The 7(a) business loan program is the principal activity of the Small Business Administration (SBA) for providing financial assistance to small businesses. SBA makes loans to small businesses and guarantees loans made by others. In recent years, the program has emphasized guaranty loans whereby SBA guarantees the repayment of loans made to small businesses by private lending institutions. The major cause of dissatisfaction among business owners, lenders, and SBA personnel is that it takes too long to obtain a guaranty loan because of the number and complexity of the documents required to apply for a loan, and the time required for a SBA review of those documents. SBA has been testing two pilot programs to expedite the processes for application and approval of a guaranty loan. The bank certification program aims to shorten the time required for SBA to review and approve guaranty loan applications. The operation effectiveness program is designed to reduce the number and complexity of the application documents. Both programs appear promising in shortening the time and simplifying the paperwork required to obtain a guaranteed loan. The bank certification program addresses only one aspect of the problem, the amount of time SBA uses to review loan applications. The program does little to broaden the participation of banks and other lenders in the program. SBA has yet to develop and implement a system to provide audit and oversight of the certified banks' loan portfolios. The need for a system to monitor the performance of the certified banks is especially important now that SBA has the authority to delegate the determination of eligibility and loan servicing and liquidation to lending institutions. The simplified application documents of the operation effectiveness program have shortened the loan application and review time in the one SBA region where it has been tested. However, the revised documents have not been adopted agencywide nor been used for loan applications in the bank certification program.

This edited volume provides a comprehensive overview of rural-urban migration in Vietnam. It addresses a wide range of important topics, including Vietnam's household registration system (ho khau), migration trends, remittance behaviour and social networking. In addition, it examines migrants' earnings, their children's schooling, housing issues and their families' consumption behaviour in their destination cities. The book is mainly based on new data from the Australian National University's 'Study of Rural-Urban Migration in Vietnam with Insights from China and Indonesia' (VRUM) project, which identifies migrants from the large-scale, representative 'Vietnam Household Living Standards Survey' 2012 (VHLS2012). In addition to the data from the VRUM project, the book draws on other widely used data sources to provide a comprehensive picture of rural-urban migrants in Vietnam. By highlighting the issues and challenges brought about by the large-scale rural-urban migration in Vietnam, the book helps researchers and policymakers more effectively formulate policies to respond to those challenges. Moreover, Vietnam's experience can serve as lessons learnt to other transitional/developing countries.

The election of President Donald Trump, through his campaign of race-baiting, sexual harassment, and blatant disregard for human decency, lowered the moral bar of American public discourse. Julius Bailey's latest book discusses the current state of hypocrisy and mistrust in the American political system, especially as these affect ethnic minorities and low-income groups. In powerful and inspiring prose, Bailey writes with a voice well informed by current events, empirical data, and philosophical observation. Bailey looks at the causes and consequences of this new era and applies his passionate yet astute analysis to issues such as hate speech, gerrymandering, the use of the Confederate flag, and America's relationship with the gun.

USA Investment Visa to Green Card How to Qualify, Apply and Obtain EB-5, E-2, L-1 Visa Complete A to Z Guide As an immigrant myself I have always been fascinated by various types of visas and immigration opportunities that countries like the U.S. and other western nations offer to different foreign nationals. People migrate to other nations for various reasons but looking back I can tell you the top four reasons most people I know migrate to countries like the USA, Great Britain, and other western countries: Education Financial future Safety and security Freedom There are many immigration programs most all western countries offer to other foreign nationals simply because these Western countries want to create more diversity, increase innovation and to bring foreign investment. The U.S. has been the most successful country in the world in terms of education, safety, financial future and freedom for more than a century. One of the main contributing factors for its success has been its immigration policy. For centuries people from all around the world came and settled in the USA and made it one of the most diversified countries. The goal for the U.S immigration and the lawmakers have always been to attract the best and the brightest people from all walks of life and culture, so the country can prosper from the contribution of all the talents. Diversity in a population is always a strength and never a weakness, the countries that understood that early on are the ones that became very successful. We also included a chapter where we picked out the top 15 countries that have similar investment visa programs to what we have in the U.S. In that chapter you will find information on all the requirements on applying for an investment visa in countries like England, France, Australia, Canada, Belgium, Bulgaria, Germany and few more. What You Will Learn in This Book: What are EB-5, E-2, L-1 visa programs How you can qualify for them What the requirements are Difference between direct Investment vs. regional Investment What is an EB-5 Regional Center How to Form a Regional Center Steps to become a EB-45 Regional Center How to identify the Right Regional Center What are the Job Creation Requirements What type of Forms you need to fill out List of Documents you need to gather How much money you need to invest 10 Most Commonly Asked Questions about E-2 Visa List of Countries That have the Treaty with U.S. What the exact steps are to obtain such visa How to Turn the Visa into Green Card How to Convert Temporary Green Card to Permanent Green Card What the 7 most popular businesses are to invest in the U.S. Where to go to get more information(Resources) Where to Download All the immigration Forms and much more... In the mid-nineteenth-century United States, as it became increasingly difficult to distinguish between bodies understood as black, white, or Indian; able-bodied or disabled; and male or female, intense efforts emerged to define these identities as biologically distinct and scientifically verifiable in a literally marked body. Combining literary analysis, legal history, and visual culture, Ellen Samuels traces the evolution of the "fantasy of identification"—the powerful belief that embodied social identities are fixed, verifiable, and visible through modern science. From birthmarks and fingerprints to blood quantum and DNA, she examines how this fantasy has circulated between cultural representations, law, science, and policy to become one of the most powerfully institutionalized ideologies of modern society. Yet, as Samuels demonstrates, in every case, the fantasy distorts its claimed scientific basis, substituting subjective language for claimed objective fact. From its early emergence in discourses about disability fakery and fugitive slaves in the nineteenth century to its most recent manifestation in the question of sex testing at the 2012 Olympic Games, Fantasies of Identification explores the roots of modern understandings of bodily identity.
