An Introduction to the Philosophy of Education,

A New York Times Notable Book for 2011 One of The Economist's 2011 Books of the Year One of NPR's 10 Best Novels of 2011 Denis Johnson's Train Dreams is an epic in miniature, one of his most evocative and poignant fictions. Robert Grainer is a day laborer in the American West at the start of the twentieth century—an ordinary man in extraordinary times. Buffeted by the loss of his family, Grainer struggles to make sense of this strange new world. As his story unfolds, we witness both his shocking personal defeats and the radical changes that transform America in his lifetime. Suffused with the history and landscapes of the American West—its otherworldly flora and fauna, its rugged loggers and bridge builders—the new novella by the National Book Award-winning author of Tree of Smoke captures the disappearance of a distinctly American way of life.

The Complete Guide to Raising the Perfect Pet with Love

*A tiger cub and little crocodile joust in a witty war of words. Delightfully illustrated by an animator on Disney’s 2019 The Lion King movie. In India the Bengal tiger is the king of the land. But the giant saltwater crocodile is the ruler of the water. What happens when the kids of these fearsome beasts meet? Let’s get ready to rumble! These animals sing their own version of Anything You Can Scare, I Can Scare Better! Two youngsters engage in a playful battle of bragging rights. Their spirited banter and humorous romp will entertain readers of all ages. In lush spreads painted in traditional watercolor, this budding rivalry escalates. The two kids compare their tremendous stealth, strength, stamina, and even speed. The argument is subtly educating, but overtly hilarious; especially when readers learn what animal is truly the scariest thing in the jungle. In a playful game of one-upmanship, each tot boasts frightening canines, claws, and capabilities. They climb trees and swim circles around each other in a close contest. But will these terrible tykes discover someone even scarier than them? No elephant is waiting around to find out the answer! Children and their parents can identify with the desire to make one’s mark, stand out in a crowd, and be proud of one’s background and talent. Animal lovers can root for their favorite “king of the jungle.” Teachers and librarians will enjoy repeated readings of this tall tale, illustrated with naturalistic verve by a veteran animator at Disney and DreamWorks. The book was a Finalist for the 2014 Bull-Bransom Award for best children’s book illustrations with a wildlife or nature focus. - - - "In the style of an animated children’s movie, this endearing book captures the voices of two young jungle tots in a power struggle... Sculptor and animator David Derrick imbues his characters with the spunky personality reminiscent of Simba and other classic movie friends, bringing them to life with colorful, cartoonish drawings and boastful dialogue. This tale of independence and humility will be adored by children" - ForeWord magazine "I'm the Scariest Thing in the Jungle is one of those books that you realize could easily become your child's most favorite stories of all time. The book that, when they grow up, they'll want to read to their own children." - Just a Little Creativity "easily the family favorite... The font color is different for each animal so that your child can easily identify who is talking...It's a wonderful device that works very well. You learn all kinds of things about the behavior and habitats of each animals... Eventually, the youngsters realize they have strayed too far into the jungle alone, and just who is the scariest thing in the jungle. I won't spoil the ending for you. It's too wonderful." - Geek Mom. Wired.com "Though we both enjoyed this story, what really won us over was the illustrations. They're fabulous, and are perfect for young children who enjoy looking through picture books. This book is the whole package- it's a great picture book, and fun story to read. This is one book worth adding to your e-book collection." - Mundie Kids*

*How to rewire your brain to improve virtually every aspect of your life-based on the latest research in neuroscience and psychology on neuroplasticity and evidence-based practices Not long ago, it was thought that the brain you were born with was the brain you would die with, and that the brain cells you had at birth were the most you would ever possess. Your brain was thought to be “hardwired” to function in predetermined ways. It turns out that's not true. Your brain is not hardwired, it's "softwired" by experience. This book shows you how you can rewire parts of the brain to feel more positive about your life, remain calm during stressful times, and improve your social relationships. Written by a leader in the field of Brain-Based Therapy, it teaches you how to activate the parts of your brain that have been underactivated and calm down those areas that have been hyperactivated so that you feel positive about your life and remain calm during stressful times. You will also learn to improve your memory, boost your mood, have better relationships, and get a good night sleep. Reveals how cutting-edge developments in neuroscience, and evidence-based practices can be used to improve your everyday life Other titles by Dr. Arden include: Brain-Based Therapy-Adult, Brain-Based Therapy-Child, Improving Your Memory For Dummies and Heal Your Anxiety Workbook Dr. Arden is a leader in integrating the new developments in neuroscience with psychotherapy and Director of Training in Mental Health for Kaiser Permanente for the Northern California Region Explaining exciting new developments in neuroscience and their applications to daily living, Rewire Your Brain will guide you through the process of changing your brain so you can change your life and be free of self-imposed limitations.*

**As the civil war in Sri Lanka drew to its bloody end in 2009 the government of this island nation removed its protection from UN officials and employees, who, along with other international observers, were forced to leave the conflict zone. President Mahinda Rajapaksa and his inner circle wanted, it seemed, a war without witness. The end result was the deliberate slaughter of an estimated 70,000 innocent civilians. However, many survivors, and some who died, were able to capture on camera the horrifying conclusion to the war and the cruel deprivations of the internment camps that followed. Today, through their images and testimony, Rajapaksa stands accused of**

war crimes. In Sri Lanka's Secrets experienced journalist Trevor Grant presents the shocking story of the final days of this war, alongside the photographs and eye-witness accounts of many Tamils, including Maravan, a social worker who fled to Australia by boat after being tortured by soldiers seeking his folio of photographs. Grant also details the continuing torture and abuse of Tamils in Sri Lanka, and some national governments' ongoing support for a regime that has abandoned any pretense of democracy. Foremost among these enthusiastic supporters has been the Government of Australia, cynically preoccupied with 'stopping the boats' fleeing Sri Lankan state terror. At any cost.

A story of a child soldier in Sri Lanka's bloody civil war. Two days before Christmas in 1987, at the age of 17, Niromi de Soyza found herself in an ambush as part of a small platoon of militant Tamil Tigers fighting government forces in the bloody civil war that was to engulf Sri Lanka for decades. With her was her lifelong friend, Ajanthi, also aged 17. Leaving behind them their shocked middle-class families, the teenagers had become part of the Tamil Tigers' first female contingent. Equipped with little more than a rifle and a cyanide capsule, Niromi's group managed to survive on their wits in the jungle, facing not only the perils of war but starvation, illness and growing internal tensions among the militant Tigers. And then events erupted in ways that she could no longer bear. How was it that this well-educated, mixed-race, middle-class girl from a respectable family came to be fighting with the Tamil Tigers?

John Dewey's Democracy and Education addresses the challenge of providing quality public education in a democratic society. In this classic work Dewey calls for the complete renewal of public education, arguing for the fusion of vocational and contemplative studies in education and for the necessity of universal education for the advancement of self and society. First published in 1916, Democracy and Education is regarded as the seminal work on public education by one of the most important scholars of the century.

Extrasensory Perception or ESP is something you can develop that will give you an intuition like no other. The problem for most people is they don't know how to develop their own intuition. There are some people in the world who know how to do telepathy and literally move matter with their mind alone. This has been document and witnessed. There are other people who can just 'know' what someone else is thinking; like having x-ray vision into someone else's thoughts. Wouldn't that be something? To be able to read the thoughts of another human being? It would be very useful in many notable contexts. You'd know what your boss was thinking? You'd be able to guess what others felt about you? But really you would know-there wouldn't be any guessing! This book is going to help you develop your own ESP, so you can achieve knowing what other people think, without them having to come out and tell you. I remember back during my college years, a communications teacher lecturing on how the greatest ability one has, concerning verbal communication, is not verbalizing what shouldn't be verbalized. She was referring to the pricelessness of remaining silent when one doesn't have anything useful or meaningful to say. After you get through with this book, you'll be able to tap into what other people are thinking about. You'll be able to harness the power of your own Extrasensory Perception to intuit psychically what other people are thinking. This is a very valuable skillset, because once you are able to know what other people are thinking, you can predict their actions, making activities, like selling, easy to do. You can likewise predict with almost certain accuracy when other people mean you harm but appear innocent enough. You would be able to read people's thoughts, getting inside their heads, so you could persuade and communicate ideas that resonated with them. It would be like having your own private entrance into the world of someone else. Listen, we have a lot to cover. This book will get you there, but I need your full attention. Are you ready to learn? I hope so. Let's learn how to Develop ESP. Grab Your Copy Now!

Abe The Service Dog

Colloquial Tamil

Training the Best Dog Ever, originally published in hardcover as The Love That Dog Training Program, is a book based on love and kindness. It features a program of positive reinforcement and no-fail techniques that author Dawn Sylvia-Stasiewicz used to train the White House dog, Bo Obama, and each of Senator Ted Kennedy's dogs, among countless others.

Training the Best Dog Ever relies on trust and treats, not choke collars; on bonding, not leash-yanking or reprimanding. The five-week training program takes only 10 to 20 minutes of practice a day and works both for puppies and for adult dogs that need to be trained out of bad habits. Illustrated with step-by-step photographs, the book covers hand-feeding; crate and potty training; and basic cues—sit, stay, come here—as well as more complex goals, such as bite inhibition and water safety. It shows how to avoid or correct typical behavior problems, including jumping, barking, and leash-pulling. Plus: how to make your dog comfortable in the world—a dog that knows how to behave in a vet's office, is at ease around strangers, and more. In other words, the best dog ever.
