

Document Splitting In SAP

This book details the configuration required to set up the General Ledger module for a public sector entity. It includes document splitting configuration to facilitate fund accounting.

Explore SAP Fixed Asset Accounting module functionality in SAP S/4HANA. Review the complete lifecycle of an asset — from acquisition and construction to retirement. Identify the differences between "classic" Asset Accounting and the new SAP S/4HANA Asset Accounting. Review organizational setup requirements and learn how to classify assets according to fiscal and company requirements. Clarify how asset-related transactions are posted in the general ledger. Delve into asset master data, including the organizational structure, integration with the general ledger, and the creation and maintenance of asset master data. Identify how to disinvest assets and adjust their values. Find out what options are available for asset depreciation. Learn how to calculate depreciation, how to post in the ledgers according to accounting principles, and how G/L accounts are determined for the postings. Dive into asset reporting functionality, including key tools, as well as depreciation simulation to predict future depreciation costs. Look at migration requirements and considerations. By using practical examples, tips, and SAP Fiori screenshots, this book: - Describes SAP Fixed Asset Accounting functionality in SAP S/4HANA with SAP Fiori examples - Explores the complete lifecycle of an asset in SAP - Identifies differences between classic Fixed Asset Accounting and the new SAP S/4HANA Fixed Asset Accounting - Examines how Fixed Asset Accounting is integrated with other SAP modules

This second, updated, and extended edition of our standard reference book is your companion for the implementation of the new General Ledger. This book describes the optimal settings for ledger definition and document splitting, as well as the integration with accounting. Moreover, it includes a detailed description of parallel accounting, including segment reporting, storage location of data, and much more. A comprehensive chapter on migration as well as many practical reports shows what you need to consider for the changeover to New General Ledger.Design and Features of the LedgersGet to know the ledger features (leading and non-leading ledgers), scenarios (business area, segmentation etc.), and the handling of custom fields.Integration in Financial AccountingAchieve an in-depth understanding of profit center accounting in the General Ledger, follow-up costs, and period-end closing.Parallel AccountingExplore the new parallel accounting options provided by ledger group-specific postings.Document SplittingLearn how to design, configure, and use document splitting, and get to know the active and passive document split.MigrationDiscover the migration components, including migration project details, the Migration Cockpit, and how to successfully migrate from the Classic to the New General Ledger.Practical ReportsBenefit from numerous real-life project reports, which can be put to practical use.

This book on 'Configuring SAP Financial Accounting' in SAP S/4HANA Finance, has been published in two volumes: Volume I and Volume II. The Volume I (this book) covers: Case Study Enterprise Structure FI Global Settings I (Fields, Ledgers, Fiscal Year, Posting Period, Parallel Accounting, Integration of SAP CO with SAP FI, and Company Code Global Parameters) FI Global Settings II (Documents, Inflation Accounting and Correspondence) FI Global Settings III (Taxes including Extended Withholding Tax) G/L Accounting The Volume II covers: Case Study Accounts Receivable and Accounts Payable Contract Accounts Receivable and Payable Bank Accounting Asset Accounting Here, in Volume I, you will learn about the context and relevance of SAP HANA, SAP S/4HANA and SAP S/4HANA Finance, before actually learning the configuration of SAP Financial Accounting. This book follows a case-study approach with a story-board technique, that provides you with the required business background for a given configuration activity. Towards configuring SAP FI, you will start your learning with SAP enterprise structure focussing on SAP FI/CO organizational units, their definition and assignment. Then, you will learn about FI global settings, in great detail, spread over three Chapters. You will learn about fields, ledgers, field status variants, fiscal year and posting periods. You will also learn parallel accounting, integration of SAP Controlling with SAP FI and configuring company code global parameters. Later, you will learn about documents (document structure, document types, posting keys, screen variants, document change rules, bar code entry, tolerance groups, summarization, default values, business transaction types, recurring entries, document parking and document archiving) besides inflation accounting and correspondence. Finally, in FI global settings, you will learn taxes: the tax on sales and purchases, the settings required for calculation / posting and interfacing your SAP system with external tax application (Vertex). You will also learn about withholding tax, including extended withholding tax: the configuration settings and how to manage withholding tax changeover. You will also learn SAP G/L Accounting, in great detail, covering the preparations required for creating the master data including chart of accounts, account groups, sample accounts etc. You will learn how to create / process G/L accounts, besides understanding the configuration towards business transactions like document splitting, cross-company code transactions, open item clearing, balance interest calculation, closing operations, and preparing for 'going live'. As with my other books on SAP, this book also follows a case-study approach to make your learning easy. Efforts have been taken, throughout the book, to guide you step-by-step in understanding how to configure your SAP system, to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots (from an SAP system) and illustrations to help you 'see' what is being discussed in that activity / step. You will see a lot of additional information, provided across the Chapters and the Sections, to help you understand a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG (Implementation Guide), for easy comprehension. You will come across with appropriate menu paths and Transactions, to help you to navigate the various activities. In all, you can use this book as a desktop-reference for configuring SAP FI. As the Chapters have been progressively elaborated, you will certainly find this as informative and easy to comprehend.

New Fixed Asset Accounting in SAP S/4HANA The Architecture of SAP ERP Quick Reference Guide Profitability Analysis with SAP S/4hana SAP General Ledger Material Ledger in SAP S/4HANA The new general ledger (GL) is the biggest change to SAP Financials since its inception. Highlights include: 1) Exams C_TS410_2020 2) Financial and management accounting 3) Source-to-pay processing 4) Lead-to-cash processing 5) Design-to-operate processing 6) Procurement 7) Supply chain 8) Production planning 9) Enterprise asset management 10) Warehouse management 11) Project systems 12) Human experience management

SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author—SAP expert, trainer, and accountant Andrew Okungbowa—ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work—even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus—SAP's view of the module's key tasks and procedures—including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.

Integrate SAP S/4HANA ERP Systems into Your Financial Data and Workflows for More Agility (English Edition) Expert tips to Unleash the Full Potential of SAP Controlling Configuration and Use Management Document Splitting with SAP S/4HANA The SAP Materials Management Handbook

You will, then, be taken to learn about the functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank periodic processing for G/L, you will learn about the various closing operations like check/count, valuate, reclassify, allocation and carry forward. We, then, discuss the preparations that you need to make for productive start of SAP G/L Accounting system. You will learn about the preparations, in detail, for new implementation, as well as for migration from an existing non-HANA SAP system. Finally, towards the end, we discuss the G/L information system. You will learn about the bank

including the drilldown reports and reports created with Report Painter / Report Writer. In all, you can use this book as a desktop-reference or a refresher for configuring SAP G/L Accounting. As the Chapters have been progressively elaborated, you will find the book very informative and easy to read. Delta from SAP ERP Financials to SAP S/4HANA Finance SAP S/4HANA Business Process Integration Certification Guide Configuring SAP Financial Accounting - Vol. I Financial Accounting with SAP Preparing for a New G/L Migration An Introduction

Although tens of thousands of global users have implemented Systems, Applications, and Products (SAP) for enterprise data processing for decades, there has been a need for a dependable reference on the subject, particularly for SAP materials management (SAP MM). Filling this need, The SAP Materials Management Handbook provides a complete understanding of how to best configure and implement the SAP MM module across various types of projects. It uses system screenshots of real-time SAP environments to illustrate the complete flow of business transactions involved with SAP MM. Supplying detailed explanations of the steps involved, it presents case studies from actual projects that demonstrate how to convert theory into powerful SAP MM solutions. Includes tips on the customization required for procurement of materials and inventory management Covers the range of business scenarios related to SAP MM, including the subcontracting cycle and consignment cycle Provides step-by-step guidance to help you implement your own SAP MM module Illustrates the procure to pay lifecycle Depicts critical business flows with screenshots of real-time SAP environments This much-needed reference explains how to use the SAP MM module to take care of the range of business functions related to purchasing, including purchase orders, purchase requisitions, outline contracts, and request for quotation. It also examines all SAP MM inventory management functions such as physical inventory, stock valuation, movement types, and reservations—explaining how SAP MM can be used to define and maintain materials in your systems.

Put together a centralised repository for all financial information and alter it as you see fit KEY FEATURES ● Expert-led approach to implementing S/4 Central Finance in a wide range of companies. ● Solution-focused responses on Central Finance, Group reporting, BPC, and Fiori. ● Preparation guide for the certification exam and SAP S/4HANA Interview. DESCRIPTION Your SAP S/4HANA journey has just begun. This book details several processes, methods, and expert strategies for integrating central finance into your IT systems, streamlining finance operations, data reporting, and master data preparation. With the help of this book, you'll learn all you need to know to get the most out of SAP S/4HANA Central Finance, SAP Group Reporting, BPC, Fiori, and other cutting-edge technologies. This book includes numerous examples to demonstrate the essentials of SAP S/4HANA Central Finance, SAP Group Reporting, BPC, and Fiori. This book, SAP FICO Black Book, brings to you a simple to the point non-technical jargon free discussion on SAP FICO along with comprehensive real life examples based on authors real life implementations. One of the first FICO books which cover business cycles rather than plain technical configuration. Targeting intermediate and advanced-level readers, this book discusses Implementation Tools; Enterprise Structure; New GL Configuration; Online Document Splitting; AR; AP; AA; Bank accounting; Integration of FI with Other Modules; Business Processes; Controlling; Cost Center Accounting; Product Costing; Material Ledger Configuration and Profit Center Accounting. The author has spent the last 10 years of his career acquiring this knowledge through the trial and error method. It covers the end user as well as technical configuration perspective. It can serve as a starting point for the people who want to comprehend how the financial and managerial accounting functions in an ERP. Most of the FICO text deals with technical configuration and throws little light on its functional implementation. This book is author s humble attempt to bridge the gap by providing real life scenarios along with technical details.

Practical Guide to SAP Profit Center Accounting

SAP Transaction Codes - Volume One

Configuring Financial Accounting in SAP ERP

This up-to-date quick reference guides the reader through the most popular SAP module. It includes material on SAP ERP Financials, SAP FICO, and SAP R/3. Unlike most books that only provide questions and answers for certification or interview preparation, this book covers fifty common business situations related to ERP Financials/FICO and provides practical solutions for them. In addition, the book begins with over 200 FAQs and certification questions for those who need a quick review of the material. A CD-ROM with FICO templates, short cuts, and color figures from the book is included with the text.

In this series of books you will find a listing of every SAP transaction code in existence, based on SAP ECC6, ehp4

Unlock the potential of the Material Ledger in SAP S/4HANA with this comprehensive guide. Move beyond the basics and get the step-by-step instructions you need to configure and run actual costing, group valuation, profit center valuation, and more.
