- changed the landscape of criticism through his rigorous theories and writings. Upon its original publication in 1988, Christopher Norris' book was the first full-length introduction to de Man, a reading that offers a much-needed corrective to the pattern of extreme antithetical response which marked the initial reception to de Man's writings. Norris addresses de Man's relationship to philosophical thinking in the post-Kantian tradition, his concern with "aesthetic ideology" as a potent force of mystification within and beyond that tradition, and the vexed issue of de Man's politics. Norris brings out the marked shift of allegiance in de Man's thinking, from the thinly veiled conservative implications of the early essays to the engagement with Marx and Foucault on matters of language and politics in the late, posthumous writing. At each stage, Norris

*raises these questions through a detailed close reading of individual texts which will be welcomed by those who lack any specialised knowledge of de Man's work. In *Estranging the Familiar*, G. Douglas Atkins addresses the often lamented state of scholarly and critical writing as he argues for a criticism that is at once theoretically informed and personal. The revitalized critical writing he advocates may entail--but is not limited to--a return to the essay, the form critical writing once took and the form that is now enjoying a resurgence of popularity and excellence. Atkins contends that to reach a general audience, criticism must move away from the impersonality of modern criticism and contemporary theory without embracing the old-fashioned essay. "The venerable familiar essay may remain the basis," Atkins writes, "but its conventional openness, receptivity, and capaciousness*

must extend to theory, philosophy, and the candor that seems to mark the tail-end of the twentieth century." In noting the timeliness, if not the necessity, of a return to the essay, Atkins also considers our culture's parallel "return to the personal." When the essay combines good writing with the concerns of the personal, Atkins says, it becomes a form of criticism that is readable, vital, and potentially attractive to a large readership. Atkins hopes critics will tap into the revitalized interest the essay now enjoys without ignoring the considerable insights and advances of contemporary theory. He argues that despite claims to the contrary there is no inherent incompatibility between the essay and modern theory. As Atkins considers various experiments in critical writing from Plato to the present, notably feminist interest in the personal and autobiographical, he contends that these

*attempts, although undeniably important, fall short of the desired goal when they emphasize the merely expressive and neglect the artful quality good writing can bring to personal criticism. The final third of the book consists of a series of experiments in critical writing that represent the author's own attempts to bridge the gap between theory and popular criticism, between an academic and a general audience. In essays that illustrate the rhetorical power of the form, Atkins describes the reciprocal relationship between his life experience and a reading of *The Odyssey*, explains the role that theory has played in his personal development, and chronicles his attempts to find a voice as a writer.*

This book examines the different ways that trauma is involved in the lives of those who interact with the justice system, and how trauma can be exacerbated in legal settings. It includes both victims and perpetrators in providing a perspective on trauma in general, and a framework that will guide those who evaluate and treat individuals in forensic settings. Comprehensive in scope, it covers key areas such as developmental issues, emotions, linguistic and communication

difficulties, and special populations such as veterans, immigrants, abused women, incarcerated individuals, and children. The main objective of this book is to bring trauma to the fore in conducting forensic evaluations in order to understand these cases in greater depth and to provide appropriate interventions for a range of problems. “This masterful book, edited by Rafael Art. Adventure abounds when a toy comes to life in this classic novel! It's Omri's birthday, but all he gets from his best friend, Patrick, is a little plastic warrior figure. Trying to hide his disappointment, Omri puts his present in a metal cupboard and locks the door with a mysterious skeleton key that once belonged to his great-grandmother. Little does Omri know that by turning the key, he will transform his ordinary plastic toy into a real live man from an altogether different time and

place! Omri and the tiny warrior called Little Bear could hardly be more different, yet soon the two forge a very special friendship. Will Omri be able to keep Little Bear without anyone finding out and taking his new friend away? This book—the culmination of forty years of friendship between J. Hillis Miller and Jacques Derrida, during which Miller also closely followed all Derrida’s writings and seminars—is “for Derrida” in two senses. It is “for him,” dedicated to his memory. The chapters also speak, in acts of reading, as advocates for Derrida’s work. They focus especially on Derrida’s late work,

including passages from the last, as yet unpublished, seminars. The chapters are “partial to Derrida,” on his side, taking his part, gratefully submitting themselves to the demand made by Derrida’s writings to be read—slowly, carefully, faithfully, with close attention to semantic detail. The chapters do not progress forward to tell a sequential story. They are, rather, a series of perspectives on the heterogeneity of Derrida’s work, or forays into that heterogeneity. The chief goal has been, to borrow a phrase from Wallace Stevens, “plainly to propound” what Derrida says. The book aims, above all, to

render Derrida's writings justice. It should be remembered, however, that, according to Derrida himself, every rendering of justice is also a transformative interpretation. A book like this one is not a substitute for reading Derrida for oneself. It is to be hoped that it will encourage readers to do just that.

Calcium and vitamin D are essential nutrients for the human body. Establishing the levels of these nutrients that are needed by the North American population is based on the understanding of the health outcomes that calcium and vitamin D affect. It is also important to establish how much

of each nutrient may be "too much." Dietary Reference Intakes for Calcium and Vitamin D provides reference intake values for these two nutrients. The report updates the DRI values defined in Dietary Reference Intakes for Calcium, Phosphorus, Magnesium, Vitamin D, and Fluoride, the 1997 study from the Institute of Medicine. This 2011 book provides background information on the biological functions of each nutrient, reviews health outcomes that are associated with the intake of calcium and vitamin D, and specifies Estimated Average Requirements and Recommended

Dietary Allowances for both. It also identifies Tolerable Upper Intake Levels, which are levels above which the risk for harm may increase. The book includes an overview of current dietary intake in the U.S. and Canada, and discusses implications of the study. A final chapter provides research recommendations. The DRIs established in this book incorporate current scientific evidence about the roles of vitamin D and calcium in human health and will serve as a valuable guide for a range of stakeholders including dietitians and other health professionals, those who set national nutrition policy,

Social Media and Democracy

This book shows how the labeling of children as "at-risk" actually perpetuates the inequities, racism, and discrimination facing many families in America.

The jihad has been at the centre of the West's securitization discourse for more than a decade. Theorists constantly use the jihadist as a discursive tool to further their neoliberal, military and market agendas, perpetuating massive gaps of understanding between 'the

West', Muslims and jihadists themselves. They are helped by Muslim interlocutors, who all too often play the role of 'good' Muslims explaining the motifs of the 'bad' Muslims. This timely book argues that Muslim theory and fiction has been significantly commodified to cater to the needs of western ideology. It skillfully critiques the ideological contradictions of the debate around the jihadist by offering a comprehensive analysis of Muslim and non-Muslim cultural critics. Ranging from Edward Said to Slavoj Zizek, from Don DeLillo

to Orhan Pamuk and from Mohammed Siddique Khan to Osama bin Laden, this vastly heterogeneous discourse produces a multi-dimensional Muslim response. O'Rourke examines some of its critical fault lines in postcolonial theory and literary analysis. This groundbreaking book argues that the temptation to appropriate the figure of the jihadist offers a fertile area from which to launch a discussion about the limits of current theory. On the basis of a careful analysis of Olivier Messiaen's work, this book argues for a

renewal of our thinking about religious music. Addressing his notion of a "hyper-religious" music of sounds and colors, it aims to show that Messiaen has broken new ground. His reinvention of religious music makes us again aware of the fact that religious music, if taken in its proper radical sense, belongs to the foremost of musical adventures. The work of Olivier Messiaen is well known for its inclusion of religious themes and gestures. These alone, however, do not seem enough to account for the religious status of the work.

Arguing for a "breakthrough toward the beyond" on the basis of the synaesthetic experience of music, Messiaen invites a confrontation with contemporary theologians and post-secular thinkers. How to account for a religious breakthrough that is produced by a work of art? Starting from an analysis of his 1960s oratorio *La Transfiguration de Notre-Seigneur Jésus-Christ*, this book arranges a moderated dialogue between Messiaen and the music theology of Hans Urs von Balthasar, the phenomenology of revelation of Jean-Luc

revolutionary approach to enabling academic authors to overcome their anxieties and produce the publications that are essential to succeeding in their fields. Each week, readers learn a particular feature of strong articles and work on revising theirs accordingly. At the end of twelve weeks, they send their article to a journal. This invaluable resource is the only guide that focuses specifically on publishing humanities and social science journal articles.

works since WWII.

Incorporating the philosophy of religion and science and a generally holistic approach to classification, Douglas demonstrates the relevance of anthropological enquiries to an audience outside her immediate academic circle. She offers an approach to understanding rules of purity by examining what is considered unclean in various cultures. She sheds light on the symbolism of what is considered clean and dirty in relation to order in
