A James Patterson Presents Novel From the #1 New York Times and USA Today bestselling author of the Stalking Jack the Ripper series comes a new blockbuster series... Two sisters.One brutal murder. A quest for vengeance that will unleash Hell itself... And an intoxicating romance. Emilia and her twin sister Vittoria are streghie -- witches who live secretly among humans, avoiding notice and persecution. One night, Vittoria misses dinner service at the family's renowned Sicilian restaurant. Emilia soon finds the body of her beloved twin...desecrated beyond belief. Devastated, Emilia sets out to find her sister's killer and to seek vengeance at any cost-even if it means using dark magic that's been long forbidden. Then Emilia meets Wrath, one of the Wicked-princes of Hell she has been warned against in tales since she was a child. Wrath claims to be on Emilia's side, tasked by his master with solving the series of women's murders on the island. But when it comes to the Wicked, nothing is as it seems... The Renegades Trilogy continues, in this fiercely awaited second installment after the New York Times-bestselling Renegades by Marissa Meyer, author of the Lunar Chronicles. Now a New York Times Bestseller! Time is running out. Together, they can save the world. But they each other's worst nightmare. Nova's double life is about to get a lot more complicated: As Insomnia, she is a full-fledged member of the Renegades, a syndicate of powerful and beloved superheroes. She works with Adrian's patrol unit to protect the weak and maintain order in Gatlon City. As Nightmare, she is an Anarchist - a group of villains who are determined to destroy the Renegades. Nova wants vengeance against the so-called heroes who once failed her when she needed them most. But as Nova, her feelings for Adrian are deepening, despite the fact that he is the son of her sworn enemies and, unbeknownst to Nova, he has some dangerous secrets of his own. In this second installment of the Renegades trilogy, Nova, Adrian, and the rest of their crew – Ruby, Oscar, and Danna -- are faced with escalating crime in Gatlon City, while covert weapons and conflicting missions have Nova and Adrian questioning not only their beliefs about justice, but also the feelings they have for each other. The line between good and evil has been blurred, but what's clear to them both is that too much power could mean the end of their city – and the world – as they know it.

Wompler's Walking Babies once put Millford, Utah, on the map. But they aren't selling like they used to. In fact, they aren't selling at all and the only alternative to winding the company up is to tap the government for a research grant. And so Wompler Research Laboratories and Project 32 come into being. The plan is to produce self-replicating mechanisms: identical cells equipped to repair intracellular breakdowns, convert power from their environment and create new cells. But suddenly the nondescript grey metal boxes start crawling about the laboratory, feeding voraciously on any metal... and multiplying at an alarming rate.

In the twelfth Longmire novel, Walt, Henry, and Vic discover much more than they bargained for when they are called in to investigate a hit-and-run accident involving a young motorcyclist near Devils Tower—from the New York Times bestselling author of Land of Wolves In the midst of the largest motorcycle rally in the world, a young biker is run off the road and ends up in critical condition. When Sheriff Walt Longmire and his good friend Henry Standing Bear are called to Hulett, Wyoming—the nearest town to America's first national monument, Devils Tower—to investigate, things start getting complicated. As competing biker gangs: the Bureau of Alcohol, Tobacco, and Firearms; a military-grade vehicle donated to the tiny local police force by a wealthy entrepreneur; and Lola, the real-life femme fatale and namesake for Henry's '59 Thunderbird (and, by extension, Walt's granddaughter) come into play, it rapidly becomes clear that there is more to get to the bottom of at this year's Sturgis Motorcycle Rally than a bike accident. After all, in the words of Arthur Conan Doyle, whose Adventures of Sherlock Holmes the Bear won't stop quoting, "There is nothing more deceptive than an obvious fact."
