This is the main objective of this volume, which is structured in two central aspects. In the first of them the concept of multilingual lexicography is discussed in regard to the influence that the Internet and the application of digital technologies have exercised and

continue to exercise both in the conception and design of dictionaries and new lexicographic application tools as well as the emergence of new types of users and forms of consultation. The role of the dictionary must necessarily be related to social development

and changes. In the second thematic section, different dictionaries and resources that focus on a multilingual and electronic approach to the linguistic data for their lexicographical treatment and consultation are presented.

Lexicografia

The proceedings

cover new

perspectives in

the field of

lexicography,

including both

theoretical and practical topics, and new aspects of special and bilingual dictionaries. The volume also includes contributions dealing with corpus-based dictionaries, anglicisms,

collocations,  
equivalents,  
semantics,  
grammar,

production.

In contrast to  
previous  
approaches to  
phonological  
typology, the  
typology of  
syllable and word  
languages relates  
the patterns of  
syllable  
structure,  
phoneme

inventory, and  
phonological  
processes to the  
relevance of the  
prosodic domains  
of the syllable  
and the  
phonological  
word. This  
volume proves  
how useful this  
kind of typology  
is for the

and Swabian  
(Alemannic  
dialect group),  
the author shows  
how the evolution  
of Old Catalan  
and Old  
Alemannic can be  
explained in  
terms of a  
typological drift  
toward an  
increased

relevance of the phonological word. Further, the description of Central Catalan and Swabian allows to identify common strategies for profiling the phonological word and thus makes an

important  
contribution to  
research on  
prosodic  
phonology.

This book looks  
at the reasons  
behind the  
emergence of a  
Catalan  
nationalist  
movement from  
the late 1880s,

one of the most  
important  
developments  
that took place in  
nineteenth-  
century Spain,  
with the 'Catalan  
question'  
thereafter never  
far from the  
centre of the  
Spanish political  
stage.
