Thalaba the Destroyer by Robert Southey Thalaba the Destroyer is an 1801 epic poem composed by Robert Southey. The poem is divided into twelve "books" with irregular stanza structures and unrhymed lines of poetry. The story describes how a group of sorcerers work to destroy the Hodeirah family in an attempt to prevent a prophecy of their future doom from coming true. However, a young child named Thalaba is able to escape from the slaughter. After one of the sorcerers hunts down Thalaba to kill him, the sorcerer is defeated by a great storm and his powerful magical ring comes into Thalaba's possession. With the ring, Thalaba travels across the Middle East to find a way to defeat the evil sorcerers. We are delighted to publish this classic book as part of our extensive Classic Library collection. The Empress almost has control of the world she was promised and soon her enemies will not be able to thwart her. There is just one man keeping her from her prize: Kaiyer.

All her life, Sophie's tried to earn her father's love to no avail. Even her one chance for happiness was crushed beneath his tyrannical thumb, leaving her firmly on the shelf at forty-one. Sophie accepts her fate until she impulsively uses her father's criminal activities to escape a life of servitude and right a wrong at the same time. She never really expected the Devil of Devlyn to actually accept her rash proposal, and she certainly hadn't planned on falling in love with a younger man. When Quentin Blackwell, Earl of Devlyn, discovered the woman he loved was carrying another man's child, he refused to marry her. In retaliation, her father ruined Devlyn. When Sophie Hamilton, the man's eldest daughter, comes to him with an unexpected offer, Devlyn seizes the chance for vengeance. What he doesn't bargain on is how revenge could cost him the one thing he wants the most. Sophie's love.

Into the Light

*X marks the spot in the millennia-long quest to unlock the secrets of the Creation, Nativity and End-Times in Planet X, the Sign of the Son of Man, and the End of the Age. Written over a period of 22 years, Planet X represents literally decades of cutting-edge research into the Bible, ancient Near Eastern religion, and both ancient and modern astronomy. Planet X presents powerful and compelling evidence that the most critical events of the Bible - the Creation of the heavens and Earth, the birth of Christ, and His Second Coming - are all three bound together by the regular re-appearance of a mysterious tenth planet in our solar system. This mysterious planet, dubbed "Planet X" by modern astronomers who have been searching for it for over a century, is believed by some to be responsible for the creation of Earth in its present form. Planet X presents compelling evidence that this mysterious tenth planet was used by God to not only create the heavens and Earth, but also to herald the birth of Christ as the Star of Bethlehem, and to herald His return in the End-Times as the Sign of the Son of Man and the End of the Age.*

*The Lost Starship*

*Over the years, startling evidence has been unearthed, challenging established notions of the origins of Earth and life on it, and suggesting the existence of a superior race of beings who once inhabited our world. The product of thirty years of intensive research, The 12th Planet is the first book in Zecharia Sitchin's prophetic Earth Chronicles series--a revolutionary body of work that offers indisputable documentary proof of humanity's extraterrestrial forefathers. Travelers from the stars, they arrived eons ago, and planted the genetic seed that would ultimately blossom into a remarkable species...called Man. The 12th Planet brings to life the Sumerian civilization, presenting millennia-old evidence of the existence of Nibiru, the home planet of the Anunnaki, and of the landings of the Anunnaki on Earth every 3,600 years, and reveals a complete history of the solar system as told by these early visitors from another planet. Zecharia Sitchin's Earth Chronicles series, with millions of copies sold worldwide,*

*deal with the history and prehistory of Earth and humankind. Each book in the series is based upon information written on clay tablets by the ancient civilizations of the Near East. The series is offered here, for the first time, in highly readable, hardbound collector's editions with enhanced maps and diagrams.*

*Control dinosaurs. Tame women. Rule the world. Victor and his tribe of beautiful women prepare to leave their fort and journey to their new base, but as usual with Dinosaurland, things never go according to plan. Now Victor must protect all of his tribe without the aid of walls, and an old enemy gathers an army to give chase. Victor will have to use every power at his disposal to protect his women, and the journey will uncover new secrets of this strange world.*

Earth Strike

Ender's Game

The Snowden Affair, Wikileaks, the 'lone wolf' terrorist, Clinton's private email account - the secret is arguably the central element of our contemporary political experience. Now, Charles Barbour looks at the basic ontological question 'what is a secret?' Organised as a reflection on Jacques Derrida's later writings on secrecy, four chapters each look at a separate problematic: society and the oath, literature and testimony, philosophy and deception, and time and death. Barbour shows that secrecy is not a negation of our relations with others, but a necessary condition of those relations. We can only reveal ourselves to one another (and, indeed, to anything other) insofar as we conceal as well.

"I need to tell you why I so afraid to fall in love with you again. Why from the moment I saw you in the restaurant I tried to deny any feelings I still had for you. Why I pushed you away, why I lied to you that day in the hospital... It all started during the summer break of 2005, exactly sixty days since the last time I had seen you..." He came and stole what she had desperately tried to hold onto: her heart. Charlie Mason thought she knew better until her insecurities overruled and she again believed he broke her. In a bid to finally find their happily ever after, Lex and Charlie find themselves on a journey of learning how to love again. They began a new future to move forward from a broken past, but life is never so easy. When you finally have the one thing you've always wanted, what do you

do when that place of darkness finds its way back, shattering everything you fought so hard to have? This is the final story of Lex and Charlie, two souls that were brought back together in a twist of fate. An eternal love that has been through every storm, dragged into the dark abyss without a chance of climbing out, but through all the battles they find themselves in a place they call home, away from the darkness and away from the fear. With a glimmer of hope, they look directly into the light.

From Joshua Dalzelle, author of the bestselling "Omega Force" series, comes an all new vision of humanity's future. In the 25th century humans have conquered space. The advent of faster-than-light travel has opened up hundreds of habitable planets for colonization, and humans have exploited the virtually limitless space and resources for hundreds of years with impunity. So complacent have they become with the overabundance that armed conflict is a thing of the past, and their machines of war are obsolete and decrepit. What would happen if they were suddenly threatened by a terrifying new enemy? Would humanity fold and surrender, or would they return to their evolutionary roots and meet force with force? One ship-and one captain-will soon be faced with this very choice. Against incredible odds, Jackson Wolfe is determined to save humanity-and in the process, might end up saving himself.

For 457 years the Prophet Nostradamus has been a MYSTERY. Hidden in dark speech he was misunderstood and rejected by the Protestant Christian Church, forbidden to be read by the Catholic Church, and totally discredited by psychics and worldly interpreters as being in the Occult. However, it was the occult interpreters that were instrumental in keeping his work alive and mysterious.

Written from a Christian perspective, many questions about this mysterious man Nostradamus, and why his work has endured so long are answered in this book. Reverend Sunday has discovered the secrets and the intentions of his lifes work, and you will be amazed to find out WHO Nostradamus really was. If you are curious about Planet X-Wormwood, then you will find out how that ties into these hidden revelations. There always comes a time when hidden things are revealed to a Prophet. (Daniel 2:22; Amos 3:7.) The second Prophet, William Branham, was way ahead of his time in his understanding of supernatural phenomenon; and his revelations on the Book of Genesis regarding the apple and its sexual connotations lost him favor with the approved church then, and now. Prophets are rarely understood in their own age. These TWO PROPHETS were brought together to this unknown Sophe/Scribe chosen to disclose the hidden, amazing information, and revelation for our day...To GOD be the GLORY. Prepare the way for the Lord.

From #1 New York Times bestselling author Brandon Sanderson, *Warbreaker* is the story of two sisters, who happen to be princesses, the God King one of them has to marry, the lesser god who doesn't like his job, and the immortal who's still trying to undo the mistakes he made hundreds of years ago. Their world is one in which those who die in glory return as gods to live confined to a pantheon in Hallandren's capital city and where a power known as BioChromatic magic is based on an essence known as breath that can only be collected one unit at a time from individual people. By using breath and drawing upon the color in everyday objects, all manner of miracles and mischief can be accomplished. It will take considerable quantities of each to resolve all the challenges facing Vivenna and Siri, princesses of Idris; Susebron the God King; Lightsong, reluctant god of bravery, and mysterious Vasher, the *Warbreaker*. It finally happened. Commander Thrax Ti Ix created a hyper-spatial tube for the Swarm Imperium. Across thousands of light-years, a vast armada of warships is heading for Earth to burn the homeworld down to its bedrock as the Swarm begins its genocidal campaign against the human race. No one-not the New Men, the Spacers, the Wahhabi Caliphate or Star Watch-has faced such staggering odds. Alone or united, it makes no difference. Captain Maddox has a last-ditch plan. He's returning to the null region of last voyage to grab the ancient Destroyers hidden there. But an immortal entity of evil cunning haunts the vessels. If it escapes its prison...Maddox will have made things infinitely worse. This time, mankind needs a miracle. THE LOST EARTH is

***In the vein of the hit television show Battlestar Galactica comes Earth Strike—the first book in the action-packed Star Carrier science fiction series by Ian Douglas, author of the popular Inheritance, Heritage, and Legacy Trilogies and one of the most adept writers of military sf working today. Earth Strike rockets readers into a vast and deadly intergalactic battle, as humankind attempts to bring down an evil empire and establish itself as the new major power. Fans of Robert Heinlein's Starship Troopers and Joe Haldeman's The Forever War, welcome aboard the Star Carrier!***

***Throughout history, man has been searching for better ways to gather information about his universe. But although they may have longed for it, not even the most brilliant minds could conceive of a device as infinitely powerful or as immeasurably precise as the Macroscope, until the twenty-first century. This is a story of mans desperate search for a compromise between his mind and his heart, between knowledge and humanity.***

***The Prince Prince Xalikian Kazharan has a dilemma on his hands. Now that the Kordolians have landed on Earth, he somehow has to convince an entire planet of Humans that his people mean them no harm. It's easier said than done, especially when one's race has a reputation for brutally conquering the Nine Galaxies. Perhaps this stubborn journalist called Sera Aquinas, who thinks she can just walk up to his front door and ask for an interview, might be able to help him. But first, he has to gain her trust, and that's not so easy when her presence drives him to distraction. The Journalist Sera Aquinas doesn't trust the charming amber-eyed Prince when he says he doesn't want to take over her planet. As a hardened journalist, she's seen her share of duplicity and corruption. But she has to admit that Xal is one fine looking alien, and a part of her is curious. It's absolutely far fetched, but what if he's telling the truth? And when it comes to Xal, why does her body keep betraying her when her head is telling her to get the hell out of there? Warning: this book contains swearing, violence, sensual sex scenes, silver aliens with fangs and a little dose of insta-lust. If you're sensitive to any of these things, you may want to think twice before reading it. It's definitely recommended for readers aged 18 and over. Dark Planet Falling is Book Two in the Dark Planet Warriors Series. It will probably make more sense if you've read Dark Planet Warriors first, although that's probably not absolutely essential.***

This 1937 successor to Last and First Men offers another entrancing speculative history of the future. Cited as a key influence by science-fiction masters such as Doris Lessing, its bold exploration of the cosmos ventures into intelligent star clusters and mingles among alien races for a memorable vision of infinity.

The Matrix meets an Afro-futuristic retelling of Persephone set in a science fiction underworld of aliens, refugees, and genetic engineering in Jennifer Marie Brissett's Destroyer of Light Having destroyed Earth, the alien conquerors resettle the remains of humanity on the planet of Eleusis. In the four habitable areas of the planet—Day, Dusk, Dawn, and Night—the haves and have nots, criminals and dissidents, and former alien conquerors irrevocably bind three stories: \*A violent warlord abducts a young girl from the agrarian outskirts of Dusk leaving her mother searching and grieving. \*Genetically modified twin brothers desperately search for the lost son of a human/alien couple in a criminal underground trafficking children for unknown purposes. \*A young woman with inhuman powers rises through the insurgent ranks of soldiers in the borderlands of Night. Their stories, often containing disturbing physical and sexual violence, skate across years, building to a single confrontation when the fate of all—human and alien—balances upon a knife's-edge. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
