In the late 1970s we ventured across the country from northern California to western Pennsylvania and back through Washington and Oregon in Steven's boxy old 1965 Chevy van. Those were the days, my friends. That trip had a lasting effect and over time we realized we were destined to be full time RVers. In 1995 we sold our house and a Recreational Vehicle became our home. An RV has been our home every since.

Both new and experienced RV owners will find this system-by-system guide indispensable-- Expanded to include up-to-date improvements in technology, accessories, appliances, and systems, and chapters on buying new or used RVs

Are you sick of paying rent? Unable to buy your own home? Facing eviction or foreclosure? Or do you simply want the freedom to move freely or travel? Then living fulltime in an RV might be for you! This book was written by a single woman who quit her day job, and did just that. It's designed to help you get started; help you decide which type of RV is right for you, some of the basic workings of living with an RV, finding places to park, and also, ideas on how to earn a living on the road.

Anybody from the RV owner to the service technician can comprehend and determine troubles with an RV refrigerator. In this practical manual, the authors provide profound discussions in troubleshooting. True to its name, Average Joe's RV Refrigerator: Troubleshooting & Repair Guide aims to help any person in making minor repairs by himself/herself. It also supplies information that helps one know whether or not his/her service tech is qualified to make an educated analysis of the problems and is able to do the repairs successfully with the least amount of cost available to the consumer. Geared to assist any individual anytime, anywhere, Average Joe's RV Refrigerator: Troubleshooting & Repair Guide is a handy book that will be of use for both personal and business needs. Book Review: "Average Joe's RV Refrigerator Troubleshooting and Repair Guide made me feel confident that I (an average Joanne) could pull out my own RV refrigerator and know what I was looking at, what to check first depending on the problem, and where to proceed from there. Without the guide, I'd never know where to start. There are a lot of photos and the troubleshooting charts are easy to read, with a column for symptoms, possible problem areas, and causes and remedies. They identify specific problems for which I need to call on a repair specialist but I was surprised to see that many of the remedies are simple enough that I would not be afraid to tackle them myself. This guide will help anyone assess problems with their RV refrigerator and try, first, to fix it yourself, thereby saving on costly repair bills." frugal-rv-travel

The Ultimate Guide to Converting a Campervan

Consider anticipating another enjoyable day - just like most other days - only to return from a day exploring and find that your Camping trailer, Fifth-wheel, or motor home had been burglarized. Or possibly it, along with all your belongings, was damaged or destroyed by fire or a natural disaster. Your emotions are raw. Fear!

Anger! Frustration! Sadness! The first and most important thing, of course, is that everyone is OK. Then, with assistance, you find food, clothing, and a place to stay. Your immediate needs for you and your family are met...now what? Now it's time to recover. Now it's time to file your insurance claim. You will need to list every item you owned that is missing, melted, shattered, drenched, gone, unrecognizable, scattered, or damaged. It doesn't seem hard at first. You can certainly remember the TV and computer, but can you remember how many items of clothing you owned? Do you know how many CDs, DVDs, and books you purchased? Can you remember how many pots and pans, dishes, glasses, and linens you owned? How about make-up, toiletries, and cleaning supplies? Think about kitchen appliances - you probably own a mixer, blender, waffle maker, toaster, coffee maker, juicer ... the list can go on and on. Are you properly insured so that you'll receive an equitable insurance settlement? How do you know for sure? Having an inventory of your belongings in your RV can help you remember what you owned, and receive an equitable settlement from your insurance carrier. In addition to guiding you through the inventory process, this book also discusses the various RV insurance options. As we always say ... If you can't remember, you can't recover (TM).

You're ready to see the world your way in a house on wheels. Investing in a recreational vehicle is a big-purchase decision, and many first-time buyers may not know what to look for when shopping. In *RV Buyer's Handbook*, author Walt Gerber presents a guide to help you make sense of the ins and outs of buying an RV, which may prevent you from getting a "lemon" or a "money pit." Based on his years of experience camping and working as an RV inspector, Gerber offers a look at a host of factors to consider. He discusses the different types of RVs, reviews the array of features available, shares maintenance considerations and tips, and helps you understand the unit's many systems. From your first outing, to set up and tear down, to troubleshooting, and more *RV Buyer's Handbook* presents a single-source guide to help you navigate the process of choosing, equipping, and enjoying an RV.

Is your boat ready to go cruising? Just about every sailboat—used and new—can make a good cruiser, but only if the hull-deck structure, rig, and systems meet certain standards. *Spurr's Guide to Upgrading Your Cruising Sailboat* tells you what those standards are, and gives you all the help you need to refurbish and upgrade every structure, surface, fitting, and system on your boat—stem to stern, project by project. This all-in-one guide leads you step by step to a seaworthy, crew-friendly boat with top-notch cruising performance. Special features include: A detailed survey of 70 used and new fiberglass sailboats best suited to offshore sailing Gear and equipment recommendations by brand name Construction details and other essential features of a strong, safe cruising boat How to make critical repairs to the deck, hull, bulkheads, blisters, and portlights

VIV & RON MOON have spent much of their lives exploring and writing about Australia's wild and remote areas. In their travels they combine many interests such as 4wd touring, camping, canoeing, photography and camp fire cooking. Since 2007 they have spent over 8 years Overlanding around the world. Their adventures both within Australia and overseas continue today. Viv commenced writing her Camp Fire Cooking column in 4x4 Australia magazine well over 35 years ago, and her column appeared in the magazine for 30 years and was one of the magazine's most popular features. Over the last 35 years or more Viv has been called upon to cater and cook on a number of large 4WD expeditions and for TV documentary shoots in remote areas.

Planning and preparation were essential, with no supermarket or roadhouse nearby to replenish supplies, and many skills, not only cooking, were honed during those trips. Her meals and cooking prowess are highly regarded by many far and wide. Viv put all that expertise and knowledge into two cookbooks - Viv Moon's OUTDOOR Cookbook and TRAVELLERS' Cookbook. Both cookbooks have been hugely popular with many editions. Now it's time to combine both of these amazing cookbooks, along with many more recipes, so that all the fabulous recipes, hints and ideas are combined into one extraordinary 533 page cookbook. Viv Moon's OUTDOOR & TRAVELLERS' Cookbook is written specifically to help you get the most out of cooking during your travels, whether you are 4WD touring, camping, caravanning or simply holidaying; or even at home. The recipes throughout the book are easy, simple and delicious, using ingredients that are readily available wherever you may be travelling and have been carefully selected and adapted to suit cooking in a wide range of circumstances. Discover how simple it is to use a camp oven to make great bread, fluffy scones, succulent roasts and more. Learn the skills needed to cook well over an open fire, or simply enjoy the recipes that can be cooked on top of your gas stove, on the BBQ or in your caravan's kitchen. This book will enable you to cook confidently and successfully as well as expand your cooking skills and help you serve up simple yet interesting and satisfying meals to your family, while on your travels, or at home. Viv & Ron's knowledge of all things to do with touring Australia, including cooking in the great outdoors, is vast and extensive. Together they have also written 18 guidebooks, produced a variety of videos and write for a wide range of magazines. Now with Viv's two cookbooks combined into one - Viv Moon's OUTDOOR & TRAVELLERS' Cookbook, you have at your fingertips 516 recipes in one outstanding cookbook which is a culmination of many years of outdoor cooking experience and expertise,

now passed onto you. It's an ideal travelling companion to have at your fingertips.
