Dear Reader, What you are now holding is a most interesting book. The world beyond is speaking. It is offering advice, asking for help and giving answers. It exists and speaks about life -- our life here on earth and of possible consequences of our behaviour. It tells us that it is not the same to be humble, loving, good, merciful, loyal and honest as it is to be proud, loveless, bad, merciless, betraying and dishonest. At death this is not forgotten but rather remembered in total clarity. Not only is the punishment, or better yet the cleansing, spoken about; but also the length of this cleansing is so

very much more. Then you ask yourself, is it possible? In the Catholic church one speaks about a transitory state which for a very long time has been referred to as Purgatory. Despite there being different theories, this state is always taken seriously. One needs it because one can only come before God cleansed and pure. It begins as an assignment for English class: Write a letter to a dead person. Laurel chooses Kurt Cobain because her sister, May, loved him. And he died young, just like May did. Soon, Laurel has a notebook full of letters to people like Janis Joplin, Amy Winehouse, Amelia Earhart, Heath Ledger, and more -- though she never gives a single one of them to her teacher. She

writes about starting high school, navigating new friendships, falling in love for the first time, learning to live with her splintering family. And, finally, about the abuse she suffered while May was supposed to be looking out for her. Only then, once Laurel has written down the truth about what happened to herself, can she truly begin to accept what happened to May. And only when Laurel has begun to see her sister as the person she was -- lovely and amazing and deeply flawed -- can she begin to discover her own path in this stunning debut from Ava Dellaira, Love Letters to the Dead.

I'm sure we are both constatly hunted by our past. Although we may not, I don't think I'm like you, my shy friend, invisible in the crowd, addicted to be an addict. In the end, it doesn't matter whom I look like, or who I truly am. What you have in your hands is my journal and it is welcoming you to live inside of a "MAYBE," and to fall in love as much as to end up ignoring it. This book is about new and effective ways to address disease that aren't commonly used by our physicians. Dr. Chris Gilbert demonstrates that our bodies speak to us all the time. Through symptoms such as fatigue, joint pain, abdominal pain, anxiety, depression, and other symptoms, our bodies let us know that we have a problem and that we need to solve it. Dr. Gilbert, assisted by Dr. Haseltine, shows that by using her "giving the body a voice" technique, sufferers can discover what the symptoms mean and how to fix the often

Elsie Tu is well known as a social activist and crusader against injustice and corruption in Hong Kong. In this powerful personal statement, she expresses her views about the injustices in the past colonial system and her fears about present day economic colonialism. This is a book with strong messages for today. Mrs Tu's deep concerns about the current international scene have the most immediate and obvious topical relevance. But there is an equally strong lesson in her description of the corruption that used to be so pervasive in Hong Kong and her battles against it. She reminds us forcefully of the need for continued vigilance if

corruption and its awful effects are not to return. However, the most important message of this book pervades all parts of it: the example of a life devoted to improving things for the ordinary people of Hong Kong, a life not just lived according to high principles, but characterized by a dogged and fearless determination to fight for those principles, to be an activist. This book is important because it records the beliefs, some of the experiences and above all the commitment of one of the most notable people of post-war Hong Kong. By giving rich insights into the mind and beliefs of an extraordinary and indomitable person, it brings to life the recent history of Hong Kong and challenges the next generation of Hong Kong people to contribute as

The book will also give readers a bird's eye view of the worldwide scale of suffering and injustices caused by nations seeking economic and political domination. I write this book because I believe that human beings can only comprehend the present when they understand the past, and they can only make a better future when they learn from previous errors.
