On a foggy July evening in 1956, the Italian cruise liner Andrea Doria, bound for New York, was struck broadside by another vessel. In eleven hours, she would sink nearly 250 feet to the murky Atlantic Ocean floor. Thanks to a daring rescue operation, only 51 of more than 1,700 people died in the tragedy. But the Andrea Doria is still taking lives. Considered the Mt. Everest of diving, the Andrea Doria is the ultimate deepwater wreck challenge. Over the years, a small but fanatical group of extreme scuba divers have investigated the Andrea Doria, pushing themselves to the very limits of human endurance to explore her -- and not all have returned. Diver Kevin McMurray takes you inside this elite club with a hard, honest look at those who go deeper, farther, and closer to the edge than others would ever dream. Deep Descent is the riveting true story of the human spirit overcoming human frailty and of fearsome, mortal risks traded for a hard-core adrenaline rush. Chronicling these adventures in his page-turning narrative and in dozens of dramatic photos, McMurray draws us deeper into the cold heart of the unforgiving sea, giving us a powerful vision of a place to which few will ever have the skills -- or the courage -- to go.

Terrie and Doug Oxtal gave their lives to a dream. After over 35 years of marriage the result of their devotion to four children and each other, life was perfect until the day they left the hospital with only their youngest son Andrew's jacket. The unspeakable grief that took over their lives is captured in letters written to Andrew where the love spills on to every page. The journey is there, the love is there, the sense of loss is there between the lines of shock and pain, with a true understanding of compassion. The Oxtal family knows Andrew has gone home, and they live with him in their hearts, until they meet again. For those who have suffered the loss of a child, this mother's letters will take you to a place so familiar they won't make you feel alone. For those who have not lost a child, this book will take you to a place where love is all that matters.

Cancer sucks, death sucks even more. But we humans don't have the power to stop either of them from messing with our lives. They enter our lives whenever and wherever they choose to. Cancer is so common that each one of us have known someone who has dealt with the disease; some of us have lost a loved one to cancer. Common does not always mean simple, and it also does not mean we know everything about it. The diagnosis of cancer, regardless of the disease's curability, is almost always nerve-racking, even for healthcare providers like the main character of this book who is a veteran nurse. This book is written in first person; the subject is a middle aged woman who had been separated from her boyfriend some thirty years ago and then after three decades when she searches for an oncologist for treatment of an aggressive cancer that she was recently diagnosed, she finds her ex-boyfriend's name and decides to see him. That brings back the memory of their past together, and she starts going through her old diary she had written some thirty years in the

past. Part of the story is set in Nepal (from the diary) and the other part is set in the USA ( this takes place after her cancer diagnosis). The main character of the story was born with 'Manglik' cosmic influencer, meaning that the planet Mars "mangal Graha" was in such position in the solar system at the time of her birth that it would have strong negative effect on her husband if she married a man who was non-Manlik (a person born at the time when the planet Mars was not in such position.) What happens next changes the lives of the main characters.

What would you do if you had a second chance at life? Would you change anything? Would you make peace, forgive someone, make amends or celebrate life more? On a cold wintry January, Patrick W. Emmett was flying to Sioux Falls, South Dakota, on a business trip when he experienced a sudden cardiac arrest on an airplane at 30,000 feet and died. He experienced death and after some time, was rescued by passengers and airline crew while still in flight with the use of an automatic external defibrillator. You will be touched by his story and the stories of several other people who have suffered critical health issues. Pat's book is a reference book for heart patients, cancer patients and those going through traumatic health conditions. His book recounts the events leading up to his sudden cardiac arrest, his rescue and what his experiences in death were. inspiration for revival for those that are suffering a similar loss. "Unforgettable. The layers of grief are too exquisite for words but Sandra finds a way to the depth of her soul and describes the torment with such clarity ... you will not soon forget. Her haunting dreams will stay with you long after you have finished this extraordinary story of love, betrayal, courage, and hope. "Tiers of Sorrow" is one of the most heartbreakingly beautiful true stories you will ever read." -Wayne Cooper, Author and Publisher / Levita Media "Sandra is on a mission. After the violent death of her young adult son, she has armed herself with weapons from another world. Sandra has discovered the keys to hope and wellbeing but not until after experiencing utter grief and pain herself. A wounded healer knows how to reach the hurting. She has traveled the journey of deep sorrow and injustice and has come through it with startling understanding and strength. I recommend this book to the professionals who help crime victims and their families but, mostly, this story has the power to minister to anyone who suffers the loss of a loved one from a shooting, stabbing, or violent crime." -Margaret Montreuil, Speaker and Author, God in Sandals, God with Us, His Kingdom Come, and coming soon, Come & See "Deeply moving yet chilling. Tiers of Sorrow compels the reader to set aside petty, insignificant differences with loved ones and cherish every moment as the gift it is. It demonstrates courage in the face of heart wrenching circumstances that inspires hope us all." -M. Ann Bruce, Author, Director, Producer

One half-century later, the catastrophic ramming of the MS Stockholm into the Italian luxury liner the SS Andrea Doria in 1956 is relived in this candid, heartrending account. Author Pierette Domenica Simpson, who, with her grandparents, survived the tragedy off the shoals of Nantucket, shares the human and technical aspects of what has become known as the greatest sea rescue in history. As only an eyewitness can do, the author presents survivors' recollections in dramatic vignettes that meticulously re-create a horrific event-one that could have been another Titanic. Both poor immigrants and wealthy travelers give their accounts of ultimate despair and infinite elation after staring at their own reflections in the black ocean that night and seeing death stare back. Equally dramatic are the revelations of new facts exposed by nautical experts from two continents facts that solve the "mystery" of who was to blame for this most improbable collision between two ships on the open seas.

Since its publication in 1842, *Dead Souls* has been celebrated as a supremely realistic portrait of provincial Russian life. It follows the adventures of a man who combs the back country wheeling and dealing for "dead souls" (deceased serfs who still represent money to anyone who trades in them), and we are introduced to a Dickensian cast of peasants, landowners, and conniving petty officials, few of whom resist the seductive illogic of Chichikov's proposition. Although the novel ends in mid-sentence, it is usually regarded as the extant form.

*Death & Resurrection: Exploring the Mysteries of Suffering & Hope* is about the death and resurrection of Jesus lived out rhythmically in the lives of his followers. Sometimes Jesus' followers are in the rhythm of death. Sometimes they are in the rhythm of resurrection. A painful divorce, lost friendship, unrealized dream, failed business and besetting sin are not badges of weakness. They are all opportunities to participate in the power of Jesus' death and resurrection at work in our lives (2 Corinthians 4:10). The problem many Christians face is viewing Jesus' death and resurrection as one time, book end events, the beginning and end of the Christian life. Jesus' death begins the Christian life through the forgiveness of sins. Jesus' resurrection is the Christian life resulting in resurrection from the dead for all people. It is true, death and resurrection are one time events for Jesus. They are not one time events for Christians. Death and resurrection form the rhythm of the Christian life, just as a beating heart forms the rhythm of bodily life. When Christians embrace the rhythm of dying and rising with Jesus, they experience greater power, comfort, peace and life in all circumstances.

*Greenstein* chronicles the year following her father's suicide. She deals with her emotional reactions to events happening around her and her assessment and understanding of those feelings.

What is your destiny as a child of God? Straight to the point, author Brian Echevarria cuts to the core of pursuing God's will. Dying to self plays in it. With accuracy and understanding, *The Death of a Saint* is a refreshing book for Christians of all ages and maturity who know it is time to go deeper in their walk with Jesus Christ. This book not only speaks to the future of the church but reaches into the Eternity of the word to do it. This powerful message is full of extraordinary revelation that will thrill you as you seek your destiny as a child of God. The Lord wants to visit with you, and Brian's insight will help you to be ready when He comes. *Deep Sea Diving, China Fever, and the Wreck of the Andrea Doria*

Matt Johnson had a life he was happy enough with. Could he learn to be happy with his death as well? This zombie story is written from his point of view-- from normal, every-day security guard, to brain-eating, mindless zombie.

Once upon a time, I viewed the Air Force as my personal entertainment and dating service. I was a hard-charging, well-paid, impeccably-educated, high-functioning, award-winning anesthesiologist and clinical instructor of anesthesia as well as an Air Force captain on my way to becoming a colonel in record time. Beyond that, I worked in a highly specialized area of the military, dabbling in the shadowy world behind the scenes in places some have never heard of, in situations that rarely make the nightly news. Known by important people, I was a guy who could "get 'er done" no matter what the order or mission at hand. On call twenty-four hours a day, I never knew when my next mission would be called. One moment in the operating room in San Antonio, the next on a plane bound for some unnamed location for reasons I wasn't privy to. Leaving my strict Baptist upbringing behind, I was living my dream of becoming a "hero," while fueling my ever burgeoning need for newness and more, sleeping my way around the world with no rules and no conscience. One woman, my childhood image of the "girl next door," changed all that. We met in the back anesthesia hallway at Wilford Hall U.S. Air Force Medical Center. She, a mere first year anesthesiology resident. Me, a superstar staff nurse anesthesiologist. Despite her lowly position, she was clearly the kindest and sexiest woman I'd ever met. Within a month of our first date, I chose to forego my aspirations of military glory and "settle down." However, soon after Joan and I married, I felt trapped. Trapped by what I recognized as the mundane life of my parents. Trapped by Joan's desire to bear a child. Trapped to the point that I began fantasizing about her death. Then came the call. Twenty-five weeks into her pregnancy, Joan was diagnosed with leukemia. In the blink of an eye, I was transformed from my own personal cynosure to the husband of the pregnant lady with cancer, caretaker, guardian of my wife and daughter's lives, and reluctant chief decision maker on how to reconcile my desperate desire for her to live with her disdain for life support measures. This story depicts not only the battle against cancer faced by Joan and our unborn child, but also my own attempt to move past earlier misdeeds, desperately praying for a miracle, hoping that, despite my sins, God would deign to save the woman and child I loved. Written from the perspective of a former military true believer who turned his back on dreams of glory, chose love, and became a (hesitant) husband, then single father, *Broken Road: A Widower* is similar to Nadia Bolz-Weber's *Accidental Saints* and Anne Lamott's *Small Victories: Spotting Improbable Moments of Grace*. It seeks to find goodness in the most unlikely of places and characters - me.

In Submerged, Lenihan takes the reader on a kaleidoscope of the team's underwater experiences from 1975 to the present - from Florida caves to ancient ruins covered by reservoirs in the desert southwest; to a WWII Japanese submarine off the Alaskan coast; to the lower rings of hell to retrieve the bodies of drowned divers; to gripping accounts of personal survival in underwater caves, ships, and submerged buildings. Displaying a passion for extreme diving combined with disciplined professionalism as park ranger-archeologists, the SCRU team tackles astonishing, often harrowing assignments, including; The Isle Royale shipwrecks; Surveying ten large ships sunk from the mid-19th to mid-20th centuries in the middle of the frigid and deep Lake Superior. The USS Arizona in Pearl Harbor; Executing the largest mapping project ever conducted underwater, and his personal impressions as the first deep diver to explore and video the entire ship in 1983 Excavating the hull of the HL Hunley, the first submarine in history to sink an enemy ship, in Charleston Harbor during the Civil War Resurveying of the ships sunk by atomic bombs at Bikini Atoll, including the aircraft carrier USS Saratoga and Japanese battleship Nagato With an aggressive preservation ethic, the team discovers and documents shipwrecks from Florida to Alaska, and even studies the haunts of pirates and prehistoric cultures in Micronesia. This engaging book, written with a mixture of wonder, intensity, pathos and humor, records for the first time the historic and social significance of the underwater research programs conducted by this fascinating unit of the U.S. National Park Service. Sure to delight anyone interested in diving, archeology, American history, adventure, and rescue missions, this fast-paced volume brings an entirely new perspective to the marvels of America's underwater treasures.

was a Miracle. A Legendary performer known as "The Voice," her astonishing talent was undeniable and her music moved millions. But she also battled personal demons, toxic dependencies, and crippling self-destructive behaviors. Her startling beauty, indisputable charisma, and divinely-gifted voice made her meteoric rise to superstardom virtually inevitable. But her erratic behavior, tumultuous relationships, and crushing addictions made her premature and tragic end almost equally irrevocable. Just who was this tragic diva, truly? And how, like so many other legends before her, did we lose her so very young? In this intimate and insightful book, Music Industry insider David Cline tries to discover how... Author's Note from the Book: Where does one possibly begin in telling the epic story of an iconic performer the likes of Whitney Houston? How does one approach a life as triumphant and tragic as hers, and make it Human? How can one speak for a superstar known as "The Voice," when that Voice has been so sadly and prematurely silenced? These were the formidable questions we faced as we sat down to compose a brief but intimate portrait of a Legend. The answer to all of them however, became evident very, very quickly: Through her Music. As we organized the research, assembled the elements, and prepared to outline our approach, we were struck by a profound revelation: Whitney Houston had lived her life through her Music, so how could one ever begin to tell her astounding story, unless they started with her Music? As we examined her history through the prism of that Music, it immediately became amazingly clear that every phase of her remarkable life could be viewed through the telling titles of some of her greatest songs. Whitney moved us because she sang from Life--is it any wonder then, that in the words she sang, lay the touchstones to examining that Life? They are her songs. It is her music. It is her story. It is our hope that through our telling of it, you will feel closer to the woman and the wonder that was Whitney Houston. ---David Cline

This amazing work, first published in 1909, is divided into five parts. The first is a discussion of ancient beliefs and the unifying truths that are found in all of them. The second concentrates on the basic concepts of spiritism such as the immortality of the soul, the purpose of life, reincarnation, God, and death. The third section explores deeper spiritist concepts such as fluids and magnetism, spiritual phenomena, nature and science, evolution of the spirit, dangers of Spiritism, and charlatanism. The fourth part discusses related topics to the spiritual world such as errant souls, higher life, inferior spirits, providence, free will, and hell. The last section discusses ethical topics such as moral life, faith, consolation, wealth, poverty, and charity.

In the tradition of Jon Krakauer ' s Into Thin Air and Sebastian Junger ' s The Perfect Storm comes a true tale of riveting adventure in which two weekend scuba divers risk everything to solve a great historical mystery – and make history themselves. For John Chatterton and Richie Kohler, deep wreck diving was more than a sport. Testing themselves against treacherous currents, braving depths that induced hallucinatory effects, navigating through wreckage as perilous as a minefield, they pushed themselves to their limits and beyond, brushing against death more than once in the rusting hulks of sunken ships. But in the fall of 1991, not even these courageous divers were prepared for what they found 230 feet below the surface, in the frigid Atlantic waters sixty miles off the coast of New Jersey: a World War II German U-boat, its ruined interior a macabre wasteland of twisted metal, tangled wires, and human bones – all buried under decades of accumulated sediment. No identifying marks were visible on the submarine or the few artifacts brought to the surface. No historian, expert, or government had a clue as to which U-boat the men had found. In fact, the official records all agreed that there simply could not be a sunken U-boat and crew at that location. Over the next six years, an elite team of divers embarked on a quest to solve the mystery. Some of them would not live to see its end. Chatterton and Kohler, at first bitter rivals, would be drawn into a friendship that deepened to an almost

mystical sense of brotherhood with each other and with the drowned U-boat sailors – former enemies of their country. As the men ' s marriages frayed under the pressure of a shared obsession, their dives grew more daring, and each realized that he was hunting more than the identities of a lost U-boat and its nameless crew. Author Robert Kurson ' s account of this quest is at once thrilling and emotionally complex, and it is written with a vivid sense of what divers actually experience when they meet the dangers of the ocean ' s underworld. The story of Shadow Divers often seems too amazing to be true, but it all happened, two hundred thirty feet down, in the deep blue sea. **BONUS:** This edition includes an excerpt from Robert Kurson's Pirate Hunters.

*Are you or someone you know in the midst of grief? When I was dealing with the death of my wife I found it difficult to read narrative. Books and study guides on grief seemed difficult and impersonal. Most days I barely had enough energy to function. I desired encouragement and found it in daily devotions or personal accounts of how others dealt with this journey. I chose poems for this book because they can be digested in small bites and hopefully are helpful for the hurting heart.*

*Why do some people risk their lives regularly by placing themselves in extreme and challenging situations? For some, such as astronauts, the extreme environments are part of the job. For others, they involve the thrill and competition of extreme sports, or the achievement of goals such as being the first to reach the South Pole or climb Everest. Whether for sport or employment, all these people have made the personal choice to put themselves in environments in which there is significant risk. What drives such people? And what skills and personality traits enable the best to succeed? What abilities are shared by the successful mountaineer, astronaut, caver, or long-distance solo sailer? And are there lessons the rest of us can learn from them? The psychology of those who have to cope with extreme conditions has been a matter of much research. It is important, for example to those planning manned space programmes or the makeup of teams who will spend months in an isolated or hostile environment such as Antarctica, to understand the psychological pressures involved, and to recognize those best equipped to handle them. In Extreme, Emma Barrett and Paul Martin explore the challenges that people in extreme environments face, including pain, physical hardship, loneliness, and friction between individuals, and the approaches taken to overcome them. Using many fascinating examples and personal accounts, they argue that we can all benefit from the insights gained.*

*"Death of a Dream" is a remarkable scholarship book in which Roig searched and described with lucidity, the historical events and collective behavior of the Cubans. The book twenty one chapters are explicitly historical, strongly analytical, concisely written and closely argued; the result is a brilliant narrative that spanned over five centuries of Cuba's history. This encyclopedic telling is a fast moving and fascinating and much needed, relatively unbiased account of Cuba's promise as a sovereign nation. -No one is immune to death. And no one who reads this will be immune to the charm - and power - of Colin Bird's wise and wildly original -how-to- for those who find themselves face-to-face with the great inevitable, DEATH: WHAT NOT TO SAY. Think Paulo Coelho, if Coelho ever had to sleep in his car, or make his living as a Nursing Home Chaplain. Colin Bird's brand of street-level pragmatism on matters of compassion and mortality is as massively refreshing as it is on-the-ground useful for anyone trying to be there for suffering friends and loved ones. They should pass this book out in hospitals and funeral homes, or stick in hotel nightstands instead of bibles. It's a lot more useful - and a much better read. DEATH: WHAT NOT TO SAY is a fearless, heartfelt, and utterly invaluable handbook for anyone who isn't dead, but knows a few people who are - or are about to be.- -Jerry Stahl, Screenwriter and LA Times bestselling author: I, Fatty; Permanent Midnight -Colin Bird serves up his own brand of commentary in DEATH: What Not To Say. Supremely witty yet cuttngly honest, a richly worded yarn from a man that's seen the losing side of life and ran from it. Couldn't put it down.- -Dean Karnazes, Ultramarathoner and New York Times bestselling author -As a licensed therapist for 16 years I've seen a lot of grieving souls. Grief is no respecter of persons. It touches everyone. And it's relentless. People die and we can't stop it. People grieve and we can't stop it. But stopping it isn't really the goal, loving through it is. That's the message of Colin Bird's book, -Death: What Not to Say-. There are a myriad of books on grief written by professionals. We know what to say and what not to say. We know what to expect, how to listen well, and why honoring someone's grief is so delicate and crucial. We've had lots of practice. But approaching a Griever well is just not easily taught. We professionals were beginners once. True proficiency has come from trial and error. And honestly, grief filling up my living room is different from grief sitting in my office... so very different. Not because of the grief, but the relationship between me and the Griever. That's one of the reasons I love this book.

Written in the style of an artist, *-Death: What Not to Say-* is a conversation with a man who has experienced pain, excruciating, life-altering, soul-searching pain. Not just his, but others'. He's walked his own grief journey and accompanied others on theirs. Filled with stories that raise your ire, melt your heart, and convict you to the core, Colin's words are raw, real and refreshing. Hopefully, readers will never look at a Grieving person the same. And if they follow these basic steps, they will truly approach with confidence. - Carrie P Bussmann, LCPC Licensed Clinical Professional Counselor; Owner/Director Truth in Love Counseling, Normal IL -A wake up call intent on forcing the -helpers- to grow up. This work is something long overdue. PAY ATTENTION to the wisdom found in this bright young genius. Take notes. Trust me on this... THERE WILL BE A TEST. - Geoff Thurman, DOVE Award-winning Singer/Songwriter, Pastor, Counselor -What you get is an unexpected, rich and fun (yes, you read that right) celebration of life. It seems that Colin Bird was bathed into the kind of holy water that makes people natural healers. The kind who knows that deepest truth, but doesn't preach it, he shares it. - Simone Bartesaghi, Professor UCLA, Director, Writer, Author of *The Director's Six Senses* This is an account of one of life's most painful experiences--the sudden death of a child. A mother's anguish compels her to examine beliefs about what comes after death and to explore ancient healing methods in Mexico, Brazil, and Bali. At its core a spiritual odyssey, *The Sacred Wound* is about creating meaning from life-shattering events--events which can utterly destroy us or serve as a call to extraordinary courage and growth. A life-shattering event is a modern day "sacred wound," a wounding so profound that it pierces the soul and penetrates the veils of who we are and what we think life is about. Like a mythological hero, we will emerge from the ordeal another person. As the author says, "For three years grief was my consort, it became my teacher." This inspiring and searingly honest book is about more than survival following the death of a loved one; it is about the gift in tragedy's other hand. It is about discovering the truth that love is the central experience of life and not simply mortality, and that this truth can emerge in ways we can never predict or expect

***and sank in fifteen minutes, taking more than 1,000 victims with her. It remains one of the largest losses of life ever in a maritime accident. At more than a hundred feet deep in the frigid Gulf of St. Lawrence, diving the Empress is like trying to navigate an unfamiliar sixty-story building lying on its side at a forty-five-degree angle, in pitch blackness with only a flashlight. In Dark Descent, Kevin McMurray takes us deep into the bowels of the lost ship, first to relive her tragic death and then to join the divers who have probed the wreck's secrets.
