Pedagogically organized, this book offers philosophically

sophisticated annotations and commentaries as well as an extensive glossary explaining key philosophical concepts in detail. Learn from the Engagement Masters Education is a battle for attention. Whether you are a teacher trying to reach a classroom full of students or a parent trying to prepare your child for the world to come, getting our audience to just listen can be a real challenge. When students have access to personalized entertainment sitting in their pockets, anything that doesn't jump out and grab their attention right away is easily drowned out. But there is a place where even today all those modern distractions melt away--Disneyland. When you're there, you're not only in a different world, you're in Walt Disney's world. Whether you are Peter Pan flying over London in Fantasyland or a rebel fighter struggling against the First Order in Galaxy's Edge, you are 100% engaged. Sights, sounds and even smells ensure that your brain is locked into the experience. If we can bring those techniques into our teaching, we can create engaging experiences for our students, grab their attention, and boost their learning. You'll improve your teaching and create a place students want to visit. In this book we'll learn from the world's greatest engagement masters--the Disney Imagineers. Through narrative visits to attractions throughout Disneyland and Disney California Adventure, you'll experience a visit to the park as we share memories and see how the Imagineers make it all work. We'll be guided by Imagineering icon Marty Sklar's Mickey's 10 Commandments of Theme Park Design as we turn our classrooms into the most engaging places on Earth!

This book unravels some of the complex factors that allowed or hampered the presence of (certain aspects of) Buddhism in the regions to the north and the east of India, such as Central Asia, China, Tibet, Mongolia, or Korea.

The Spring and Autumn (Chunqiu) is a chronicle kept by the dukes of the state of Lu from 722 to 481 B.C.E. Luxuriant Gems of the "Spring and Autumn" (Chunqiu

fanlu) follows the interpretations of the Gongyang Commentary, whose transmitters sought to explicate the special language of the Spring and Autumn. The work is often ascribed to the Han scholar and court official Dong Zhongshu, but, as this study reveals, the text is in fact a compendium of writings by a variety of authors spanning several generations. It depicts a utopian vision of a flourishing humanity that they believed to be Confucius's legacy to the world. The Gongyang masters thought that Confucius had written the Spring and Autumn, employing subtle phrasing to indicate approval or disapproval of important events and personages. Luxuriant Gems therefore augments Confucian ethical and philosophical teachings with chapters on cosmology, statecraft, and other topics drawn from contemporary non-Confucian traditions. A major resource, this book features the first complete English-language translation of Luxuriant Gems, divided into eight thematic sections with introductions that address dating, authorship, authenticity, and the relationship between the Spring and Autumn and the Gongyang approach. Critically illuminating early Chinese philosophy, religion, literature, and politics, this book conveys the brilliance of intellectual life in the Han dynasty during the formative decades of the Chinese imperial state.

In this astonishingly frank autobiography, the Dalai Lama reveals the remarkable inner strength that allowed him to master both the mysteries of Tibetan Buddhism and the brutal realities of Chinese Communism.

"Opening up questions about women's lives, about gender, about why we read history at all and how we write it, Patricia Buckley Ebrey has made *The Inner Quarters* a place we need to enter."—from the Foreword

Explore the rich artistic heritage of Korea: a blend of native tradition, foreign infusions, and sophisticated technical skill.

This book is the first complete translation into any modern language of the diary kept by Ennin, a Japanese Buddhist monk who traveled to China in AD 838 in search of new religious texts and further enlightenment in his faith. Ennin tells the memorable story of the hazards of sea travel in the ninth century and of his extensive journeys by foot and by riverboat throughout Northern China. In intimate detail, he describes life in the cities and monasteries of T'ang China, the ways of Chinese officialdom, secular festivals, and public events. He depicts Buddhism as a living religion just at the point when it reached its apogee in China, and offers the most authoritative account available of the great religious persecution of the 840's, which was so critical a turning point in Chinese history. Among the earliest diaries in Japanese literature, Ennin's immersive description of ninth-century China represents one of the first foreign eyewitness accounts of everyday life there. Despite its historical importance, Ennin's *Diary* has been long out of print, and it is our pleasure to make this great work available once again to the public. With a new foreword by Valerie Hansen, the modern reader will find this account more accessible and engaging than ever.

The idea for this book came while I was observing a student teacher and a master teacher. I realized that most student teachers while in training do not have the opportunity to think creatively about their lessons. I also noticed that teachers new to the field of teaching suffer the same fate; they are too busy trying to survive the day and are not sure how to plan and organize their teaching. Lesson plans are one of the most important tools for a teacher and more important for the novice teacher. I believe that during student teaching or during their undergraduate years, if students were equipped with this book their first year teaching will not look so first year. Imagine an undergraduate class filled with soon to be Social Studies teachers discussing these selected lesson plans, improving upon them and making them their own. Most first year teachers over teach or under teach and both types still miss the marks on the standardized test. These lesson plans will give the new teacher a place to begin.

Lavishly illustrated with over 300 pictures, including more than 200 in full color, *The Oxford History of Islam* offers the most wide-ranging and authoritative account

available of the second largest--and fastest growing--religion in the world. John L. Esposito, Editor-in-Chief of the four-volume Oxford Encyclopedia of the Modern Islamic World, has gathered together sixteen leading scholars, both Muslim and non-Muslim, to examine the origins and historical development of Islam--its faith, community, institutions, sciences, and arts. Beginning in the pre-Islamic Arab world, the chapters range from the story of Muhammad and his Companions, to the development of Islamic religion and culture and the empires that grew from it, to the influence that Islam has on today's world. The book covers a wide array of subjects, casting light on topics such as the historical encounter of Islam and Christianity, the role of Islam in the Mughal and Ottoman empires, the growth of Islam in Southeast Asia, China, and Africa, the political, economic, and religious challenges of European imperialism in the nineteenth and twentieth centuries, and Islamic communities in the modern Western world. In addition, the book offers excellent articles on Islamic religion, art and architecture, and sciences as well as bibliographies. Events in the contemporary world have led to an explosion of interest and scholarly work on Islam. Written for the general reader but also appealing to specialists, The Oxford History of Islam offers the best of that recent scholarship, presented in a readable style and complemented by a rich variety of illustrations.

If the Buddha came to dinner at your home, what would you serve? Fast food? A frozen meal quickly reheated in the microwave? Chances are you'd feed your honored guest a delicious meal prepared with love and care. But the next time you have dinner, what will you eat? With so much processed food in the marketplace, obesity in adults and children dramatically on the rise, and digestive problems increasingly more common, it's clear that we're facing a serious food crisis in this country. The answer, however, isn't just to go on a diet. Reducing the intake of refined and processed foods and increasing whole foods certainly can improve one's health. But we need more. We need to feed ourselves with a sense of purpose, self-respect, love, and passion for our lives. We need to nourish our spirits. Nourishment isn't a fad diet . . . it's a lifelong journey, and Halé Sofia Schatz is the ideal guide. Gentle, wise, and humorous, she shows us the way to the heart of nourishment--our own inner wisdom that knows exactly how to feed our whole self. A perfect blend of inspiration and practical suggestions, If the Buddha Came to Dinner includes guidelines for selecting vital foods, ideas for keeping your energy balanced throughout the day, a cleanse program, and over 60 recipes to awaken your palate. Open this book and nurture yourself as never before. You'll be fed in a whole new way.

Buddhism has existed for over 2,000 years. This book, divided into five parts, explains the origin and spread of the religion throughout China. It also explains the three branches of Buddhism--the Pali, Han and Tibetan--and their impacts on both ancient and modern-day China. Black and white pictures of Buddhist temples and statues illustrate the book.

Ennin's Diary

The Journal of William de Rubruck: Account of the Mongols. William of Rubruck (1220–1293) was a Flemish Franciscan missionary and explorer. His account is one of the masterpieces of medieval geographical literature comparable to that of Marco Polo and Ibn Battuta. William accompanied King Louis IX of France on the Seventh Crusade in 1248. On May 7, 1253, on Louis' orders, he set out from Constantinople on a missionary journey to convert the Tatars to Christianity. He actually followed the route of the first journey of the Hungarian Friar Julian. With William's party were Bartolomeo da Cremona, an attendant called Gosset, and an interpreter named in William's report Homo Dei, meaning "man of God", perhaps representing the Arabic Abdullah, "servant of God." After reaching the Crimean town of Sudak, William continued his trek with oxen and carts. Nine days after crossing the Don he met Sartaq Khan, ruler of the Kipchak Khanate. The Khan sent William on to his father, Batu Khan, at Sarai near the Volga. Five weeks later, after the departure from Sudak, he reached the encampment of Batu Khan, Mongol ruler of the Volga River region. Batu refused conversion but sent the ambassadors on to the Great Khan of the Mongols, Möngke Khan. He and his travelling companions set off on horseback on September 16, 1253 on a 9,000 km journey to the court of the Great Khan at Karakorum. Upon arrival they were received courteously, and he was given an audience on January 4, 1254.

Drawn from Peter H. Lee's Sourcebook of Korean Civilization, Volume I, this abridged introductory collection offers students and general readers primary readings in the social, intellectual, and religious traditions of Korea from ancient times through the sixteenth century. Sources of Korean Tradition is arranged according to the major epochs of Korean history, including sections on: Korean culture - its origins, writing, education, poetry, song, social life, and rituals; religion - the rise of Buddhism and Confucianism; the economy - the land, agriculture, commerce, and currency; and its changing political structures. A superb collection by the foremost scholars in the field, Sources of Korean Tradition is supplemented by a bibliography and prefaces by both editors. An impressive storehouse for the grand corpus of thought, beliefs, and customs held by people of Korea for centuries, this volume is a valuable companion for those interested in the history of Korea and East Asian studies.

From about 1600 to 1800, the Qing empire of China expanded to unprecedented size. Through astute diplomacy, economic investment, and a series of ambitious military campaigns into the heart of Central Eurasia, the Manchu rulers defeated the Zunghar Mongols, and brought all of modern Xinjiang and Mongolia under their control, while gaining dominant influence in Tibet. The China we know is a product of these vast conquests. Peter C. Perdue chronicles this little-known story of China's expansion into the northwestern frontier. Unlike previous Chinese dynasties, the Qing achieved lasting domination over the eastern half of the Eurasian continent. Rulers used forcible repression when faced with resistance, but also aimed to win over subject peoples by peaceful means. They invested heavily in the economic and administrative development of the frontier, promoted trade networks, and adapted ceremonies to the distinct regional cultures. Perdue thus illuminates how China came to rule Central Eurasia and how it justifies that control, what holds the Chinese nation together, and how its relations with the Islamic world and Mongolia developed. He offers valuable comparisons to other colonial empires and discusses the legacy left by China's frontier expansion. The Beijing government today faces unrest on its frontiers from peoples who reject its autocratic rule. At the same time, China has launched an ambitious development program in its interior that in many ways echoes the old Qing policies. China Marches West is a tour de force that will fundamentally alter the way we understand Central Eurasia.

Shadow of the Silk Road records a journey along the greatest land route on earth. Out of the heart of China into the mountains of Central Asia, across northern Afghanistan and the plains of Iran and into Kurdish Turkey, Colin Thubron covers some seven thousand miles in eight months. Making his way by local bus, truck, car, donkey cart and camel, he travels from the tomb of the Yellow Emperor, the mythic progenitor of the Chinese people, to the ancient port of Antioch—in perhaps the most difficult and ambitious journey he has undertaken in forty years of travel. The Silk Road is a huge network of arteries splitting and converging across the breadth of Asia. To travel it is to trace the passage not

only of trade and armies but also of ideas, religions and inventions. But alongside this rich and astonishing past, *Shadow of the Silk Road* is also about Asia today: a continent of upheaval. One of the trademarks of Colin Thubron's travel writing is the beauty of his prose; another is his gift for talking to people and getting them to talk to him. *Shadow of the Silk Road* encounters Islamic countries in many forms. It is about changes in China, transformed since the Cultural Revolution. It is about false nationalisms and the world's discontented margins, where the true boundaries are not political borders but the frontiers of tribe, ethnicity, language and religion. It is a magnificent and important account of an ancient world in modern ferment.

Tracing the history of Asia between A.D. 700 and 1500, a critical study describes the important influence of Asia's great civilization on the West, as traveling merchants, scholars, philosophers, and religious figures brought the wisdom of China and the Middle East to medieval Europe during the Dark Ages.

Photographs and artwork chronicle three thousand years of Chinese history, from the earliest dynasty to the twentieth century, and examine some of the contributions China has made to the world.

Genghis Khan was the founder of the Mongol Empire, the largest continuous land empire ever. On his death in 1227, this extended from the Near East to the Yellow Sea, and was expanded by his successors to include what is now Iran, Iraq and southern Russia. By 1206, Genghis Khan had completed the unification by conquest of all the tribes of Mongolia, and was acclaimed as universal Khan. He then launched his assault on Northern China. Peking was captured in 1215, and the Chin were finally subjugated by Genghis's successors in 1234. This is the definitive biography.
