• Explains how the new Atlantis was rebuilt using ancient Lemurian construction techniques and how Poseidon was put in charge by nefarious Prince Caligastia • Explores the rise of shamanism, the hidden history of Akhenaten, and the privileged role of the Yazidi people in the spiritual evolution of the planet • Exposes how our planet is one of the worlds on which the rebel angels have been the accorded the privilege of a mortal incarnation During the angelic rebellion 203,000 years ago, which led to the quarantine of Earth and 36 other planets from the Multiverse, Georgia, an angel of Seraphic status, aligned herself with Lucifer and the rebel angels. After the rebellion, Georgia was permitted to remain on this planet and become a Watcher. Writing together with Timothy Wylie, in this book Georgia provides her personal account of Earth during the second rise of Atlantis. Georgia explains how the new Atlantis was home to the few surviving Lemurians and was rebuilt using ancient Lemurian construction techniques. She reveals how Prince Caligastia put Poseidon in charge of the new Atlantis in order to keep him from interfering with the Prince's imposition of monotheism in southern Palestine. She explores the rise of shamanism through the entheogenic use of power plants – first on the Islands of Mu, then in the Nile Valley, and later among the Aborigines of Australia. She also looks at the hidden history of Pharaoh Akhenaten and the privileged role of the Yazidi people in the spiritual evolution of the planet—and how even today the attempts to extinguish their culture is the work of Caligastia's agents. Interwoven with Georgia's narrative of Earth's ancient history are her observations of Timothy Wylie's current and previous lives, including his involvement with the Process Church, his struggle to leave it, and his spiritual activities after he left. Through her revelations, Georgia exposes the supreme significance of Earth in the larger Multiverse and how our planet is one of the worlds on which the rebel angels have been accorded the privilege of a mortal incarnation. Georgia shares her words, in part, to awaken the 100 million rebel angels currently living their human lives. She reveals how a mortal incarnation for a rebel angel is an opportunity to redeem their past and help prepare for the imminent transformation of consciousness as the rebel-held planets, including Earth, are welcomed back into the Multiverse.

Whaling has become one of the most controversial environmental issues. It is not that all whale species are at the brink of extinction, but that whales have become important symbols to both pro- and anti-whaling factions and can easily be appropriated as the common heritage of humankind. This book, the first of its kind, is therefore not about whales and whaling per se but about how people communicate about whales and whaling. It contributes to a better understanding and discussion of controversial environmental issues: Why and how are issues selected? How is knowledge on these issues produced and distributed by organizations and activists? And why do affluent countries like Japan and Norway still support whaling, which is of insignificant economic importance? Basing his analysis on fieldwork in Japan and Norway and at the International Whaling Commission, the author argues how an image of a "superwhale" has been constructed and how this image has replaced meat and oil as the important whale commodity. He concludes that the whaling issue provides an arena where NGOs and authorities on each side can unite, swapping political legitimacy and building personal relations that can be useful on issues where relations are less harmonious.

The sacred Flower of Life pattern, the primary geometric generator of all physical form, is explored in even more depth in this volume, the second half of the famed Flower of Life workshop. The proportions of the human body, the nuances of human consciousness, the sizes and distances of the stars, planets and moons, even the creations of humankind, are all shown to reflect their origins in this beautiful and divine image. Through an intricate and detailed geometrical mapping, Drunvalo Melchizedek shows how the seemingly simple design of the Flower of Life contains the genesis of our entire third-dimensional existence. From the pyramids and mysteries of Egypt to the new race of indigo children, Drunvalo presents the sacred geometries of the Reality and the subtle energies that shape our world. We are led through a divinely inspired labyrinth of science and stories, logic and coincidence, on a path of remembering where we come from and the wonder and magic of who we are. Finally, for the first time in print, Drunvalo shares the instructions for the Mer-Ka-Ba meditation, step-by-step techniques for the re-creation of the energy field of the evolved human, which is the key to ascension and the next dimensional world.if done from love, this ancient process of breathing prana opens up for us a world of tantalizing possibility in this dimension, from protective powers to the healing of oneself, of others and even of the planet. Embrace the expanded vision and understanding that Drunvalo offers to the world. Coincidences abound, miracles flourish and the amazing stories of mysteries unveiled arise as the author probes the Ancient Secrets of the Flower of Life.
