Assuming no prior knowledge of grammatical terminology, it explains each aspect of Spanish grammar in clear and simple terms, provides a wealth of glossed examples to illustrate them, and helps students to put their learning into practice through a range of fun and engaging exercises. Clearly organized into thirty units, each covering a different aspect of the grammar, the book functions both as an essential reference guide and a comprehensive workbook. The exercises, which include paired and group activities, are suitable for both classroom use and self-study. Each unit is split into two levels, basic and intermediate, making this grammar the perfect accompaniment to any first or second year undergraduate course.
