Architectural competitions act as a tool for enhancing a design and selecting planning partners. The quality of urban development, high-rise buildings and open spaces is thus sustainably improved.

Nevertheless, this planning and

Additionally, the book addresses practice management considerations, including coding,

also an invaluable reference
tool for the interpretation of
illustrations and their status

chapter then deals with a different illustrative technique - drawing in the field during survey work and excavation, drawing artefacts, buildings and reconstructions, producing

important feature of
