As most professionals know, looking for a job the old way just doesn't work in today's tight market. *When Can You Start?* teaches job-seekers the five new strategies they must know to be successful in this highly competitive market.

The perennially helpful guide to transforming our pains and difficulties into opportunities for genuine joy and personal growth, from the beloved Buddhist nun and author of *When Things Fall Apart* We all want to be fearless, joyful, and fully alive. And we all know that it's not so easy. We're bombarded every day with false promises of ways to make our lives better—buy this, go here, eat this, don't do that; the list goes on and on. But Pema Chödrön shows that, until we get to the heart of who we are and really make friends with ourselves, everything we do will always be superficial. In this perennial self-help bestseller, Pema offers down-to-earth guidance on how we can go beyond the fleeting attempts to “fix” our pain and, instead, to take our lives as they are as the only path to achieve what we all yearn for most deeply—to embrace rather than deny the difficulties of our lives. These teachings, framed around fifty-nine traditional Tibetan Buddhist maxims, point us directly to our own hearts and minds, such as “Always meditate on whatever provokes resentment,” “Be grateful to everyone,” and “Don't expect applause.” By working with these slogans as everyday meditations, *Start Where You Are* shows how we can all develop the courage to work with our own inner pain and discover true joy, holistic well-being, and unshakeable confidence.

This book gives the young adult market everything they need to know about starting and maintaining a successful blog, including how to choose the right blogging platform, how to design the perfect layout, and how to get traffic flowing to your site.

The Founder's Dilemmas examines how early decisions by entrepreneurs can make or break a startup and its team. Drawing on a decade of research, including quantitative data on almost ten thousand founders as well as inside stories of founders like Evan Williams of Twitter and Tim Westergren of Pandora, Noam Wasserman reveals the common pitfalls founders face and how to avoid them.

How women can "lean in" to entrepreneurship to create the life they want! Claudia Reuter left a promising corporate career to raise her two young children but realized, when re-entering the workforce, that the gap in her resume looked like a gap in ambition—not a purposeful plan. Instead of leaning into a corporate career and fighting the structures and systems designed by and for men decades ago, or leaning out and giving up income, Claudia took a different path. That decision ultimately led to success in the corporate world and at home. In *Yes, You Can Do This!* Claudia shares her own reasons for starting a business, and makes a call to action for women to consider entrepreneurship so that they can create businesses with the rules they want and change the playing field for others, making a significant impact in the world. More than a "How-to book" on building a business, Claudia provides clear examples and practical resources to help others create the life they want through entrepreneurship. In *Yes, You Can Do This!* you'll learn: How to develop and share your vision How to deal with stereotypes and unconscious bias How to leverage perceived weaknesses and turn them into strengths How to balance life at high speeds and avoid burnout How to cultivate the confidence to move from idea to creating a company with the culture and rules you want In *Yes, You Can Do This!* women are provided with an electrifying third career option: it's not just "lean in" or "lean out," but startup and change the playing field for others in the process. Praise for *Yes, You Can Do This!* "Combining compelling storytelling with practical, tactical advice, Reuter has created a manifesto for the next generation of female founders. Rooted in the research around gender and work, this is a must read for women looking to launch the next new thing." -

Jennifer McFadden, Associate Director of Entrepreneurial Programs, Yale School of Management "A must-read for any woman considering taking the leap into entrepreneurship, *You Can Do This* brings together today's best thinking about women in the workplace with practical advice for creating your dream career and life - by starting a company. Whether you are just curious or ready to take the leap, this book is a great read and a valuable resource."

-Anna Barber, Managing Director, Techstars "Claudia helps not just the female entrepreneur,

but all entrepreneurs, find their footing in what can be an overwhelming whirlwind of starting a business. This book is not only inspiring and uplifting, but positively necessary for any woman looking to find success in the startup space! -Shira Atkins, Co-founder & CMO Wonder Media Network "Stories of entrepreneurial success exist in abundance for men who receive 97.8% of venture funding and hold 95% of CEO roles. What is most inspiring about Claudia's book, making me want to shout from the rooftop, is that it is told from the perspective of an everyday woman who pushed hard through barriers, doubts, and setbacks that any entrepreneur would face. On top of all that, she overcame obstacles that are uniquely ours as women today.

Claudia is now a standout among women, but with her book in hand, women who want to build a business to scale have a blueprint and path to do so. Here's to making dreams come true!"

-Coco Brown, CEO and Founder, The Athena Alliance. "As I read through the book, there were multiple points where I thought, 'Every man in any startup or fast-growing business should read this.' As a man in technology, I took away a number of new ideas, along with examples that were explained in a way that I wouldn't have been able to do prior to reading Claudia's book"

Helpful, Accessible Guidance for Budding Hedge Funds So You Want to Start a Hedge Fund provides critical lessons and thoughtful insights to those trying to decipher the industry, as well as those seeking to invest in the next generation of high performers. This book foregoes the sensational, headline-grabbing stories about the few billionaire hedge fund managers to reach the top of the field. Instead, it focuses on the much more common travails of start-ups and small investment firms. The successes and failures of a talented group of competitive managers—all highly educated and well trained—show what it takes for managers and allocators to succeed. These accounts include lessons on funding, team development, strategy, performance, and allocation. The hedge fund industry is concentrated in the largest funds, and the big funds are getting bigger. In time, some of these funds will not survive their founders and large sums will get reallocated to a broader selection of different managers. This practical guide outlines the allocation process for fledgling funds, and demonstrates how allocators can avoid pitfalls in their investments. So You Want to Start a Hedge Fund also shows how to: Develop a sound strategy and raise the money you need Gain a real-world perspective about how allocators think and act Structure your team and investment process for success Recognize the patterns of successful start-ups The industry is approaching a significant crossroads. Aggregate growth is slowing and competition is shifting away from industry-wide growth, at the expense of traditional asset classes, to market share capture within the industry. So You Want to Start a Hedge Fund provides guidance for the little funds—the potential future leaders of the industry.

When Avent announced that he was quitting his job to build a specialty nursery, his former horticulture professor begged his student to reconsider, telling him he couldn't possibly make a profit "without doing something illegal." More than ten years and 20 nursery catalogs later, Avent owns a thriving national business with nearly 30 employees. He wrote *So You Want to Start a Nursery* to debunk myths about the ornamental-plants nursery business and what it takes to succeed, whether you're a backyard hobbyist or a wholesale grower. (And he still has a clean arrest record.) Assuming that the reader has some basic knowledge about how plants are grown, Avent focuses on the business and planning concerns of the nursery owner. While recounting humorous stories of his baptism by fire as a beginning nurseryman, Avent also provides a primer on the nursery industry as a whole, with discussions of the merits and disadvantages of retail, wholesale, mail-order, and liner operations, to name just a few. Readers of this book will obtain the tools they need to make a business plan of their own. This book is a must-read for horticulture students, industry insiders, and advanced gardeners who dream of turning their passion for

plants into a job they love.

Academic Research is a concise, accessible, and tightly organized overview of the research process in the humanities, social sciences, and business. Conducting effective scholarly research can seem like a frustrating, confusing, and unpleasant experience. Early researchers often have inconsistent knowledge and experience, and can become overwhelmed - reducing their ability to produce high quality work. Rather than a book about research, this is a practical guide to doing research. It guides budding researchers along the process of developing an effective workflow, where to go for help, and how to actually complete the project. The book addresses diversity in abilities, interest, discipline, and ways of knowing by focusing not just on the process of conducting any one method in detail, but also on the ways in which someone might choose a research method and conduct it successfully. Finally, it emphasizes accessibility and approachability through real-world examples, key insights, tips, and tricks from active researchers. This book is a highly useful addition to both content area courses and research methods courses, as well as a practical guide for graduate students and independent scholars interested in publishing their research.

In 1993, Tony Magee, who had foundered at every job he'd ever had, decided to become the founder of a brewery. *So You Want to Start a Brewery?* is the thrilling first-person account of his gut-wrenching challenges and heart-warming successes. Based in Petaluma, California, the Lagunitas Brewing Company makes simple and flavorful craft beer that

defies categorization. The same could be said for this book. Equal part memoir, narrative, and business story, with liberal dashes of pop culture and local color, this illuminating yet hilarious account of a one-of-a-kind made-in-America journey just happens to culminate with the success of one of the nation's most popular craft beer brands. In twenty years, Lagunitas has grown from a seat-of-the-pants one-man operation to be the fifth largest—and the fastest-growing—craft brewer in the United States. *So You Want to Start a Brewery?* is a look behind the curtain rather than a simple business story. It's unglamorous and full of hilarious digressions, but it's never afraid to mess with the nuts and bolts. Devoted to details but never boring, this is a must-read for all who have considered starting their own business—or have sweated blood working to get one on its feet. Told in the vibrant voice of the man closest to the process—and with the most to lose—this illuminating volume should quench the thirst of anyone who has ever tried a Lagunitas beer. Tony Magee is the founder and CEO of the Lagunitas Brewing Company. He lives in Marin County, California.

A choose-your-own-path guide to launching and sustaining a successful food or beverage business The specialty food and beverage business is a thriving industry, and the barriers to entry are low: all you need is a recipe and a kitchen. It sounds simple, but launching a food or beverage company is a maze of choices and consequences. (Will you taste test your product with friends and family for free, or commission a costly market feasibility study? Will you enter a large and popular category, or offer something totally new? Will you cook in your home, rent space in a shared kitchen, or build your own facility?)

Douglas Raggio has been there: both as a food founder and as a consultant to other successful startups, and he's come to learn that every choice a food founder makes has a fairly predictable outcome. In *So You Wanna: Start a Food or Beverage Business*, he'll help you think through the many decisions you'll make along the road from an idea to a successful company—whether you see yourself building a following at your farmer's market, partnering with a local restaurant, or launching the next Pepsi. But this is not a traditional how-to book, instructional manual, or personal story of entrepreneurial success. Don't even expect to read it straight through from beginning to end! Raggio's book follows four archetypal food startups that cover a range of business ideas and founders. Every few pages, you must make crucial decisions about the next step to take in growing the business, and flip to another section that will help you understand how that choice is likely to play out. In these pages, you'll learn the ins and outs of:

- Coming up with an exciting, profitable new product
- Funding your startup
- Conducting market research
- Pricing and producing to scale
- Partnerships, promotions, and branding
- Deciding when to keep going--and when to fold

So You Wanna: Start a Food or Beverage Business will help you to navigate the pathways that lead to success, and avoid the roads that lead to frustration (or worse). By understanding the perils and pleasures of this fast-growing industry you will be able to approach your own business with confidence, make the decisions that feel right to you . . . and learn to have a lot of fun along the way!

On the night of the Parkhurst ball, someone had a scandalous tryst in the library. Was it Lord Canby, with the maid, on the divan? Or Miss Fairchild, with a rake, against the wall? Perhaps the butler did it. All Charlotte Highwood knows is this: it wasn't her. But rumors to the contrary are buzzing. Unless she can discover the lovers' true identity, she'll be forced to marry Piers Brandon, Lord Granville—the coldest, most arrogantly handsome gentleman she's ever had the misfortune to embrace. When it comes to emotion, the man hasn't got a clue. But as they set about finding the mystery lovers, Piers reveals a few secrets of his own. The oh-so-proper marquess can pick locks, land punches, tease with sly wit . . . and melt a woman's knees with a single kiss. The only thing he guards more fiercely than Charlotte's safety is the truth about his dark past. Their passion is intense. The danger is real. Soon Charlotte's feeling torn. Will she risk all to prove her innocence? Or surrender it to a man who's sworn to never love?

Clinical psychology is a quickly growing profession, yet it is a challenging one: the preparation is arduous, the training is highly selective, and the results – an established and financially successful practice – are not easy to achieve. This book explains how to prepare for and surmount all of the hurdles presented to those who hope to eventually develop a lucrative and

rewarding practice in clinical psychology. It is the first of its kind to focus primarily on financial success, though it does also look at the personal stresses and rewards of the profession. The author provides tips from his own experience and from other financially successful private practice psychologists and offers business techniques and pointers that are not explained in training programs. Undergraduate students contemplating a career in psychology will find advice on preparing for the GRE, applying to graduate schools, and getting involved in research and clinical work. For graduate students, an overview of a graduate clinical psychology program, preparing and completing a dissertation, and gaining experience in psychological testing are provided. Chapters then focus on how to build and manage a private practice, the best ways to manage personal and business finances, and how to practice good self-care.

Additionally, the book includes a chapter by an expert on student-loan repayment that examines how to best work through the process of paying back student loans while building a practice.
