have looked at human personality and how it affects daily living. We can see the difference between others and ourselves. That means we are living differently and are programmed differently. The difference has been seen from the past to now. Different personalities allow some people to be leaders, while others end up as followers due to their personality traits. Dark psychology explains how these personalities all work and how well each works in influencing others. It shows how easy it is for others to take control. This book also takes us to the historical and political aspects. It shows us how some leaders kept their power despite being not such great people. It shows us how control has changed over the years, but it is still there and affecting so many people. Dark psychology shows how power comes to be, but it also shows how we can take charge of our lives if we want to. This book shows us what or how mind hacking happens, which leads to manipulation, deception, and brainwashing. It proves that we can easily be influenced by others if we give them the right ammunition. Hence, what can we do about all these issues? Then, to answer this question, one must read this book—Dark Psychology 101 – Learn the history of dark psychology and all its aspects. – Know the philosophical thoughts that surround dark psychology. – Get to know how dark psychology is used to influence others and the effects of dark psychology. – Learn the tactics used by all the

Some even see the relationship between cults and actual religions. But why are cults so dark and scary? Book 3: Psychopaths and sociopaths are everywhere in our society. You may not realize it, but they are out there. Chances are that you know someone who is a sociopath and you don't even know it. So what is the difference? How do they compare? And are they all dangerous? Aside from answering these questions, we will

body language to decipher a person's character in advance? Would you be able to make a list of the potential benefits you could enjoy by having the skills to understand in advance when a person lies or, in general, if you were able to know in advance the intentions of anyone? Yes, I know... Whenever we mention dark psychology, we always think about mental control, persuasion and manipulation, but if we think about it a little bit, we might understand that it is not quite so. If we start from the assumption that the human being is programmed to have and activate (especially unconsciously) mental processes that lead him to perform an action, then we can understand that this is where the battle is played, whoever manages to decipher these processes and manage them holds a significant power. Dark psychology deals mainly with cognition, and it is in fact the mental process that leads the human being to make decisions or perform certain actions. Dark psychology is therefore not persuasion. Many have learned to use these skills and even around us. They control the decision-making processes of other people. Reading people in advance is another powerful quality, because it allows you to decipher beforehand the character, emotions and
