The Presidents Fact Book is a compendium of all things presidential and a sweeping survey of American history through the biography of every president from George Washington to Donald Trump. Organized chronologically by president, each entry covers the major accomplishments and events of the presidential term; cabinet members, election results, groundbreaking legislation, and Supreme Court appointments; personality and personal habits; career before the presidency; a behind-the-scenes look at the wives, families, friends, and foes; and much more, including hobbies, odd behaviors, and outlandish penchants. Major primary documents from each administration -- from the Bill of Rights to Barack Obama's speech on race in America -- provide a glimpse into the crucial moments of America's storied past in the words of those who led the nation. Perfect for students, history buffs, and political junkies, The President's Fact Book is at once an expansive collage of our nation's 45 individual presidents and a comprehensive view of American history.

Born into slavery, George Washington Carver became one of the most prestigious scientists of his time. This biography follows Dr. Carver's life from childhood to his days as a teacher and discoverer.

Presents highlights from the lives of the presidents and their wives.

There are nearly 7 billion people in the world today. We are living longer, healthier, and better lives than anyone who has gone before. And this is the result of a whole chain of people who have invented or discovered something that has changed our world. Where would we be without inventors, philosophers, economists, politicians, explorers, and other "ideas" people? Some of our historical heroes were lone geniuses but many were influenced by other great thinkers and ideas. There would be no Facebook without the internet-and no internet with computers. And there could be no computers without the great mathematicians and philosophers of ancient times. So who's the Genius-Mark Zuckerberg, or Pythagoras? We think it's both. This is why every spread features a panel called "They couldn't have done it without...," revealing the people who made earlier contributions to the cause. With chapters on medicine and food processes, entertainment and culture, there's something in 100 People Who Made History for everyone. Full of true-life stories and famous celebs, 100 People proves that history can be exciting and relevant. So let's hear it for the heroes from throughout the ages: those who save lives, those who improve lives, and those who make our lives just that bit more enjoyable.

A biography of the first black South African president, who spent twenty-seven years in jail for his political beliefs, discusses the struggle to end apartheid, his country's former system of racial segregation and oppression.

An Imperfect God is a major new biography of Washington, and the first to explore his engagement with American slavery When George Washington wrote his will, he made the startling decision to set his slaves free: earlier he had said that holding slaves was his "only unavoidable subject of regret." In this groundbreaking work, Henry Wiencek explores the founding father's engagement with slavery at every stage of his life—as a Virginia planter, soldier, politician, president and statesman. Washington was born and raised among blacks and mixed-race people; he and his wife had blood ties to the slave community. Yet as a young man he bought and sold slaves without scruple, even raffled off children to collect debts (an incident ignored by earlier biographers). Then, on the Revolutionary battlefields where he commanded both black and white troops, Washington's attitudes began to change. He and the other framers enshrined slavery in the Constitution, but, Wiencek shows, even before he became president Washington had begun to see the system's evil. Wiencek's revelatory narrative, based on a meticulous examination of private papers, court records, and the voluminous Washington archives, documents for the first time the moral transformation culminating in Washington's determination to emancipate his slaves. He acted too late to keep the new Republic from perpetuating slavery, but his repentance was genuine. And it was perhaps related to the possibility—as the oral history of Mount Vernon's slave descendants has long asserted—that a slave named West Ford was the son of George and a woman named Venus; Wiencek has new evidence that this could indeed have been true. George Washington's heroic stature as Father of Our Country is not diminished in this superb, nuanced portrait: now we see Washington in full as a man of his time and ahead of his time.

"...A worthwhile and significant addition to any elementary collection." - School Library Journal
"In a genre overdue for a shakeup, Alexis Coe takes a closer look at our first—and finds he's not quite the man we remember Young George Washington was raised by a struggling single mother, demanded military promotions, chased rich young women, caused an international incident, and never backed down—even when his dysentery got so bad he had to ride with a cushion on his saddle. But after he married Martha, everything changed. Washington became the kind of man who named his dog Sweetlips and hated to leave home. He took up arms against the British only when there was no other way, though he lost more battles than he won. Coe focuses on his activities off the battlefield—like espionage and propaganda. After an unlikely victory in the Revolutionary War, Washington once again shocked the world by giving up power, only to learn his compatriots wouldn't allow it. The founders pressured him into the presidency—twice. He established enduring norms but left office heartbroken over the partisan nightmare his backstabbing cabinet had created. Back on his plantation, the man who fought for liberty finally confronted his greatest hypocrisy—what to do with the hundreds of men, women, and children he owned—before succumbing to a brutal death. Alexis Coe combines rigorous research and unsentimental storytelling, finally separating the man from the legend."--

100 People Who Made History

Young fans of the smash Broadway hit "Hamilton" will enjoy this narrative nonfiction picture book story about the important friendship between George Washington and the Marquis de Lafayette during the Revolutionary War. Lafayette has come to America to offer his services to the patriotic cause. Inexperienced but dedicated, he is a much-needed ally and not only earns a military position with the Continental Army but also Washington's respect and admiration. This picture book presents the human side of history, revealing the bond between two famous Revolutionary figures. Both the author and illustrator worked with experts and primary sources to represent both patriots and the war accurately and fairly.

A biography of the great Civil War president of the United States, Abraham Lincoln, including illustrations of people, places, and artifacts of the times.

"A whole book devoted exclusively to the misconduct of American presidents and their responses to charges of misconduct is without precedent." --from the introduction to the 1974 edition by C. Vann Woodward, Pulitzer Prize-winning Yale historian The historic 1974 report for the House Committee on the Judiciary, updated for today by leading presidential historians In May 1974, as President Richard Nixon faced impeachment following the Watergate scandal, the House Judiciary Committee commissioned a historical account of the misdeeds of past presidents. The account, compiled by leading presidential historians of the day, reached back to George Washington's administration and was designed to provide a benchmark against which Nixon's misdeeds could be measured. What the report found was that, with the exception of William Henry Harrison (who served less than a month), every American president has been accused of misconduct: James Buchanan was charged with rigging the election of 1856; Ulysses S. Grant was reprimanded for not firing his corrupt staffer, Orville Babcock, in the "Whiskey Ring" bribery scandal; and Franklin D. Roosevelt's administration faced repeated charges of malfeasance in the Works Progress Administration. Now, as another president and his subordinates face an array of charges on a wide range of legal and constitutional offenses, a group of presidential historians has come together under the leadership of James M. Banner, Jr.—one of the historians who contributed to the original report—to bring the 1974 account up to date through Barack Obama's presidency. Based on current scholarship, this new material covers such well-known episodes as Nixon's Watergate crisis, Reagan's Iran-Contra scandal, Clinton's impeachment, and George W. Bush's connection to the exposure of intelligence secrets. But oft-forgotten events also take the stage: Carter's troubles with advisor Bert Lance, Reagan's savings and loan crisis, George H.W. Bush's nomination of Clarence Thomas to the Supreme Court, and Obama's Soloyndra loan controversy. The only comprehensive study of American presidents' misconduct and the ways in which chief executives and members of their official families have responded to the charges brought against them, this new edition is designed to serve the same purpose as the original 1974 report: to provide the historical context and metric against which the actions of the current administration may be assessed.

A simple biography of the first president of the United States.

Mapping the Road to American Independence The American Revolution is the most significant event in American history. Without it, there would not be the United States of America. More than 240 years after the signing of the Declaration of Independence, this educational ebook demonstrates why this historical period is still so important today. Journey through the most significant events and battles: - From Resistance to Rebellion - Before 1775 - The Start of the War - 1775 - Birth of a Nation - 1776 - The Struggle for Mastery - 1777 - A Widening War - 1778 - Conflict Spreads - 1779 - The Continuing Struggle - 1780 - America Victorious - 1781-83 - Aftermath: A Stronger Nation

George Washington comes alive in this fascinating activity book that introduces the leader to whom citizens turned again and again—to lead them through eight long years of war, to guide them as they wrote a new Constitution, and to act as the new nation's first executive leader. Children will learn how, shortly after his death in 1799, people began transforming George Washington from a man into a myth. But Washington was a complex individual who, like everyone, had hopes and fears, successes and failures. In his early 20s, for instance,Washington's actions helped plunge Great Britain and France into war. He later fought for liberty and independence, yet owned slaves himself (eventually freeing them in his will). This book weaves a rich tapestry of Washington's life, allowing kids to connect with his story in 21 hands-on projects based on his experiences and the times in which he lived. Children will learn how to tie a cravat, write with a quill pen, follow animal tracks, sew a lady's cap, plant a garden, roll a beeswax candle, play a game of Quits, and make a replica of Washington's commander-in-chief flag. The text includes a time line, glossary, websites, travel resources, and a reading list for further study.

The American Revolution

This is a visual reference guide to the history surrounding each US president who has helped shape American history from George Washington to president Bill Clinton.

George Washington grew up in the English colony of Virginia. He was tall and strong, fair in judgment, and respected by his friends as a good leader. As he grew older, George saw how England took advantage of the American colonies—and he didn't like it. When the colonies declared their independence, George was chosen to lead their army as its general. And when the colonies won their freedom, George was elected to lead the new nation as its first president.

A gift-appropriate, modernized adaptation of more than 100 maxims according to which the first president conducted his life shares insight into Washington's beliefs and the historical events of his time, in a lighthearted etiquette primer complemented by whimsical caricature illustrations.

George Washington Coloring Book

From Pioneer to President

An Imperfect God

From an acclaimed military historian, a bold reappraisal of young George Washington, an ambitious if reckless soldier destined to become the legendary general who took on the British and, through his leadership, defined the American character How did George Washington become an American icon? Robert L. O'Connell, the New York Times bestselling author of Fierce Patriot and The Ghosts of Cannae, introduces us to Washington before he was Washington: a young soldier champing at the bit for a commission in the British army, frustrated by his position as a minor Virginia aristocrat. Fueled by ego, Washington led a disastrous expedition in the Seven Years' War, but then the commander grew up. We witness George Washington take up politics and join Virginia's colonial governing body, the House of Burgesses, where he became ever more attuned to the injustices of life under the British Empire and the paranoid, revolutionary atmosphere of the colonies. When war seemed inevitable, he was the right man—the only man—to lead the nascent American army. We would not be here without George Washington, and O'Connell proves that Washington the general was at least as significant to the founding of the United States as Washington the president. He emerges here as cunning and manipulative, a subtle puppeteer among intimates, and a master cajoler—but all in the cause of rectitude and moderation. Washington became the embodiment of the Revolution itself. He draped himself over the revolutionary process and tamped down its fires. As O'Connell writes, the war was decisive because Washington managed to stop a cycle of violence with the force of personality and personal restraint. In his trademark conversational, witty style, Robert L. O'Connell has written a compelling reexamination of General Washington and his revolutionary world. He cuts through the enigma surrounding Washington to show how the general made all the difference and became a new archetype of revolutionary leader in the process. Revolutionary is a masterful character study of America's founding conflict filled with lessons about conspiracy, resistance, and leadership that resonate today. Adverse praise for Revolutionary "Given the amount of ink spilled over the years, it is not easy to offer a fresh look at George Washington's leadership role during the war for American independence. But Robert L. O'Connell has done it in

Describes an incident in the early life of George Washington, which provides a glimpse of his relationship with his mother.

The two-time Newbery Honor-winning author of The Great Fire presents an accessible account of a landmark event in American history in which a future first U.S. president emerges as a military leader while working to transform a ragtag army into an effective fighting force.
