Dinorella is dying to go to the dance, but her dreadful stepsisters, Doris and Dora, declare she's too dowdy and dull.

Studies in Verbal Behavior: An Empirical Approach summarizes the results of empirical studies on the variables that control verbal behavior. These studies explore the response properties of verbal behavior already acquired, with respect to size of unit, mode of emission, and the constraining effects of sentence frames. The stimulus situation in which the behavior is emitted, the use of verbal material as stimulus, and the relationship between sequential guessing of sentences and the marking off of "idea unit" boundaries in the same material are also discussed. This volume first introduces the reader to situations which will best allow us to view the basic lawfulness inherent in the control of verbal behavior. In particular, it explores response bias and serial effects in a modified Shannon Guessing Game and compares oral and written verbal behavior. Attention then turns to the manner in which the verbal stimulus controls various forms of behavior, paying particular attention to search time as a function of target location and frequency in language, along with some stimulus properties of syntagmatic and paradigmatic word sequences. The next section analyzes the effects of limiting the generation of sentences by length and by the presence of certain words or grammatical endings (bound morphemes) in particular positions of each sentence. Some characteristics of sentences as response units are highlighted. This book will be of value to psychologists and those who are interested in verbal behavior.

In this exhilarating and often hilarious book, David Crystal examines why we devote so much time and energy to language games, how professionals make a career of them, and how young children instinctively take to them. Crystal makes a simple argument-that since playing with language is so natural, a natural way to learn language is to play with it-while he discusses puns, crosswords, lipograms, comic alphabets, rhymes, funny voices taken from dialect and popular culture, limericks, anagrams, scat singing, and much more.

Making Centers Work

Based on two years of intensive research in a juvenile prison, this study tells the story of youths in a "model program," created after a class action lawsuit for inhumane and illegal practices. It captures their lives inside and outside of prison: from drugs, gangs and criminal behaviour to the realities of families, schools and neighbourhoods. Drawing on experience that encompasses 20 years of juvenile justice research and policy analysis, the authors scrutinize the prison's attempts to combine accountability and treatment for youths with protection for the public, situating these within the larger social and political context.

As her city of Tenochtitláan is shaken by the invasion of Cortez, Itacate, whose father is a goldsmith, challenges fate, culture, and faith by pursuing her forbidden passion for goldwork and an equally illicit love.

"Eight hundred and fifty-three horrifying things had happened to me by the time I was a teenager. That was when I met my Pigman, whose real name was Nonno Frankie." The year Paul Zindel, his sister, Betty, and their mother lived in the town of Travis, Staten Island, New York, was the most important time of his teenage life. It was the year he and Jennifer Wolupopski were best friends. It was the year of the apple tree, the water-head baby, and Cemetery Hill. And it was the year he met Nonno Frankie Vivona, who became his Pigman. Every word of his story is true. And The Pigman & Me has an added bonus--one crucial piece of information: the secret of life, according to the Pigman.

Words and Minds takes a lively and accessible look at how we use language to combine our mental resources and get things done. Examining everyday language and drawing on a wide range of research, but always with a light style, Neil Mercer provides a unified account of the relationship between thought and language. Mercer analyses real-life examples of language being used effectively, or otherwise, in many different settings, including workplaces and schools, the home, the internet and the courtroom, and offers practical insights into how we might improve our communication skills. Words and Minds will appeal to anyone interested in language and the psychology of everyday life.

Presenting lessons proven on the firing line, creative teacher Mr. Donn and his circus dog Maxie show how to immerse students in learning ancient history and keep them coming back for more. Sections feature well-structured plans supported by reproducibles, special lessons for the computer lab (with links and handouts), and additional lessons for substitute teachers. Topics in this unit include Five Themes of Geography, archaeology, and early humans. Grades 6-8. Revised Edition.

The story of Orville and Wilbur Wright and their history making flight.

How We Use Language to Think Together

Eveningstar Macaw lives in a glorious Mayan city in the ninth century. When the king falls ill and dies, the city begins to crumble. An evil high priest, Great Skull Zero, orders the sacrifice of those who might become king, including Eveningstar's beloved brother. Suspicious of the High Priest's motives, Eveningstar attempts to save her brother, thus becoming an acknowledged enemy of the High Priest. Condemned to be thrown into the Well of Sacrifice, Eveningstar must find a way not only to save her own life but to rescue her family and her city from the tyrannical grasp of Great Skull Zero. Set against the vivid background of everyday life at the height of the Mayan golden age and illustrated with striking black-and-white paintings, Eveningstar's candid, gripping, and not-for-the-faint-of-heart account of the last days of a great city will have readers at the edge of their seats. Afterword.

Dissatisfied with its shape, a triangle keeps asking the local shapeshifter to add more lines and angles until it doesn't know which side is up.

Describes the history, geography, and culture of the ancient Maya, including information on their beliefs and achievements.
