Because of its peculiar biology, its negative impacts on forestry, and its urticating larvae affecting human and animal health, pine processionary moth has largely been studied in many European countries during the last century. However, knowledge remained scattered and no synthesis has ever been published. Since the IPCC retained the moth as one of the two insect indicators of climate change because of its expansion with warming up, filling this gap became increasingly important. Led by INRA, this book associates 101 authors from 22 countries of Europe, Minor Asia and North Africa, combining all the concerned research fields (entomology, ecology, genetics, mathematical modelling, medical and veterinary science, pest management) in a multidisciplinary approach to understand and model the processes underlying past, present and future moth expansion and to propose adapted management methods. Besides, the major biological patterns of the related processionary species are also detailed.

Dinosaur Tracks from Brazil is the first full-length study of dinosaurs in Brazil. Some 500 dinosaur trackways from the Cretaceous period still remain in the Rio do Peixe basins of Brazil, making it one of the largest trackways in the world. Veteran paleontologists Giuseppe Leonardi and Ismar de Souza Carvalho painstakingly document and analyze each track found at 37 individual sites and at approximately 96 stratigraphic levels. Richly illustrated and containing a wealth of data, Leonardi and de Souza Carvalho brilliantly reconstruct the taxonomic groups of the dinosaurs from the area and show how they moved across the alluvial fans, meandering rivers, and shallow lakes of ancient Gondwana. Dinosaur Tracks from Brazil is essential reading for paleontologists.

A book grows rather like a snow crystal. One doesn't write it from start to finish but, in greater or less degree, all at the same time ... that is why my book is not in chronological order: for everything is of the present, held in the moment when thought captures it.' Kurt Diemberger's Summits and Secrets is a mountaineering autobiography like no other. Writing anecdotally, Diemberger provides an abstract look into his life and climbing career that is both fascinating and awe-inspiring to navigate. Known for surviving the 1986 K2 disaster – an account described in harrowing detail in his award-winning book The Endless Knot - Diemberger provides a captivating insight into his earlier climbs in Summits and Secrets. From climbing his first peak in the Tyrol mountains of Austria, to the epoch-making first ascent of Broad Peak with Hermann Buhl in 1957, and then summiting Dhaulagiri in 1960, where he became one of only two people to have made first ascents of two mountains over 8,000 metres, Diemberger recounts his experiences with wit, honesty and an infectious enthusiasm. Every climber knows the thrill ... the unexplicable tension, which the regular shapes of the mountain world awake in him: huge pyramids, enormous rectangular slabs, piled-up triangles of rock, white circles, immense squares - the thrill of simplicity of shape and outline and the excitement of mastering them, to an unbelievable extent, by his own efforts, his own power ...' Summits and Secrets is a must-read for those wanting an insight into the life and achievements of one of the toughest high-altitude climbers the world has ever known.

*"Long before the advent of modern tourism, Australians travelled to live in Italy, or undertook extensive visits there. Indeed they continue to do so in increasing numbers, as women and men find Italian partners; as business people with European interests settle there; as retirees in their thousands seek 'the good life' that Italy – in Ros Pesman's words, this 'culturally endowed place of rebirth' – seems to promise ... This collection seeks to map the past and present of the Australian love affair with Italy, and yields rich insights into its causes, motivations and transformations." -- About page.*

*"Historian F.W. Kent offers a new look at Lorenzo's relationship to the arts, aesthetics, collecting, and building – especially in the context of his role as the political boss (maestro della bottega) of republican Florence and a leading player in Renaissance Italian diplomacy. Kent's approach reveals Lorenzo's activities as an art patron as far more extensive and creative than previously thought. Known as "the Magnificent," Lorenzo was broadly interested in the arts and supported efforts to beautify Florence and the many Medici lands and palaces. His expertise was well regarded by guildsmen and artists, who often turned to him for advice as well as for patronage.*

Poetry. Bilingual Edition. Translated from the Italian by Luigi Bonaffini. THE BEDROOM (La camera da letto) is Bertolucci's best-known work, so popular that the poet once read it to television viewers on a seven-hour program. It is a narrative poem that traces the history of the poet's family across seven generations with directness, precision and attention to everyday details, major events and fantastic surprises. Paolo Lagazzi writes in his introduction: "THE BEDROOM is a sort of a multi-novel, or a distillation of very diverse narrative forms and intuitions: a Bildungsroman and fairytale, an epoch novel, a novel-chronicle, a dramatic novel and a picaresque novel. An experimental work in the most authentic sense of the word..." "Nothing of time's essence escapes or is neglected by the author's ravenous sensibility, no less active in recording the multiple places in which existence rests (the city and the countryside, the sea and the plane, the Po river and the Maremma) in an exuberant display of forms, lights, perspectives, tonalities."—Luigi Ferrara

In this exhilarating coming-of-age tale set in the late 19th century, a daring young woman braves the wilds of the mountainous Austrian-Italian border—and the dangerous men who conspired with her missing father to smuggle tobacco—in order to save her family. Jole de Boer is just fifteen years old the first time she accompanies her father—a tobacco grower named Augusto—as he smuggles his product across the Italian border into Austria. She knows the dangers of the treacherous high mountain passes—border guards, brigands, wild animals, ferocious weather—but she is proud that her father has asked her to join him. After all, without the extra money Augusto’s smuggling brings in, their family would starve. But when Augusto mysteriously disappears during one of his trips, Jole must retrace the route he took to both find a buyer for her family’s tobacco—and the truth behind her father’s disappearance. An epic tale of revenge, corruption, and salvation, The Soul of the Border is an unforgettable journey into the wild.

In 1970, Chris Bonington and his now-legendary team of mountaineers were the first climbers to tackle a big wall at extreme altitude. Their target was the south face of Nepal's Annapurna: 12,000 feet of steep rock and ice leading to a 26,454-ft. summit. As serious armchair climbers will tell you, Annapurna South Face is better than all but a handful of equally gripping classics. One could also argue that all that has happened in the big mountains in the past 30 years has come out of this expedition and out of this book. Bonington and his team—most of whom subsequently died in the mountains—represented a kind of "greatest generation" of modern mountaineers. They pioneered a new, bolder approach to high altitude climbing, and this book is about how they hit the big time.

*The true tale of an edenic Rocky Mountain town and what transpired when a predatory species returned to its ancestral home. When, in the late 1980s, residents of Boulder, Colorado, suddenly began to see mountain lions in their yards, it became clear that the cats had repopulated the land after decades of persecution. Here, in a riveting environmental fable that recalls Peter Benchley's thriller Jaws, journalist David Baron traces the history of the mountain lion and chronicles Boulder's effort to coexist with its new neighbors. A parable for our times, The Beast in the Garden is a scientific detective story and a real-life drama, a tragic tale of the struggle between two highly evolved predators: man and beast.*
