From medical expert Leana Wen, MD, Lifelines is an insider's account of public health and its crucial role—from opioid addiction to global pandemic—and an inspiring story of her journey from struggling immigrant to being one of Time's 100 Most Influential People. "Public health saved your life today—you just don't know it," is a phrase that Dr. Leana Wen likes to use. You don't know it because good public health is invisible. It becomes visible only in its absence, when it is underfunded and ignored, a bitter truth laid bare as never before by the devastation of COVID-19. Leana Wen—emergency physician, former Baltimore health commissioner, CNN medical analyst, and Washington Post contributing columnist—has lived on the front lines of public health, leading the fight against the opioid epidemic, outbreaks of infectious disease, maternal and infant mortality, and COVID-19 disinformation. Here, in gripping detail, Wen lays bare the lifesaving work of public health and its innovative approach to social ills, treating gun violence as a contagious disease, for example, and racism as a threat to health. Wen also tells her own uniquely American story: an immigrant from China, she and her family received food stamps and were at times homeless despite her parents working multiple jobs. That child went on to attend college at thirteen, become a Rhodes scholar, and turn to public health as the way to make a difference in the country that had offered her such possibilities. Ultimately, she insists, it is public health that ensures citizens are not robbed of decades of life, and that where children live does not determine whether they live.

Doctor Who: Alternating Current

From the author of the extraordinary Vampire Chronicles comes a huge, hypnotic novel of witchcraft and the occult through four centuries. Demonstrating, once again, her gift for spellbinding storytelling and the creation of legend, Anne Rice makes real for us a great dynasty of witches--a family given to poetry and to incest, to murder and to philosophy; a family that, over the ages, is itself haunted by a powerful, dangerous, and seductive being. On the veranda of a great New Orleans house, now faded, a mute and fragile woman sits rocking . . . and *The Witching Hour* begins. It begins in our time with a rescue at sea. Rowan Mayfair, a beautiful woman, a brilliant practitioner of

neurosurgery--aware that she has special powers but unaware that she comes from an ancient line of witches--finds the drowned body of a man off the coast of California and brings him to life. He is Michael Curry, who was born in New Orleans and orphaned in childhood by fire on Christmas Eve, who pulled himself up from poverty, and who now, in his brief interval of death, has acquired a sensory power that mystifies and frightens him. As these two, fiercely drawn to each other, fall in love and--in passionate alliance--set out to solve the mystery of her past and his unwelcome gift, the novel moves backward and forward in time from today's New Orleans and San Francisco to long-ago Amsterdam and a chateau in the France of Louis XIV. An intricate tale of evil unfolds--an evil unleashed in seventeenth-century Scotland, where the first "witch," Suzanne of the Mayfair, conjures up the spirit she names Lasher . . . a creation that spells her own destruction and torments each of her descendants in turn. From the coffee plantations of Port au Prince, where the great Mayfair fortune is made and the legacy of their dark power is almost destroyed, to Civil War New Orleans, as Julien--the clan's only male to be endowed with occult powers--provides for the dynasty its foothold in America, the dark, luminous story encompasses dramas of seduction and death, episodes of tenderness and healing. And always--through peril and escape, tension and release--there swirl around us the echoes of eternal war: innocence versus the corruption of the spirit, sanity against madness, life against death. With a dreamlike power, the novel draws us, through circuitous, twilight paths, to the present and Rowan's increasingly inspired and risky moves in the merciless game that binds her to her heritage. And in New Orleans, on Christmas Eve, this strangest of family sagas is brought to its startling climax. Health care journalist Connie Strasheim has conducted intensive interviews with thirteen of the world's most competent Lyme disease healers, asking them thoughtful, important questions, and then spent months compiling their information into organized, user-friendly chapters that contain the core principles upon which they base their medical treatment of chronic Lyme disease. --publisher.

He has secrets that may put him, Alison, and the whole world in danger. The Doctor is helped by his new military liaison Major Kennet and his Royal Green Jacket troops. Past, present and future collide as the Thirteenth Doctor meets classic Doctor Who companion Ace - in the first epic novel from the woman who played her, Sophie Aldred. Once, a girl called Ace travelled the universe with the Doctor - until, in the wake of a terrible tragedy they parted company. Decades later, she is known as Dorothy McShane, the reclusive millionaire philanthropist who heads global organisation A Charitable Earth. And Dorothy is haunted by terrible nightmares, vivid dreams that begin just as scores of young runaways are vanishing from the dark alleyways of London. Could the disappearances be linked to sightings of sinister creatures lurking in the city shadows? Why has an alien satellite entered a secret orbit around the Moon? Investigating the satellite with Ryan, Graham and Yaz, the Doctor is thrown together with Ace once more. Together they must unravel a malevolent plot that will cost thousands of lives. But can the Doctor atone for her past incarnation's behaviour - and how much must Ace sacrifice to win victory not only for herself, but for the Earth?

'Even though they're gone from the world, they're never gone from me.' The Doctor is many things – curious, funny, brave, protective of her friends...and a shameless namedropper. While she and her companions battled aliens and travelled across the universe, the Doctor hinted at a host of previous, untold adventures with the great and the good: we discovered she got her sunglasses from Pythagoras (or was it Audrey Hepburn?); lent a mobile phone to Elvis; had an encounter with Amelia Earhart where she discovered that a pencil-thick spider web can stop a plane; had a 'wet weekend' with Harry Houdini, learning how to escape from chains underwater; and more. In this collection of new stories, Star Tales takes you on a rip-roaring ride through history, from 500BC to the swinging 60s, going deeper into the Doctor's notorious name-dropping and revealing the truth behind these anecdotes.

This book collects together the entire shooting scripts for the first series. Seven of the scripts are by Russell T. Davies, with the remainder by Steven Moffat, Robert Shearman, Paul Cornell and The League of Gentlemen's Mark Gatiss. Each story contains the essential ingredients of time travel, adventure, and the mixing of the ordinary with the fantastical that have always characterized the series, while at the same time being thoroughly in tune with contemporary culture and society. This is a Doctor Who for an age defined by irony, technology, celebrity, and the shadow cast by 9/11. It is also a more cinematic series, with fast cutting and special effects that will satisfy viewers brought up on contemporary film and television sci-fi.
