

Doctor Who The Visitation

1500BC - King Actaeus and his subjects live in mortal fear of the awesome gods who have come to visit their kingdom in ancient Greece. Except the Doctor, visiting with university student June, knows they're not gods at all. They're aliens. For the aliens, it's the perfect holiday - they get to tour the sights of a primitive planet and even take part in local customs. Like gladiatorial games, or hunting down and killing humans who won't be missed. With June's enthusiastic help, the Doctor soon meets the travel agents behind this deadly package holiday company - his old enemies the Slitheen. But can he bring the Slitheen excursion to an end without endangering more lives? And how are events in ancient Greece linked to a modern-day alien plot to destroy what's left of the Parthenon? Featuring the Tenth Doctor as played by David Tennant in the hit Doctor Who BBC Television series.

An approachable, informative guide to healing for anyone with acute neurological injury (ANI)—a stroke, spinal cord injury, or traumatic brain injury—by the founder and Director of the University of Rochester Neurorestoration Institute, who is himself a survivor of a severe spinal injury Despite our advancements in science and medicine, death remains one of civilization’s most glorious mysteries. Doctors have written books on near-death experiences, but research and data for pre-death experiences is scarce. Because of this lack of information, Dr. John Lerma has devoted his career to compiling anecdotal and scientific research on pre-death hallucinations from the countless terminally ill patients he lovingly cares for as a doctor and director at the Medical Center of Houston. Here, in this groundbreaking book, Dr. Lerma shares his valuable research and guidance in 16 inspirational stories of children and adults confronting their deaths through the comforting visions of divine beings. By presenting the mysterious visions, synchronicities, and angelic conversations terminally ill patients encounter, Dr. Lerma shows how knowledge of death can ease the pain and fear as we prepare to enter into the light. The poignant stories in Into the Light will leave you feeling uplifted in faith, hope, and love.

Into the Light

Know your enemy. The Daleks are the most evil creatures ever created - genetically engineered mutants encased in a machine that is optimised to kill. They hate all other life forms and will stop at nothing to destroy those who stand in their way - their single-minded imperative? To become the dominant species in the universe. The Dalek Combat Training Manual collates intelligence gathered by Time Lords over centuries of raging wars through time and space, and is invaluable to anyone engaging the Daleks in battle. It furnishes the user with an in-depth guide to their construction, their strategies and how they are to be ultimately defeated. Discover full schematics of Dalek spacecraft, insights into the Dalek factions, a history of the Time War, detailed analysis of their creator Davros, and much more. This manual is the definitive guide to one of the most feared races in the Whoniverse.

Dr. Jack Kevorkianthe enigmatic and intrepid physician dubbed Dr. Deathhas for years declined public interviews about his life and the events that led him to be a vehement advocate of doctor-assisted suicide for terminally ill patients. But here, finally, is his own life story, as told to Neal Nicol and Harry Wylie. Dr. Kevorkian gained international notoriety in the 1990s for his passionate advocacy of choice for terminal patients, who have increasingly won the right to decide the time, place, and method of their own death in several western countries. In 1998, he assisted Thomas Youk, a terminally ill patient suffering from Lou Gehrig's disease, with a lethal injection that was broadcast on CBS's 60 Minutes. Immediately thereafter, Kevorkian was arrested, charged with second-degree murder, tried, and sentenced to 10-25 years in Michigan's maximum-security prison system. Today, Dr. Kevorkian is in his late seventies and in failing health himself. He shares an eight-by-twelve-foot cell with another inmate in the Thumb Correctional Facility at Lapeer, Michigan. The unique story Prisoner Number 284797 shares far exceeds the battle to legalize euthanasia and end human suffering for terminal patients. Personal choice is really what it is all about. Quality of life, as opposed to maintaining existence (Kevorkian to Vanity Fair, 1994)Co-published with Vision, U.K.

Winner of the Pulitzer Prize for Drama Angels in America: A Gay Fantasia on National Themes includes Part One, Millennium Approches and Part Two, Perestroika “Glorious. A monumental, subversive, altogether remarkable masterwork...Details of specific catastrophes may have changed since this Reagan-era AIDS epic won the Pulitzer and the Tony, but the real cosmic and human obsessions—power, religion, sex, responsibility, the future of the world—are as perilous, yet as falling-down funny, as ever.” –Linda Winer, Newsday “A vast, miraculous play... provocative, witty and deeply upsetting... a searching and radical rethinking of American political drama.” - Frank Rich, New York Times “A victory for theater, for the transforming power of the imagination to turn devastation into beauty.” - John Lahr, New Yorker “An enormously impressive work of the imagination and intellect, a towering example of what theater stretched to its full potential can achieve.” -Philadelphia Inquirer “Angels in America is the finest drama of our time, speaking to us of an entire era of life and death as no other play within memory. It ranks as nothing less than one of the greatest plays of the twentieth century.” - John Heilpern, New York Observer “Some playwrights want to change the world. Some want to revolutionize theater. Tony Kushner is that rarity of rarities: a writer who has the promise to do both.” -New York Times This new edition of Tony Kushner’s masterpiece is published with the author’s recent changes and a new introduction in celebration of the twentieth anniversary of its original production. One of the most honored American plays in history, Angels in America was awarded two Tony Awards for Best Play and the Pulitzer Prize for Drama. It was made into an Emmy Award-winning HBO film directed by Mike Nichols. This two-part epic, subtitled “A Gay Fantasia on National Themes,” has received hundreds of performances worldwide in more than twenty-six languages. Tony Kushner’s plays include Angels in America; Hydriotaphia, or the Death of Dr. Brown; The Illusion, adapted from the play by Pierre Cornelle; Slavs! A Bright Room Called Day; Homebody/Kabul; Caroline, or Change, a musical with composer Jeanine Tesori; and The Intelligent Homosexual’s Guide to Capitalism and Socialism with a Key to the Scriptures. He wrote the screenplays for Mike Nichols’s film of Angels in America and for Steven Spielberg’s Munich and Lincoln. His books include The Art of Maurice Sendak: 1980 to the Present; Brundibar, with illustrations by Maurice Sendak; and Wrestling with Zion: Progressive Jewish-American Responses to the Israeli-Palestinian Conflict, co-edited with Alisa Solomon. Among many honors, Kushner is the recipient of a Pulitzer Prize, two Tony Awards, three Obie Awards, two Evening Standard Awards, an Olivier Award, an Emmy Award, two Oscar nominations, and the Steinberg Distinguished Playwright Award. Between the Dying and the Dead

How Doctors Think

Beware the hands that heal. The Doctor and Peri land on the planet Necros to visit the funerary home Tranquil Repose – where the dead are interred and the near-dead placed in suspended animation until such time as their conditions can be cured. But the Great Healer of Tranquil Repose is far from benign. Under his command, Daleks guard the catacombs where sickening experiments are conducted on human bodies. The new life he offers the dying comes at a terrible cost – and the Doctor and Peri are being lured into a trap that will change them forever. At last, the only classic-era Doctor Who adventure never to be novelised is here, and by the author of the original script, Eric Saward.

Doctor Who and his fellow time-travelers become suspects when they appear at the site of the massacre of a team of paleontologists

A UNIT nuclear convoy, stranded on the shores of Lake Vortigern, becomes the focus of an incursion by knights for a parallel reality. In this other world, technology and magic exist side by side, and the legends of King Arthur are fact. Close to the lake, the sinister Mordred battles against his enemy Ancelyn and summons his mother, the powerful witch Morgaine. the Doctor really Merlin? And will he discover what actually happened to King Arthur? With his “deeply informed and compassionate book...Dr. Epstein tells us that it is a ‘moral imperative’ [for doctors] to do right by their patients” (New York Journal of Books). The first book for the general public about the importance of mindfulness in medical practice, Attending is a groundbreaking, intimate exploration of how doctors approach their work with patients. From his early days as a doctor to what made good doctors great—more accurate diagnoses, fewer errors, and stronger connections with their patients. This made a lasting impression on him and set the stage for his life’s work—identifying the qualities and habits that distinguish master clinicians from those who are merely competent. The secret, he learned, was mindfulness. Dr. Epstein “shows how taking time to pay attention to the stethoscope” (Publishers Weekly). Drawing on his clinical experiences and current research, Dr. Epstein explores four foundations of mindfulness—Attention, Curiosity, Beginner’s Mind, and Presence—and shows how clinicians can grow their capacity to provide high-quality care. The commodification of health care has shifted doctors’ focus away from the healing of patients to the bottom line.

Attending is the antidote. With compassion and intelligence, Epstein offers “a concise guide to his view of what mindfulness is, its value, and how it is a skill that anyone can work to acquire” (Library Journal).

The Doctor and his companions arrive at a city which appears to be a haven of beauty, harmony, and friendship, but they soon discover that the security of the city is founded on a deadly and appalling secret

The Time Lords have a mission for the Doctor. Together with Sarah and Harry, he finds himself stranded on the war-torn planet Skaro where the conflict between the Thals and the Kaleds has been raging for a thousand years. Chemical and biological weapons have started a cycle of mutation among the planet's inhabitants that cannot be stopped. But Kaled scientist Davros has perfected a life form that he knows his race will ultimately evolve into - the Dalek. The Doctor must stop the creation of the Daleks, or perhaps affect their development so they evolve into less aggressive creatures. But with Davros's plans to destroy the Thals and to wipe out any dissenters among his own ranks in progress, is the Doctor already too late? This novel is based on a Doctor Who story which was originally broadcast from 15–23 February 1982. Featuring the Fifth Doctor as played by Peter Davison with his companions Sarah Jane Smith and Harry Sullivan

A treasury of intricately detailed intergalactic images features the intrepid Doctor Who, who travels through time and space on spreads that invite young fans to find the doctor hidden among Cybermen, Daleks and other series-inspired characters and objects. Reprint. TV tie-in.

A doctor's account of her own experience of death, heaven and return to life with a new realization of her purpose on earth. Dr Mary Neal, an orthopaedic surgeon, was on a kayaking holiday in Chile. Sceptical of near death experiences, she was to have her life transformed when her kayak became wedged in rocks at the bottom of a waterfall and was underwater for so long that her heart stopped.To Heaven And Back is Mary's faith-enriching story of her spiritual journey, her first-hand experience of heaven and its continuing life-enhancing effects.

Chosen by Denis Lehane for his eponymous imprint, Ivy Pochoda's Visitation Street is a riveting literary mystery set against the rough-hewn backdrop of the New York waterfront in Red Hook. It's summertime in Red Hook, Brooklyn, a blue-collar dockside neighborhood. June and Val, two fifteen-year-olds, take a raft out onto the bay at night to see what they can see. And then they disappear. Only Val will survive, washed ashore; semi-conscious in the weeds. This shocking event will echo through the lives of a diverse cast of Red Hook residents. Fadi, the Lebanese bodega owner, hopes that his shop will be the place to share neighborhood news and troll for information about June's disappearance. Cree, just beginning to pull it together after his father's murder, unwittingly makes himself the chief suspect, but an enigmatic and elusive guardian is determined to keep him safe. Val contends with the shadow of her missing friend and a truth she buries deep inside. Her teacher Jonathan, a Juilliard School dropout and barfly, wrestles with dashed dreams and a past riddled with tragic sins.

Clergy, students of pastoral care, and lay visitation volunteers will find Nancy Gorsuch an effective guide in developing an intentional, proactive program of pastoral visitation in the local church. To increase the pastoral visitor's positive experiences of effectiveness, the author presents basic "how to" information in a straightforward manner characterized by vivid illustrations and case studies. The book provides a theological basis for pastoral visitation and goes on to explore the types and purposes of visitation, preparation and resources, training and basic helping skills, assessment and follow-up, and methods of sustaining pastoral visitation as a means of building a caring community of faith.

'One of the oddities of Doctor Who is that you hear so much about what the fans think, and so little from the other 100 percent of the audience (my stats are clinically accurate.) So thank God for a couple who put their love on the line to set the record straight. This is the story of a fan boy who inflicts every episode ever made of Doctor Who on his marriage. Or to put it another way, this is the story of someone with a proper love and understanding of Doctor Who, trying to explain it to her husband.' Steven Moffat at Neil loves Sue. He also loves Doctor Who. But can he bring his two great loves together? In January 2011, Neil Perryman set out on an insane quest to make his wife Sue watch every episode of the classic series of Doctor Who from the very beginning. Even the ones that didn't exist any more. And so, over the next two and half years, Sue gamely watched them all. From William Hartnell and Tom Baker to Peter Davison and Paul McGann, the result was a wildly successful and hilariously revealing blog called Adventures with the Wife in Space. But the adventure continues. Here Neil Perryman tells the all too true story of Doctor Who fandom. Funny, honest and surprisingly brave, he also captures perfectly the joys - and fears - of sharing the thing you love with the people you love. Adventures With the Wife in Space is, at its heart, the story of Doctor Who, and its fans, seen through the eyes of two people - one who knows almost nothing about the programme and another who knows way too much. 'This is a very, very funny book; touching too.' Jenny Colgan

Getting Your Brain and Body Back

A Guardian Book of the Week Longlisted for the PEN / E. O. Wilson Literary Science Writing Award An award-winning physician and scientist makes the game-changing case that genetic females are stronger than males at every stage of life Here are some facts: Women live longer than men. They have stronger immune systems. They're better at fighting cancer and surviving famine, and even see the world in a wider variety of colors. They are simply stronger than men at every stage of life. Why is this? And why are we taught the opposite? To find out, Dr. Sharon Moalem drew on his own medical experiences – treating premature babies in the neonatal intensive care unit; recruiting the elderly for neurogenetic studies; tending to HIV-positive orphans in Thailand – and tried to understand why in every instance men were consistently less likely to thrive. The answer, he discovered, lies in our genetics: two X chromosomes offer a powerful survival advantage. With clear, captivating prose that weaves together eye-opening research, case studies, diverse examples ranging from the behavior of honeybees to American pioneers, as well as experiences from his personal life and his own patients, Moalem explains why genetic females triumph over males when it comes to resiliency, intellect, stamina, immunity and much more. He also calls for a reconsideration of our male-centric, one-size-fits-all view of medical studies and even how we prescribe medications – a view that still sees women through the lens of men. Revolutionary and yet utterly convincing, *The Better Half* will make you see humanity and the survival of our species anew.

A bestseller in Germany, *Visitation* has established Jenny Erpenbeck as one of Europe's most significant contemporary authors. A house on the forested bank of a Brandenburg lake outside Berlin (once belonging to Erpenbeck's grandparents) is the focus of this compact, beautiful novel.

Encompassing over one hundred years of German history, from the nineteenth century to the Weimar Republic, from World War II to the Socialist German Democratic Republic, and finally reunification and its aftermath, *Visitation* offers the life stories of twelve individuals who seek to make their home in this one magical little house. The novel breaks into the everyday life of the house and shimmers through it, while relating the passions and fates of its inhabitants. Elegant and poetic, *Visitation* forms a literary mosaic of the last century, tearing open wounds and offering moments of reconciliation, with its drama and its exquisite evocation of a landscape no political upheaval can truly change.

Insightful and heart-warming, this classic book is written for those who seek to know God better. It unfolds life-impacting, biblical truths and has been called a "soul-stirring celebration of the pleasures of knowing God."

“The Camford Visitation” is a novel by H. G. Wells first published in 1938. The story centres around a Utopian 'ventriloquist' who subjects human life—and in particular its treatment by the University of Camford—to sympathetic but quite unsparing scrutiny. At its core, it was a warning to the educational world of imminent war and of its lack of action, as well as an exploration of the place of education in society. Contents include: “Mr Trumber's Experience”, “In the Cramb Meadows”, “Mr Preeders Pigeon-holes”, “The Communist Party is Annoyed in its Turn”, “Congregation Day”, and “The Healing Touch in History”. Herbert George Wells (1866 – 1946) was a prolific English writer who wrote in a variety of genres, including the novel, politics, history, and social commentary. Today, he is perhaps best remembered for his contributions to the science fiction genre thanks to such novels as “The Time Machine” (1895), “The Invisible Man” (1897), and “The War of the Worlds” (1898). Many vintage books such as this are becoming increasingly scarce and expensive. We are republishing this book now in an affordable, modern, high-quality edition complete with a specially commissioned new biography of the author.

A Doctor's Extraordinary Account of Her Death, Heaven, Angels, and Life Again

The Better Half

On average, a physician will interrupt a patient describing her symptoms within eighteen seconds. In that short time, many doctors decide on the likely diagnosis and best treatment. Often, decisions made this way are correct, but at crucial moments they can also be wrong—with catastrophic consequences. In this myth-shattering book, Jerome Groopman pinpoints the forces and thought processes behind the decisions doctors make. Groopman explores why doctors err and shows when and how they can—with our help—avoid snap judgments, embrace uncertainty, communicate effectively, and deploy other skills that can profoundly impact our health. This book is the first to describe in detail the warning signs of erroneous medical thinking and reveal how new technologies may actually hinder accurate diagnoses. *How Doctors Think* offers direct, intelligent questions patients can ask their doctors to help them get back on track. Groopman draws on a wealth of research, extensive interviews with some of the country’s best doctors, and his own experiences as a doctor and as a patient. He has learned many of the lessons in this book the hard way, from his own mistakes and from errors his doctors made in treating his own debilitating medical problems. *How Doctors Think* reveals a profound new view of twenty-first-century medical practice, giving doctors and patients the vital information they need to make better judgments together.

The definitive guide to heart health from two of America's most respected doctors at Cleveland Clinic, the #1 hospital for heart health in America. Are you one of the eighty-two million Americans currently diagnosed with cardiovascular disease—or one of the millions more who think they are healthy but are at risk? Whether your goal is to get the best treatment or stay out of the cardiologist’s office, your heart's health depends upon accurate information and correct answers to key questions. In *Heart 411*, two renowned experts, heart surgeon Marc Gillinov and cardiologist Steven Nissen, tackle the questions their patients have raised over their decades of practice: Can the stress of my job really lead to a heart attack? How does exercise help my heart, and what is the right amount and type of exercise? What are the most important tests for my heart, and when do I need them? How do symptoms and treatments differ among men, women, and children? Backed by decades of clinical experience and up-to-the-minute research, yet written in the accessible, down-to-earth tone of your trusted family doctor, *Heart 411* cuts through the confusion to give you the knowledge and tools you need to live a long and heart-healthy life.

A courageous and determined young teacher opens up a new world of hope and redemption for sixteen-year-old Precious Jones, an abused young African American girl living in Harlem who was raped and left pregnant by her father.

A Novel

'Who am I...? WHO AM I?' It's December 1999, and strange things are happening as the new millennium nears. A British police box appears from nowhere in San Francisco's Chinatown and the mysterious man inside it is shot down in the street. Despite the best efforts of Dr Grace Holloway, the man dies and another stranger appears, claiming to be the same person in a different body: a wanderer in time and space known only as the Doctor. But the Doctor is not the only alien in San Francisco. His deadly adversary the Master is murdering his way through the city and has taken control of the TARDIS. The Master is desperate to take the Doctor's newly regenerated body for himself, and if the Doctor does not capitulate, it will literally cost him the Earth... and every last life on it.
