least approximate skill, fought the same savages. But the names of most of them are unknown; and of the rest only the especial student is aware. Often the more obscure men have performed specific deeds that common legend ascribes to better known names. Columbus, as we know, was really not the first to discover America. Common belief has it that Daniel Boone *%discovered** Kentucky; but actually, as we shall see, he first entered Kentucky lured by the glowing tales of a man named Finley who had, with others, preceded him. Did you ever hear of Finley? But we have all heard of Boone...*

Stories of American PioneersDaniel Boone, Lewis and Clark, Fremont, Kit Carson

The legendary nineteenth-century figure relates his experiences as a scout, soldier, trapper, Indian fighter, explorer, and government agent.

Shortly before his sixteenth birthday, Kit Carson leaves his home in Missouri, heads out for Santa Fe, and begins a series of adventures as a legendary mountain man.

From the first account of "Colter's Run," published in 1810, fascination with John Colter, one of America's most famous and yet least known frontiersmen and discoverer of Yellowstone Park, has never waned. Unlike other legends of the era like Daniel Boone, Davy Crockett, and Kit Carson, Colter has remained elusive because he left not a single letter, diary, or reminiscence. Gathering the available evidence and guiding readers through a labyrinth of hearsay, rumor, and myth, two Colter experts for the first time tell the whole story of Colter and his legend.

This is a 19th century history of Texas. From the preface: "The frontiersmen or backwoodsmen as a class, like the flatboatmen of the Mississippi, must soon become extinct, for the day is fast approaching when there will be no frontiers or backwoods within the present boundaries of the United States. Their mission will have been accomplished, and that such a class ever existed in our country, will be known to future generations only through vague tradition, or because a few individuals among them, such as Daniel Boone or Kit Carson, have been prominent enough to entitle them to a passing notice in history. I have endeavored as far as I could to give the reader a correct idea of this unique class now rapidly becoming extinct, and of the peculiar state of affairs that existed in Texas at an early day; and for that reason I hope this book will not be altogether without inter-est to those who have known Texas only as it is now, or was for a few years past. It is due to our colored citizens to say, that in depicting the character of Cudjo, I had no intention whatever to ridicule or cast a slur upon them. I have merely attempted to describe a type of the race common amongst them in antebellum days, and which in all probability would have been as common among any other race of people, if like them they had been for so long a time subjected to the demoralizing influences of ignorance and a degrading servitude. Now that they have been liberated "by the arbitrament of the sword," and can avail themselves of all their rights as free citizens of our common country, I hope and believe (from the advances they have already made) that the time will soon come when they will place themselves upon a level with those who enjoyed all the advantages of freedom whilst they were in a state of slavery."

From the French and Indian War to the Civil War, well over a hundred years of American history is reflected through the lives of six bold and famous men: Daniel Boone, Davy Crockett, Jim Bowie, Sam Houston, Jim Bridger, and Kit Carson. Here is a book that details their lives, their legends, and the many films and television shows their stories inspired. A biography of each frontiersman is followed by a detailed examination of films and television shows featuring that man as a character. Discussion of films includes cast and credit listings, synopses, and notes on the production, including comments on accuracy and interpretation. Television coverage includes listings of episode titles and discussion of each series' history. The book is illustrated with both film stills and artwork of the frontiersmen. An appendix of documentaries and a bibliography are included.

Stories of American Pioneers

Christopher Houston Carson (December 24, 1809 - May 23, 1868), better known as Kit Carson, was an American frontiersman. He was a mountain man (fur trapper), wilderness guide, Indian agent, and U.S. Army officer. Carson became a frontier legend in his own lifetime via biographies and news articles. Exaggerated versions of his exploits were the subject of dime novels. Carson left home in rural present-day Missouri at age 16 to become a mountain man and trapper in the West. In the 1830s, he accompanied Ewing Young on an expedition to Mexican California and joined fur trapping expeditions into the Rocky Mountains. He lived among and married into the Arapaho and Cheyenne tribes. In the 1840s, he was hired as a guide by John C. Fremont. Fremont's expedition covered much of California, Oregon, and the Great Basin area. Fremont mapped and wrote reports and commentaries on the Oregon Trail to assist and encourage westward-bound American pioneers. Carson achieved national fame through Fremont's accounts of his expeditions. Under Fremont's command, Carson participated in the uprising against Mexican rule in California at the beginning of the Mexican-American War. Later in the war, Carson was a scout and courier, celebrated for his rescue mission after the Battle of San Pasqual and for his coast-to-coast journey from California to Washington, DC to deliver news of the conflict in California to the U.S. government. In the 1850s, he was appointed as the Indian agent to the Ute Indians and the Jicarilla Apaches. During the American Civil War, Carson led a regiment of mostly Hispanic volunteers from New Mexico on the side of the Union at the Battle of Valverde in 1862. When the Confederate threat to New Mexico was eliminated, Carson led forces to suppress the Navajo, Mescalero Apache, and the Kiowa and Comanche Indians. Carson was breveted a Brigadier General and took command of Fort Garland, Colorado. He was there only briefly: poor health forced him to retire from military life. Carson was married three times and had ten children. The Carson home was in Taos, New Mexico. Carson died at Fort Lyon, Colorado, of an aortic aneurysm on May 23, 1868. He is buried in Taos, New Mexico, next to his third wife Josefa Jaramillo..... Elizabeth Eleanor Greatorex (1854-1917) was an American painter and illustrator... John Stevens Cabot Abbott (September 19, 1805 - June 17, 1877), an American historian, pastor, and pedagogical writer, was born in Brunswick, Maine to Jacob and Betsey Abbott. Early life: He was a brother of Jacob Abbott, and was associated with him in the management of Abbott's Institute, New York City, and in the preparation of his series of brief historical biographies. Dr. Abbott graduated at Bowdoin College in 1825, prepared for the ministry at Andover Theological Seminary, and between 1830 and 1844, when he retired from the ministry in the Congregational Church, preached successively at Worcester, Roxbury and Nantucket, all in Massachusetts. Literary career: Owing to the success of a little work, The Mother at Home, he devoted himself, from 1844 onwards, to literature. He was a voluminous writer of books on Christian ethics, and of popular histories, which were credited with cultivating a popular interest in history. He is best known as the author of the widely popular History of Napoleon Bonaparte (1855), in which the various elements and episodes in Napoleon's career are described. Abbott takes a very favourable view towards his subject throughout. Also among his principal works are: History of the Civil War in America (1863-1866), and The History of Frederick II, Called Frederick the Great (New York, 1871). He also did a forward to a book called Life of Boone by W.M. Bogart, about Daniel Boone in 1876. In general, except that he did not write juvenile fiction, his work in subject and style closely resembles that of his brother, Jacob Abbott....

Learn the truth behind the famous characters of the Wild West—and how the legends got it wrong—in this lively history that separates fact from fiction. The historic figures of the Western frontier have fascinated us for generations. But in many cases, the stories we know about them are little more than inventions. Popular legend won't tell you, for instance, that David Crockett was a congressman, or that Daniel Boone was a Virginia legislator. Thanks to penny dreadfuls, Wild West shows, sensationalist newspaper stories, and tall tales told by the explorers themselves, what we know of these men and women is often more fiction than fact. The Real Dirt on America's Frontier Legends separates fact from fiction, showing the legends and the evidence side-by-side to give readers the real story of the old West. Here you'll discover the fascinating truth about Lewis and Clark, Daniel Boone, "Buffalo Bill" Cody, Calamity Jane, Kit Carson, Davy Crocket, and many others.

Excerpt from Winning the Oregon Country Long ago you have learned that there is nothing more interesting than the story of a real hero. Your blood has been stirred as you have read of men and women who have gone to distant lands, and you have asked for more stories like these. It is my privilege to tell you of men and women whose lives were filled with events as thrilling as any told of those who have gone to China or India or Africa or the islands of the sea. These events took place right here in our own continent. And the heroes were men and women who have a right to be named as pioneers with Daniel Boone and Kit Carson, or as patriots with Paul Revere and General Putnam. Christopher Houston "Kit" Carson was one of the most famous frontiersmen of the early West, perhaps only behind Davy Crockett and Daniel Boone in American lore. His adventures included hunting and trapping, and Indian agent, Army scout, and Union soldier (where he became General Carson). While his exploits have been expanded and exaggerated over the generations, they are based on a truly brave and daring spirit, one of those men who built the American West. His comic series (1950-1955) captures that adventurous spirit and contains some of the best art of the western genre (including Severin, McCann & Kinstler). Before the white people came, there were no houses in this country but the little huts of the In-di-ans. The In-di-an houses were made of bark, or mats, or skins, spread over poles. Some people came to one part of the country. Others started set-tle-ments in other places. When more people came, some of these set-tle-ments grew into towns. The woods were cut down. Farms were planted. Roads were made. But it took many years for the country to fill with people.

It was an immense wilderness, sparsely settled and abounding with wild animals and treacherous Indians. The father of Carson, like most of the early pioneers, divided his time between cultivating the land and hunting the game in the forests. His house was made strong and was pierced with loopholes, so as to serve him in his defence against the red men that were likely to attack him at any hour of the day or night. *Includes pictures of important people and places. *Includes Carson's quotes about events in his life, and Fremont's quotes about him. *Includes a bibliography for further reading. "His name, in the Rocky Mountains, has been familiarly known for more than a quarter of a century, and with the names of great explorers and military men, is now spread throughout the civilized world. It has been generally conceded, and the concession has become strengthened by time, that no small share of the benefits derived from these explorations and campaigns, as well as to themselves, was and is due to the sagacity, skill, experience, advice and labor of Christopher Carson." - DeWitt C. Peters Space may be the final frontier, but no frontier has ever captured the American imagination like the "Wild West", which still evokes images of dusty cowboys and barroom brawls over 100 years after the West was settled. A constant fixture in American pop culture, the 19th century American West continues to be vividly and colorful portrayed not just as a place but as a state of mind. In Charles River Editors' Legends of the West, we explore the lives of America's most famous frontier figures in the time it takes to finish a commute, while learning interesting facts long forgotten or never known. Of all the legends and folk heroes who lived in the 19th century, men such as Daniel Boone and Davy Crockett are as well known as Kit Carson. A frontier boy who hopped onto the Santa Fe Trail as a teen, Carson became the quintessential mountain man during the 1830s and was literally a trailblazer for John C. Fremont's historic expeditions through the West in the 1840s. Along the way, Carson learned the dialects that he was considered nearly as proficient talking with them as he was fighting them. In fact, Carson engaged in a duel with another man over their romantic affections for an Arapaho woman named Singing Grass. Carson's reputation as a frontiersman turned him into a dime novel hero. At one point, he led a group in an attempt to rescue a woman and daughter kidnapped by Native Americans, only to discover that they had been reading a tale about Kit Carson rescuing someone from Native Americans. Of course, the stories embellished the truth, but how diminutive Carson truly was, he responded, "You ain't the kind of Kit Carson I'm looking for." Carson's still remembered in large part due to the frontier folk hero status that he acquired among his contemporaries, but he was also crucially important as an Indian agent in the 1860s. While he helped the federal government reach treaties with certain tribes, including the Utes, he was also involved in the forced removal of the Navajo from their homelands. Thousands of Navajo died during the "Long Walk", and Carson remains notorious for his involvement in the removal. Carson had attempted to resign and avoid his duties on multiple occasions. Legends of the West: The Life and Legacy of Kit Carson chronicles the Western icon's life and examines the myths and legends in an attempt to separate fact from fiction. Along with pictures of important people and places, you can learn about Kit Carson like you never have before, in no time at all.

This book describes the early discovery and settlement of Tennessee, Kentucky, Ohio and Indiana. It also contains accounts of the the lives of three early Americans: Daniel Boone, Davy Crockett and Kit Carson.

Excerpt from Four American Pioneers: Daniel Boone George Rogers Clark David Crockett Kit Carson a Book for Young Americans When Daniel Boone was a child the land west of the Alleghanies was a wilderness inhabited only by Indians. But in Virginia, and other places east of the mountains, there were fine houses with broad porches and large, richly-furnished rooms There stately men in powdered wigs and knee-breeches, and queenly dames in stiff brocades and high-heeled shoes, lived and brought up little American boys and girls after the fashion of their English cousins. However, it was not in such a house nor among such people that Daniel Boone learned to walk, and talk, and think. His father was a poor man who lived in a rude log cabin on the outskirts of a dark forest in Pennsylvania. There Daniel spent his happy childhood. The cabin was small, but that made it very snug in winter when the snow was blowing outside and the logs were blazing in the great stone fireplace. His house was made strong and was pierced with loopholes, so as to serve him in his defence against the red men that were likely to attack him and his family at any hour of the day or night. In such a school was trained the wonderful scout, hunter and guide.No advantages in the way of a common school education were within reach of the youth situated as was Kit Carson. It is to be believed, however, that under the tutelage of his father and mother, he picked up a fair knowledge of the rudimentary branches, for his attainments in that respect were above the majority of those with whom he was associated in after life. While a mere stripling, Kit became known as one of the most skilful rifle shots in that section of Missouri which produced some of the finest marksmen in the world. It was inevitable that he should form a passion for the woods, in which, like the great Boone, he would have been happy to wander for days and weeks at a time.When fifteen years old, he was apprenticed to a saddler, where he stayed two years. At the end of that time, however, the confinement had become so irksome that he could stand it no longer. He left the shop and joined a company of traders, preparing to start for Santa Fe, the capital of New Mexico, one of the most interesting towns in the southwest. The majority of its population are of Spanish and Mexican origin and speak Spanish. It is the centre of supplies for the surrounding country, and is often a scene of great activity. It stands on a plateau, more than a mile above the sea level, with another snow capped mountain rising a mile higher. The climate is delightful and the supply of water from the springs and mountains is of the finest quality.Santa Fe, when first visited by the Spaniards in 1542, was a populous Indian pueblo. It has been the capital of New Mexico for nearly two hundred and fifty years. The houses of the ancient town are made of adobe, one story high, and the streets are unpaved, narrow, crooked and ill looking. The inhabitants are of a low order, scarcely entitled to be ranked above the half civilized, though of late years the infusion of western life and rugged civilization has given an impetus and character to the place for which, through three centuries, it waited in vain.The company to which young Kit Carson attached himself, was strongly armed and it made the perilous journey, across rivers, mountains and prairies, through a country infested with fierce Indians, without the loss of one of their number. This immunity was due to their vigilance and knowledge of the ways of the hostiles who, it may be said, were on all sides, from the beginning to the end of their journey.

Daniel Boone, Lewis and Clark, Fremont, Kit Carson

Kit Carson's Youth-His Visit to New Mexico-Acts as Interpreter and in Various Other Employments-Joins a Party of Trappers and Engages in a Fight with Indians-Visits the Sacramento Valley. "Kit Carson," the most famous hunter, scout and guide ever known in this country, was a native of Kentucky, the scene of the principal exploits of Daniel Boone, Simon Kenton, the Wetzel brothers and other heroic pioneers whose names are identified with the history of the settlement of the West. Christopher Carson was born in Madison county, December 24, 1809, and, while he was still an infant, his father removed to Central Missouri, which at that day was known as Upper Louisiana. It was an immense wilderness, sparsely settled and abounding with wild animals and treacherous Indians. The father of Carson, like most of the early pioneers, divided his time between cultivating the land and hunting the game in the forests. His house was made strong and was pierced with loopholes, so as to serve him in his defence against the red men that were likely to attack him and his family at any hour of the day or night. In such a school was trained the wonderful scout, hunter and guide. No advantages in the way of a common school education were within reach of the youth situated as was Kit Carson. It is to be believed, however, that under the tutelage of his father and mother, he picked up a fair knowledge of the rudimentary branches, for his attainments in that respect were above the majority of those with whom he was associated in after life. While a mere stripling, Kit became known as one of the most skilful rifle shots in that section of Missouri which produced some of the finest marksmen in the world. It was inevitable that he should form a passion for the woods, in which, like the great Boone, he would have been happy to wander for days and weeks at a time.
