Deberás pensar cuidadosamente qué camino deseas tomar, irás conociendo poco a poco a tus compañeros, aliados y enemigos, aunque no siempre sabrás en quien confiar. La prisión es un libro que podrás disfrutar varias veces, viviendo diferentes aventuras y tratando de escapar con ingeniosos planes, en ocasiones un tanto improvisados. Los estudiantes de español pueden leer el libro a partir del nivel B2/C1.

In recent years, there has been an increasing interest in Early Modern Festivals. These spectacles articulated the self-image of ruling elites and played out the tensions of the diverse social strata. Responding to the growing academic interest in festivals this volume

focuses on the early modern Iberian world, in particular the spectacles staged by and for the Spanish Habsburgs. The study of early modern Iberian festival culture in Europe and the wider world is surprisingly limited compared to the published works devoted to other kingdoms at the time. There is a clear need for scholarly publications to examine festivals as a vehicle for the presence of Spanish culture beyond territorial boundaries. The present books responds to this shortcoming. Festivals and ceremonials played a major role in the Spanish world; through them local identities as well as a common Spanish culture made their presence manifest within and beyond the peninsula through ephemeral displays, music and print. Local communities often conflated their symbols of identity with religious images and representations of the Spanish monarchy. The festivals (fiestas in Spanish) materialized the presence of the Spanish diaspora in other European realms. Royal funerals and proclamations served to establish kingly presence in distant and not so distant lands. The socio-political, religious and cultural nuances that were an intrinsic part of the territories of the empire were magnified and celebrated in the Spanish festivals in Europe, Iberia and overseas viceroyalties. Following a foreword and an introduction the remaining 12 chapters are divided up into four sections. The first explores Habsburg Visual culture at court and its relationship with the creation of a language of triumph and the use of tapestries in festivals. The second part examines triumphal entries in Madrid, Lisbon, Cremona, Milan, Pavia and the New World; the third deals with the relationship between religion and the empire through the examination of royal funerals, hagiography and calendric celebrations. The fourth part of the book explores cultural, artistic and musical exchange in Naples and Rome. Taken together these essays contribute further to our growing appreciation of the importance of early-modern festival culture in general, and their significance in the world of the Spanish Habsburgs in particular.

The Routledge Handbook of Spanish in the Global City brings together contributions from an international team of scholars of language in society to offer a conceptual and empirical perspective on Spanish within the context of 15 major cosmopolitan cities from around the world. With a unique focus on Spanish as an international language, each chapter questions the traditional and modern notions of language, place, and identity in the urban context of globalization. This collection of new perspectives on the sociology of Spanish provides an insightful and invaluable resource for students and researchers seeking to explore lesser-known areas of sociolinguistic research.

Explains what to say in Spanish in a variety of everyday situations and discusses the fundamentals of Spanish grammar.

It's true that some people spend years studying Spanish before they finally get around to speaking the language. But here's a better idea. Skip the years of study and jump right to the speaking part. Sound crazy? No, it's language hacking. Unlike most traditional language courses that try to teach you the rules of Spanish, #LanguageHacking shows you how to learn and speak Italian through proven memory techniques, unconventional shortcuts and conversation strategies perfected by one of the world's greatest language learners, Benny Lewis, aka the Irish Polyglot. Using the language hacks -shortcuts that make learning simple - that Benny mastered while learning his 11 languages and his 'speak from the start' method, you will crack the language code and exponentially increase your language abilities so that you can get fluent faster. It's not magic. It's not a language gene. It's not something only "other people" can do. It's about being smart with how you learn, learning what's indispensable, skipping what's not, and using what you've learned to have real conversations in Spanish from day one. The Method #LanguageHacking takes a modern approach to language learning, blending the power of online social collaboration with traditional methods. It focuses on the conversations that learners need to master right away, rather than presenting language in order of difficulty like most courses. This means that you can have conversations immediately, not after years of study. Each of the 10 units culminates with a speaking 'mission' that prepares you to use the language you've learned to talk about yourself. Through the language hacker online learner community, you can share your personalized speaking 'missions' with other learners - getting and giving feedback and extending your learning beyond the pages of the book . You don't need to go abroad to learn a language any more.

The CEFR Companion volume broadens the scope of language education. It reflects academic and societal developments since the publication of the Common European Framework of Reference for Languages (CEFR) and updates the 2001 version. It owes much to the contributions of members of the language teaching profession across Europe and beyond. This volume contains: ? an explanation of the key aspects of the CEFR for teaching and learning; ?

a complete set of updated CEFR descriptors that replaces the 2001 set with: - modality-inclusive and gender-neutral descriptors; - added detail on listening and reading; - a new Pre-A1 level, plus enriched description at A1 and C levels; - a replacement scale for phonological competence; - new scales for mediation, online interaction and plurilingual/pluricultural competence; - new scales for sign language competence; ? a short report on the four-year development, validation and consultation processes. The CEFR Companion volume represents another step in a process of engagement with language education that has been pursued by the Council of Europe since 1971 and which seeks to: ? promote and support the learning and teaching of modern languages; ? enhance intercultural dialogue, and thus mutual understanding, social cohesion and democracy; ? protect linguistic and cultural diversity in Europe; and ? promote the right to quality education for all.

Presents more than four thousand contemporary colloquial expressions from Spain, Latin America, and the Spanish-speaking community in the United States, with definitions, a sample sentence, and an equivalent in American slang. NATIONAL BESTSELLER • For anyone who wants to learn a foreign language, this is the method that will finally make the words stick. “A brilliant and thoroughly modern guide to learning new languages.”—Gary Marcus, cognitive psychologist and author of the New York Times bestseller *Gitars Zero* At thirty years old, Gabriel Wyner speaks six languages fluently. He didn't learn them in school—who does? Rather, he learned them in the past few years, working on his own and practicing on the subway, using simple techniques and free online resources—and here he wants to show others what he's discovered. Starting with pronunciation, you'll learn how to rewire your ears and turn foreign sounds into familiar sounds. You'll retrain your tongue to produce those sounds accurately, using tricks from opera singers and actors. Next, you'll begin to tackle words, and connect sounds and spellings to imagery rather than translations, which will enable you to think in a foreign language. And with the help of sophisticated spaced-repetition techniques, you'll be able to memorize hundreds of words a month in minutes every day. This is brain hacking at its most exciting, taking what we know about neuroscience and linguistics and using it to create the most efficient and enjoyable way to learn a foreign language in the spare minutes of your day.

In this lively and varied tribute to Martin Banham, Layiwola has assembled critical commentaries and two plays which focus primarily on Nigerian theatre - both traditional and contemporary. Dele Layiwola, Dapo Adelugba and Sonny Oti trace the beginnings of the School of Drama in 1960, at the University of Ibadan, Nigeria, where Martin Banham played a key and influential role in the growth of thriving Nigerian theatre repertoire and simultaneously encouraging the creation of a new theatre based on traditional Nigerian theatre forms. This comparative approach is taken up in Dele Layiwola's study of ritual and drama in the context of various traditions worldwide, while Oyin Ogunba presents a lucid picture of the complex use of theatre space in Yoruba ritual dramadar drama. Harsh everyday realities, both physical and political, are graphically demonstrated by Robert McClaren (Zimbabwe) and Oga Steve Abah (Nigeria) who both show surprising and alarming links between extreme actual experiences and theatre creation and performance. The texts of the two plays - When Criminals Turn Judges by Ola Rotimi, The Hand that Feeds the King by Wale Ogunyemi, are followed by Austin O. Asagba's study of oral tradition and text in plays by Osofisan and Agbeyegbe, and Frances Harding's study on power, language, and imagery in Wole Soyinka's plays.
