

## Disfaproblemi 90 Esercizi Per Liberarsi Dalla Paura Della Matematica

The school year is finished, exams are over and summer stretches before seventeen-year-old Federico, full of promise and opportunity. But then he accepts a request from one of his teachers to help out at a youth club in the destitute Sicilian neighbourhood of Brancaccio. This narrow tangle of alleyways is controlled by local mafia thugs, but it is also the home of children like Francesco, Maria, Dario, Tot ò : children with none of Federico's privileges, but with a strength and vitality that changes his life forever. Written in intensely passionate and lyrical prose, What Hell Is Not is the phenomenal Italian bestseller about a man who brought light to one of the darkest corners of Sicily, and who refused to give up on the future of its children.

Once upon a star, there were no stars to shine -- no sun to rise no sun to set no day, no night, nor any time. Discover the origins of the universe! The worlds of poetry and science collide to create this unique book about our sun, our planets, our Earth--and YOU!

A poignant and non-didactic exploration of difference, self-acceptance, the power of friendship, and inner strength. Milo is a penguin who, unlike the other penguins, does not like the cold. When he takes a chance and goes on a trip to a faraway place where it’s warm, he finds friends who accept him, and with their support he learns to accept himself. When he returns home, he is even able to befriend others who are different. The Penguin Who Was Cold is an endearing tale of a young penguin named Milo who does not want to dive into the icy water of the pack ice to catch fish. Unlike his comrades, he stays put, standing alone at the edge of the ice and contemplating the cold sea. When a whale appears and offers to take him on a trip, Milo readily accepts. It is the beginning of a fabulous journey. In the faraway South Seas, Milo is amazed by the colors, the warmth of the water and the air, and most of all the friendly welcome he receives from the tropical animals who accept him for who he is and then give a precious and symbolic gift.

No Marketing Blurp

A guide to eleven children's art workshops by one of the world's most innovative facilitators and best-selling bookmakers. Workshops are designed to spark children's imaginations, champion group bonding, and give visually pleasing results - with no artistic ability required. Illustrated and written by author of Press Here (over 1 million copies sold worldwide and a The New York Times bestseller for 3 years running). Each workshop includes: a list of materials needed, a step-by-step guide to facilitation, practical tips, illustrated examples, and photos of workshops in progress. Tried and tested around the world by children of all ages. Perfect for organizing group events at home, in schools, at parties, at museums - anywhere!

Always reflective of the latest research and thinking in the field, Patricia Miller’s acclaimed text offers an ideal way to help students understand and distinguish the major theoretical schools of child development. This fully updated new edition includes a new focus on biological theories of development, and offers new instructor resource materials.

It had never been done before. Not in 2,000 years of Japanese recorded history had anyone followed the Cherry Blossom Front from one end of the country to the other. Nor had anyone hitchhiked the length of Japan. But, heady on sakura and sake, Will Ferguson bet he could do both. The resulting travelogue is one of the funniest and most illuminating books ever written about Japan. And, as Ferguson learns, it illustrates that to travel is better than to arrive.

Many children are adopted every day and become someone's dream come true. Follow Landon through his adoption story and see how much Landon is truly loved!

The top Paralympic swimmer in the world, Jessica Long delivers an inspirational photographic memoir. Born in Siberia with fibular hemimelia, Jessica Long was adopted from a Russian orphanage at thirteen months old and has since become the second most decorated U.S. Paralympic athlete of all time. Now, Jessica shares all the moments in her life—big and small, heartbreaking and uplifting—that led to her domination in the Paralympic swimming world. This photographic memoir, filled with photographs, sidebars, quotes, and more, will thrill her fans and inspire those who are hearing her story for the first time.

This puzzle book contains more than 100 puzzles that are guaranteed to get your brain spinning and your mind whirring. All are set in times past and Merlin the wizard, Avalon, King Arthur and other mythical people and places feature prominently.

*Dal maestro Camillo Bortolato, un innovativo testo dedicato alla risoluzione dei problemi. Il volume contiene 90 problemi, concepiti come sfide intuitive solitarie che il bambino può risolvere in classe o casa. Grazie alle soluzioni grafiche adottate, i problemi sono privi di operazioni aritmetiche e hanno un valore terapeutico per tutti i bambini che identificano erroneamente la matematica con le operazioni della disciplina. Ogni problema è corredato da un suggerimento intermedio e da una soluzione. Rivolto ai bambini della scuola primaria e oltre, gli esercizi proposti si trasformano in un gioco utile e divertente. Il Disfaproblemi è per tutti i bambini e i ragazzi che sono in difficoltà con i problemi di matematica e che per questo si sentono scoraggiati e delusi di se stessi. Propone una via alternativa per riuscire a dissipare le ansie e le paure trasformando i tradizionali problemi scolastici in giochi per immagini, ispirati ai sudoku e ad altri rompicapo. Chi riuscirà a risolverli non dubiterà più delle sue capacità. È rivolto a tutti, piccoli e grandi, perché l’intelligenza non ha età. Camillo Bortolato*

*Introduce young learners to numbers with this fun and engaging activity book. - Lots of practice opportunities to help children learn the numbers 0-20.- Wipe-clean pages and pen so that children can try the activities again and again.- Colourful, motivating activities to help boost confidence.*

Those long summer days and weekends spent with our best friends can be among the happiest memories of childhood. But the art of making friends isn’t a skill that is taught in most schools. Teaching children how to be good friends and cultivate healthy friendships is the work of parents, teachers, coaches, ministers, and caring adults. In How to Be a Friend: A Book about Friendship . . . Just for Me!, author, Molly Wigand, introduces children to those values that make for good friendships—loyalty, trust, and honesty—and to how they can become a good friend to others.

Andrew McCarthy grows concerned for his family after he catches a young man, Zachary Denton, photographing his daughter, Grace McCarthy, and other children at a park. To his dismay, Zachary talks his way out of trouble when he’s confronted by the police. He hopes that’s the end of it. Then he finds Zachary at a diner and then at a grocery store. He knows their encounters aren’t coincidences. And just as Andrew prepares to defend his family, Grace vanishes. As the police search stalls and the leads dry up, Andrew decides to take matters into his own hands. He starts by searching for sex offenders in the area and researching enhanced interrogation techniques... He convinces himself he'll do anything to rescue his daughter, unaware of the pure evil he'll face in his journey. He's willing to hurt-to torture-anyone to save his family. Jon Athan, the author of Into the Wolves' Den and The Abuse of Ashley Collins, delves into the underworld of internet predators in this disturbing horror novel. Are your children safe? *Presents an overview of the aesthetics, meanings, functions, and techniques of Mesoamerican architecture, and surveys the historical development of the builder's art in each of the region's cultural areas.*

*“No other individual—not even Freud himself—has had a greater impact on modern psychotherapy.” —Psychology Today*
*All of us worry about something, big or small, every day. But much of the emotional misery we feel is an overreaction—and can be significantly reduced using the techniques in this book. World-renowned therapist Dr. Albert Ellis, who created Rational-Emotive Behavior Therapy (REBT), believed that anger, anxiety, and depression are not only unnecessary, they’re unethical, because when we allow ourselves to become emotionally upset, we’re being unfair and unjust to ourselves. Thinking negative thoughts is a choice we can refuse to make. Applying the proven, time-tested principles of REBT is a simple, logical way to find true mental health and happiness. REBT acknowledges the power of emotions, but it also helps us understand which feelings are healthy and which are not. This classic book teaches you how to: · Retrain your brain to focus on the positive and face obstacles without unnecessary despair · Control your emotional destiny · Refuse to upset yourself about upsetting yourself · Solve practical problems as well as emotional problems · Conquer the tyranny of “should,” and much more Get the tools you need to take back your life—and your happiness. If you can refuse to make yourself miserable, you’re that much closer to making yourself happy—every day. “Shows how to avoid the traps of self-harm and find mental health.” —Publishers Weekly*

*Young art-chefs - your moment has come! The table is set and your ingredients await: an empty plate, color pens and - most important of all - your imagination! Now, add a dash of squiggles there, a handful of zig zags for flavor - and voila!*

*Asha Phillips writes as both a child psychotherapist and a mother, using case studies as well as informal anecdotes from family and friends as illustrations. She strips away the negative associations surrounding the word 'no' and celebrates change and setting limits as essential ingredients in development. In a new introduction, Asha Phillips explains why the idea of limits and boundaries have become ever more pertinent since the book was first published. Now with a new chapter on illness in the family, Saying No can continue to build*

CAT per coinvolgere ancora di più i bambini nel processo di apprendimento della lingua inglese! Fun!

From Susan Vreeland, bestselling author of such acclaimed novels as *Girl in Hyacinth Blue*, *Luncheon of the Boating Party*, and *Clara and Mr. Tiffany*, comes a richly imagined story of a woman's awakening in the south of Vichy France—to the power of art, to the beauty of provincial life, and to love in the midst of war. In 1937, young Lisette Roux and her husband, André, move from Paris to a village in the south of France, having to give up her dream of becoming a gallery apprentice and longs for the comforts and sophistication of Paris. But as she soon discovers, the hilltop town is rich with unexpected pleasures. Pascal once worked in the nearby ochre mines and later became a pigment salesman and frame maker: while selling his pigments in Paris, he befriended Pissarro and Cézanne, some of whose paintings he sold in the village. In the village, Lisette meets a young painter, André, who is also a friend of Pascal's and, like her, is struggling to make a living and life, allowing her to see his small collection of paintings and the Provençal landscape itself in a new light. Inspired by Pascal's advice to "Do the important things first," Lisette begins a list of vows to herself (#4. Learn what makes a painting great). When war breaks out, André goes off to the front, but not before hiding Pascal's paintings to keep them from the Nazis' reach. With German forces in the area, Lisette sets out to locate the paintings (#11. Find the paintings in my lifetime). Her search takes her through the stunning French countryside, where she befriends Marc and Bella Chagall, who are in hiding before their flight to America, and acquaints her with the land, her neighbors, and even herself in ways she never dreamed possible. Through joy and tragedy, occupation and liberation, she discovers the truth about her past, to live robustly, and to love again. Praise for Lisette's List "Vreeland's love of painters and painting, her meticulous research and pitch-perfect descriptive talents . . . are abundantly evident in her new novel."—The Washington Post "This historical novel's . . . great strength is its lovingly detailed setting. . . . Readers will enjoy lingering in the sun-dappled, fruit-scented Provençal landscape.

This seminal textbook on Gestalt therapy refreshes the theory of by revisiting its European roots. Taking the basic premise that people do the best they can in relation to their own situation, leading European therapist Georges Wollants explains Gestalt theory and provides a useful critique of commonly taught concepts. Each section approaches a key area of psychotherapy theory in context, while chapter summaries, illustrations and worked-through case examples help to make the theory accessible to all those training in Gestalt therapy. Commentaries from current experts in different areas of Gestalt provide a balanced overview of Gestalt therapy today.

The Montessori Method represents an explicit idealism and turn away from war and violence toward peace and reconstruction. It is built on coherent visions of how to improve human society by helping children realize their full potential as intelligent, creative, whole persons. In the Montessori Method, children are viewed as active authors of their own development, strongly influenced by natural, dynamic, self-righting forces within themselves, opening the way toward growth and learning. Teachers depend for their work with children on carefully prepared, aesthetically pleasing environments that serve as a pedagogical tool and provide strong messages about the curriculum and about respect for children. Partnering with parents is highly valued in the Montessori Method, and children are evaluated by means other than traditional tests and grades.
