An Untold Story of Jesus Christ

From the Imagination to the Page

In the latest romantic romp from New York Times bestselling author Zane, two hapless lovers get lost in a dating game gone awry. When Washington, D.C., chiropractor Yardley Brown goes to his local bank, it isn't only to make deposits into his account. He has long since accrued some interest in Rayne Waters, a bank employee who's too beautiful to be true -- and too beautiful to be single. At least that's what Yardley believes, which is why he has never approached her. Little does he know that Rayne is anything but taken. Not for want of trying, of course. But after barely surviving a dating disaster with her hairdresser's brother and then falling for a member of her church band who, it turns out, is celibate, she's on the verge of giving up. That is, until Yardley -- discouraged by his own slew of dead-end romances -- finally works up the courage to give her a try. The true craziness, however, is just beginning, thanks to a cast of characters who seem bent on botching the young couple's relationship. There's Rayne's erratic mother, who constantly boasts about being a "good whore"; Yardley's playboy buddies, always trolling for sex; and, worst of all, past lovers who make a habit of popping up and ruining things as only old flames (or previous mistakes) can. Weaving the carnal and the comical in true Zane fashion, Rayne and Yardley's struggle to find love in a world gone mad is a timeless talk about everything that can go wrong in the dating game -- and a few things that can go right.

In this pulse-pounding new Midnight Breed vampire romance novel from New York Times and #1 international bestselling author Lara Adrian, passion explodes between a daywalking member of the Order and a fiery female warrior whose shadowy past will test the bonds of both duty and desire. As the son of a formidable Breed warrior, Aric Chase has been devoted to the Order all his life. With his training completed, all he needs is one successful mission before he can join the fight to destroy the Order's chief nemesis, Opus Nostrum. His rare ability to daywalk lands Aric an assignment in Montreal, where he learns he's to be teamed with another new recruit, a beautiful, but tough-as-nails Breedmate named Kaya Laurent. Independent and driven, Kaya wants nothing more than to become a full-fledged member of the Order. Having grown up in squalor and neglect on the streets of Montreal, she longs for the close-knit family she's found during her training to be a warrior. Eager to prove herself, she is thrilled to be given the chance at a key operation-even if she must share the mission with an arrogant, far-too-seductive Breed male who's practically Order royalty. Their unwanted partnership soon erupts into a desire neither of them can resist. But when Kaya's past reaches out from the shadows to call her back, she must decide between protecting a dark alliance that could shatter her dreams of joining the team and a truth that could not only forfeit Aric's faith in her, but bring the enemy right to the Order's door.

***"What a strange new world, to have such creatures in it!" Forced into hiding by a global ecological cataclysm, humans emerge from their underground warrens half a millennium later to discover that the Earth has been totally transformed. All of the familiar flora and fauna are gone, replaced by a radically altered natural order populated by rampaging dinosaurs and strange new creatures. It takes guts, grim determination, ingenuity and a whole lot of old-fashioned luck just to survive, much less thrive, in this alien wilderness--all qualities that ace mechanic Jack Tenrec, lovely scientist Hannah Dundee and their friends possess in abundance. But even the worthiest of these hardy souls are hard-pressed to surmount the obstacles presented by their new homeland. And when those trials are further compounded by the underhanded and selfish actions of the cutthroat human scavengers they encounter, even the best-equipped and bravest among them might not endure. Fraud and piracy of products and ideas have become common in the early twenty-first century, as opportunities to commit them expand, and technology makes fraud and piracy easy to carry out. In Combating Piracy: Intellectual Property Theft and Fraud, Jay S. Albanese and his contributors provide new analyses of intellectual property theft and how perpetrators innovate and adapt in response to shifting opportunities. The cases described here illustrate the wide-ranging nature of the activity and the spectrum of persons involved in piracy of intellectual property. Intellectual property theft includes stolen copyrights, trademarks, trade secrets, and patents, which represent the creative work of individuals for which others can claim credit. The distributors of books, movies, music, and other forms of intellectual property pay for this right, and those who distribute this work without compensation to its creator effectively hijack or "pirate" that property without the owner's or distributor's permission. The problem has grown to the point where most software in many parts of the world is The World Health Organization estimates that 10 percent of all pharmaceuticals available worldwide are counterfeit. Such widespread fraud illustrates the global reach of the problem and the need for international remedies that include changed attitudes, public education, increasing the likelihood of apprehension, and reducing available opportunities. The contributors show that piracy is a form of fraud, a form of organized crime, a white-collar crime, a criminal activity with causes we can isolate and prevent, and a global problem. This book examines each of these perspectives to determine how they contribute to our understanding of the issues involved.
