

Andrew Heywood Politics 3rd Edition

This informative and widely-used text is now available in a third edition. Building on the success of previous editions, it continues to provide a clear and accessible introduction to the complexities of political ideologies. The latest edition of Political Ideologies: introduces and considers the future of all the most widely studied ideologies: liberalism; conservatism; socialism; democracy; nationalism; fascism; ecologism and feminism sets each ideology clearly within its historical and political context includes a new final chapter that examines the impact of recent theoretical developments of ideologies and charts the challenges that they face in the twenty-first century has been fully revised and up-dated and provides an annotated guide for further reading.

In this extensively revised new edition of Global Politics, internationally renowned author Andrew Heywood provides a systematic and integrated analysis of the theory and practice of contemporary international relations. This edition is fully updated to cover key developments, from the Arab Spring to the global financial crisis, and provides enhanced coverage of current issues like international migration. An entirely new chapter on the importance and impact of theory at the end of the book revisits key perspectives, and addresses deeper questions about the nature and purpose of theory in global politics. Drawing on an exceptionally wide range of theoretical perspectives throughout, each chapter is packed with innovative features to aid study and reinforce learning. To complement this textbook, there is a companion website with resources for both lecturers and students, offering exam questions, PowerPoint slides, online-only case-studies, self-test questions, and more. This new edition offers: - Updated key developments, from the Arab Spring to the global financial crisis, and provides enhanced coverage of issues like international migration - An entirely new chapter on theory at the end of the book revisits key perspectives, and addresses deeper questions about the nature and purpose of theory in international relations - Full page case studies of Global Politics in Action, illuminating major events in world affairs - Global Actor case studies considering the nature and significance of key players on the world stage, from Google to the G-20 - Focus and debating features looking closely at issues and approaches.

This substantially revised third edition of the leading text on political ideologies takes full account of the impact of the post-Cold War world order, the challenge of postmodernism, the advance of globalization, and the advent of global terrorism, and includes additional coverage of the prospects for ideologies in the 21st century.

An accessible and comprehensive guide to the major concepts encountered in political analysis. Each is defined clearly and fully, and its significance for political argument and practice is explored. The introduction explains how political concepts are used and why they are so often abused.

Russian Government and Politics

An Introduction

Political Theory, Third Edition

Colin Heywood's classic account of childhood from the early Middle Ages to the First World War combines a long-run historical perspective with a broad geographical spread. This new, comprehensively updated edition incorporates the findings of the most recent research, and in particular revises and expands the sections on theoretical developments in the 'new social studies of childhood', on medieval conceptions of the child, on parenting and on children's literature. Rather than merely narrating their experiences from the perspectives of adults, Heywood incorporates children's testimonies, 'looking up' as well as 'down'. Paying careful attention to elements of continuity as well as change, he tells a story of astonishing material improvement for the lives of children in advanced societies, while showing how the business of preparing for adulthood became more and more complicated and fraught with emotional difficulties. Rich with evocative details of everyday life, and providing the most concise and readable synthesis of the literature available, Heywood's book will be indispensable to all those interested in the study of childhood.

The new third edition of the highly successful text has been revised and updated throughout to take account of new issues such as identity and difference, globalization and multiculturalism. The book provides a clear and accessible introduction to political theory and key concepts in political analysis. Each chapter discusses a cluster of interrelated terms, examines how they have been used by different thinkers and in the various political traditions, and explores related debates and controversies.

Providing a comprehensive introduction to political philosophy, this 2006 book combines discussion of historical and contemporary figures, together with numerous real-life examples. It ranges over an unusually broad range of topics in the field, including the just distribution of wealth, both within countries and globally; the nature and justification of political authority; the meaning and significance of freedom; arguments for and against democratic rule; the problem of war; and the grounds for toleration in public life. It also offers an accessible, non-technical discussion of perfectionism, utilitarianism, theories of the social contract, and of recently popular forms of critical theory. Throughout, the book challenges readers to think critically about political arguments and institutions that they might otherwise take for granted. It will be a provocative text for any student of philosophy or political science.

Utilizing 100 key readings, The Political Theory Reader explores the rich tradition of ideas that shape the way we live and the great issues in political theory today. Allows students to see how competing ideological viewpoints think about the same political issues Provides readers with direct access to authors covered in the From Ideologies to Public Philosophies text Facilitates discussions by having readings arranged thematically throughout text Extracts of works specifically chosen to focus on topics central to issues covered in chapters.

The 5th edition of this best-selling textbook provides a systematic and comprehensive introduction to the main theoretical approaches in the study of international relations. While maintaining focus on the core theories and assessing the importance of theory in the study of International Relations, this edition has been updated throughout to take account of major events and developments, such as the Arab Spring and to reflect the developments in the field, including new material on neo-realism and neo-liberalism, post-colonialism and cosmopolitanism. Each chapter is written by a leading expert on the theory, elucidating the concepts and its application to field coverage whilst maintaining an objective perspective in their evaluations. This text can be used as reference work for particular theories, or as a tool to learn the use and importance of theory, as well as the particulars of each school of thought. This text is accessible to students on courses across the world, and it assumes no prior knowledge of any of the theories, making it the ideal companion as students begin studying theories of International Relations, whether at undergraduate or Master's level.

Few countries have been transformed as rapidly and dramatically as Russia since the end of the Communist regime. Yet the more that certain things change in Russia, the more others remain the same. The result is a political and social system of which almost every aspect is a work in progress, marked by sudden accelerations, slowdowns, turnarounds, and conundrums. This lively and innovative third edition provides a clear and comprehensive picture of Russian politics which does full justice to its changes, challenges, and paradoxes. A distinctive feature throughout is its emphasis on outlining basic facts and developments and setting these in historical contexts before moving on to critical analysis. This is the ideal text for upper-level undergraduate and postgraduate students studying Russian politics or comparative government and politics more broadly. New to this Edition: - Fully updated to cover the latest developments, including 2018's presidential election - Two chapters of fering expanded coverage of foreign policy, which better balances coverage of domestic and international affairs - New content on elections, presidential power, constitutional amendments, events in Ukraine, political opposition, economic and business policies, domestic and global challenges facing Russia, and Russia's vision of the world - Accompanied by a revamped set of online resources, such as multiple-choice questions and PowerPoint slides

The 2nd edition of Global Politics: A New Introduction continues to provide a completely original way of teaching and learning about world politics. The book engages directly with the issues in global politics that students are most interested in, helping them to understand the key questions and theories and also to develop a critical and inquiring perspective. Completely revised and updated throughout, the 2nd edition also offers additional chapters on key issues such as environmental politics, nationalism, the internet, democratization, colonialism, the financial crisis, political violence and human rights. Global Politics: Examines the most significant issues in global politics – from war, peacebuilding, terrorism, security, violence, nationalism and authority to poverty, development, postcolonialism, human rights, gender, inequality, ethnicity and what we can do to change the world Offers chapters written to a common structure which is ideal for teaching and learning and features a key question, an illustrative example, general responses and broader issues Integrates theory and practice throughout the text, by presenting theoretical ideas and concepts in conjunction with a global range of historical and contemporary case studies Drawing on theoretical perspectives from a broad range of disciplines including international relations, political theory, postcolonial studies, sociology, geography, peace studies and development this innovative textbook is essential reading for all students of global politics and international relations.

Brief and accessible, Political Ideologies follows the evolution of political thought over 300 years. Organized chronologically, this text examines each major ideology within a political, historical, economic, and social context. Leon Baradat's skillful prose ensures that students obtain a clear understanding of how ideas are influencing the political realities of our time.

In the Shadow of the Silent Majorities

Key Concepts in Politics and International Relations

The fifth edition of this seminal textbook by best-selling author Andrew Heywood continues to lead the way in providing a comprehensive and authoritative introduction to politics. Renowned for its engaging and accessible style, this book helps students to understand the discipline's foundational concepts and theories and use these to make sense of its key subfields, from elections and voting to security and global governance. Systematically revised and updated throughout, it also uses a range of tried-and-tested pedagogical features to draw links between different standpoints and help make contemporary institutions, events and developments come to life. Drawing on a wide range of international examples, this text is the ideal choice for lecturers around the world. Carefully designed and written to map onto the way the subject is introduced at degree level, it remains the go-to text for undergraduate introductory and comparative politics courses. Furthermore, it can also be used as pre-course reading or as a point of reference throughout politics degrees, majors or minors. New to this Edition: - Restructured and revised to reflect the decline of democracy and the rise of populism and authoritarianism in different parts of the world - New Politics in Action features reflect the latest political developments - including 'Trump's triumph: politics as polarization'; 'South Africa: a one-party state?'; and 'North Korea: a rogue nuclear power?' - Discusses the transformation of the media landscape, assessing the advent and impact of social media and 'fake news' - New and improved text design reflecting the book's contemporary and engaging coverage - Accompanied by a brand new website, featuring a flashcard glossary, additional cases, interactive simulations and weblinks for students, PowerPoint slides for lecturers, a testbank and a guide to using the book. Accompanying online resources for this title can be found at bloomsburyonlineresources.com/politics-5e. These resources are designed to support teaching and learning when using this textbook and are available at no extra cost.

Now in its fourth edition, Geographies of Development: An Introduction to Development Studies remains a core, balanced and comprehensive introductory textbook for students of Development Studies, Development Geography and related fields. This clear and concise text encourages critical engagement by integrating theory alongside practice and related key topics throughout. It demonstrates informatively that ideas concerning development have been many and varied and highly contested - varying from time to time and from place to place. Clearly written and accessible for students, who have no prior knowledge of development, the book provides the basics in terms of a geographical approach to development what situation is, where, when and why. Over 200 maps, charts, tables, textboxes and pictures break up the text and offer alternative ways of showing the information. The text is further enhanced by a range of pedagogical features: chapter outlines, case studies, key thinkers, critical reflections, key points and summaries, discussion topics and further reading. Geographies of Development continues to be an invaluable introductory text not only for geography students, but also anyone in area studies, international studies and development studies.

Concepts have a particular importance for students of politics and international relations. Political argument often boils down to a struggle over the legitimate meaning of terms and enemies may argue, fight and even go to war, each claiming to be 'defending freedom', 'upholding democracy' or 'supporting justice'. The problem is that words such as 'freedom', 'democracy' and 'justice' have different meanings to different people, so that the concepts themselves come to seem problematic. This book provides an accessible and comprehensive guide to the major concepts encountered in political analysis. Each term is defined clearly and fully, and its significance for political argument and practice is explored. The text has been updated and expanded to take account of the increasing influence of globalization on politics and now features 70 additional concepts. Renowned for its lively, engaging style and user-friendly approach, the second edition is an invaluable companion to the study of politics and international relations.

This is the first comprehensive volume to offer a state of the art investigation both of the nature of political ideologies and of their main manifestations. The diversity of ideology studies is represented by a mixture of the range of theories that illuminate the field, combined with an appreciation of the changing complexity of concrete ideologies and the emergence of new ones. Ideologies, however, are always with us. The Handbook is divided into three sections: The first is divided into three sections: The first reflects some of the latest thinking about the development of ideology on an historical dimension, from the standpoints of conceptual history, Marx studies, social science theory and history, and leading schools of continental philosophy. The second includes some of the most recent interpretations and theories of ideology, all of which are sympathetic in their own ways to its exploration and close investigation, even when judiciously critical of its social impact. This section contains many of the more salient contemporary accounts of ideology. The third focuses on the leading ideological families and traditions, as well as on some of their cultural and geographical manifestations, incorporating both historical and contemporary perspectives. Each chapter is written by an expert in their field, bringing the latest approaches and understandings to their task. The Handbook will position the study of ideologies in the mainstream of political theory and political analysis and will attest to its indispensability both to courses on political theory and to scholars who wish to take their understanding of ideologies in new directions.

Reflections on the Practice and Pedagogy of Creative Writing

Political Ideologies, Fourth Edition

The Political Theory Reader

Introduction to Political Psychology

The first aim of this text book is to define and examine the principle concepts that are employed when people write or argue about modern democratic politics, to discuss the implications of using the concepts in this way or that, and to examine the normative theories associated with the concepts. A second purpose is to summarise methods of analysis used by political scientists and to discuss the controversies that have arisen about these methods, with particular reference to attempts to create a science of politics.

Essentials of UK Politics and Government is the go-to textbook for all A-level Politics students studying the Edexcel specification. Building on Andrew Heywood's signature accessible style, this new fifth edition has been thoroughly updated by Kathy Schindler and Adam Tomes who draw on their experience to provide an innovative guide to UK Politics. This book covers all the core topics from Democracy and Participation, Elections and Referendums and Voting Behaviour, to the Constitution, the Prime Minister and Parliament. Packed with contemporary examples, this edition includes material on the 2017 and 2019 General Elections, Covid-19 and the latest Brexit developments. Curated pedagogical features such as Key Topic Debates, Case Studies and Synoptic Links will encourage students to strengthen their critical thinking skills and hone their ability to debate with confidence. Accompanying the book is a content-rich companion website featuring bonus case studies, further sample student answers with annotations, tips for planning and organising revision and much more.

This new textbook from best-selling politics author Andrew Heywood investigates the ideas that have dominated political thinking across the globe, and examines the different ways in which they have been interpreted and reinterpreted. Written in an accessible and engaging style, it covers the key ideological traditions, offering an exposition of their history and development, their core themes and internal divisions and their impact on contemporary political behaviour, movements, parties and governments. This new introduction is written specifically for the new A Level syllabus in Political Ideas and covers all the issues and topics in the Edexcel and AQA specifications. It includes a range of useful features to help students develop and apply their understanding of ideas, ideologies and thinkers.

Fully revised and updated third edition of a popular, established textbook, providing a definitive introduction to Britain's politics, political institutions and processes. Comprehensively re-worked and re-structured to better align with courses, this new edition places great emphasis on the changing context of British politics while addressing key themes such as the ongoing importance of gender and ethnicity to political and social life in Britain. Furthermore, the book's familiar authoritative style has been retained with a fresh look and revitalized pedagogical features to provide a complete learning package. The book is designed for courses on or related to British politics. Its accessible style and context-setting Part 1 will make it ideal for students new to the field (particularly those who haven't studied the subject at school level or international students), but its rigour will stimulate and engage more experienced students. New to this Edition: - Fully updated to cover the 2016 EU Referendum, the 2017 General Election and other key political developments - 'Politics in Action' videos with key academic experts and practitioners offer differing viewpoints on the political system - Expanded companion website featuring regular updates and additional pedagogic tools for students and lecturers alike, such as self-test quizzes, flashcards, timelines, a lecturer testbank and lecture slides - Vibrant and engaging full colour page design to help your students navigate the book's broad coverage

This third edition of Politics has a new chapter on the mass media and political communication and contains substantial new material on developments such as the "War on Terror," identity politics and multiculturalism, and state transformation. It also takes into account throughout of the increasing importance of the global dimension of politics, and features new boxed material on major thinkers and key concepts.

This is a textbook for the AS level in government and politics covering all topics in the Edexcel and AQA syllabi and the core requirements of other boards. It is packed with features to aid learning and revision.

This collection explores folklore and folkloristics within the diverse and contested national discourses of Britain and Ireland, examining their role in shaping the islands' constituent nations from the eighteenth century to our contemporary moment of uncertainty and change. This book is concerned with understanding folklore, particularly through its intersections with the narratives of nation entwined within art, literature, disciplinary practice and lived experience. By following these ideas throughout history into the twenty-first century, the authors show how notions of the folk have inspired and informed varied points from the Brothers Grimm to Brexit. They also examine how folklore has been adapting to the real and imagined changes of recent political events, acquiring newfound global and local rhetorical power. This collection asks why, when and how folklore has been deployed, enacted and considered in the context of national ideologies and ideas of nationhood in Britain and Ireland. Editors Cheeseman and Hart have crafted a thoughtful and timely collection, ideal for students and scholars of folklore, history, literature, anthropology, sociology and media studies.

Modern Political Ideologies

Democracies of the Modern World

An Introduction to Development Studies

An Introduction to Political Theory

Essentials of UK Politics

Thoroughly revised and updated, this third edition provides acomprehensive account of the major political ideologies of the pasttwo centuries. Political Ideologies and the Democratic Ideal, 9/e, thoroughly analyzes and compares political ideologies to help readers understand these ideologies as acutely as a political scientist does. Used alone or with its companion Ideals and Ideologies: A Reader, 9/e, this best-selling title promotes open-mindedness and develops critical thinking skills.

Published one year after Forget Foucault, In the Shadow of the Silent Majorities (1978) may be the most important sociopolitical manifesto of the twentieth century: it calls for nothing less than the end of both sociology and politics. Disenfranchised revolutionaries (the Red Brigades, the Baader-Meinhof Gang) hoped to reach the masses directly through spectacular actions, but their message merely played into the hands of the media and the state. In a media society meaning has no meaning anymore; communication merely communicates itself. Jean Baudrillard uses this last outburst of ideological terrorism in Europe to showcase the end of the "Social." Once invoked by Marx as the motor of history, the masses no longer have sociological reality. In the electronic media society, all the masses can do--and all they will do--is enjoy the spectacle. In the Shadow of the Silent Majorities takes to its ultimate conclusion the "end of ideologies" experienced in Europe after the Soviet invasion of Hungary and the death of revolutionary illusions after May 1968. Ideological terrorism doesn't represent anything anymore, writes Baudrillard, not even itself. It is just the last hysterical reaction to discredited political illusions.

The first comprehensive textbook on political psychology, this user-friendly volume explores the psychological origins of political behavior. Using psychological concepts to explain types of political behavior, the authors introduce a broad range of theories and cases of political activity to illustrate the behavior. The book examines many patterns of political behaviors including leadership, group behavior, voting, race, ethnicity, nationalism, political extremism, terrorism, war, and genocide. Text boxes highlight current and historical events to help students see the connection between the world around them and the concepts they are learning. Examples highlight a variety of research methodologies used in the discipline such as experimentation and content analysis. The "Political Being" is used throughout to remind the reader of the psychological theories and concepts to be explored in each chapter. Introduction to Political Psychology explores some of the most horrific things people do to one another for political purposes, as well as how to prevent and resolve conflict, and how to recover from it. The goal is to help the reader understand the enormous complexity of human behavior and the significant role political psychology can play in improving the human condition. Designed for upper division courses on political psychology or political behavior, this volume also contains material of interest to those in the policymaking community.

An Introduction to Political Philosophy
The Oxford Handbook of Political Ideologies
Theories of International Relations
Key Concepts in Politics
Political Ideologies

This unique book takes silence as its central concept and questions the range of meanings and values which inform the idea as it impinges on the creative process and its content and contexts. The thematic core of silence allows a consideration of silencing and silence as opposite ends of a spectrum: one shutting down, the other enabling and opening up. As a multidisciplinary collection of essays derived from the teaching and implementation of Creative Writing at university level, the contributors consider silence as strategic, both through the need for silence and as something which compels resistance. They explore how writing has employed images and tropes of silence in the past, and used silence and gaps technically. In considering marginalised and forgotten voices, this book shows how writers bring their diverse range of backgrounds and experience to work with and against silence in Creative Writing Studies. The first theoretical work on silence in Creative Writing, this field-shifting book is an essential read for both practitioners and students of Creative Writing at the higher education level.

The Globalization of World Politics, the bestselling introduction to international relations, offers the most comprehensive coverage of the key theories and global issues in world politics. The eighth edition engages with contemporary global challenges, featuring a brand new chapter on Refugees and Forced Migration and updated coverage of decolonization to ensure the book continues to cover those topics that will define the key issues in IR into the future. Tailored pedagogical features help readers to evaluate key IR debates and apply theory and concepts to real world events. A fully updated Opposing Opinions feature facilitates critical and reflective debate on contemporary policy challenges, from decolonising universities to debates over migration and the state. Leading scholars in the field introduce readers to the history, theory, structures and key issues in IR, providing students with an ideal introduction and a constant guide throughout their studies. Students and lecturers are further supported by extensive online resources to encourage deeper engagement with content: Student resources: International relations simulations encourage students to develop negotiation and problem solving skills by engaging with topical events and processes IR theory in practice case studies encourage students to apply theories to current and evolving global events Video podcasts from contributors help students to engage with key issues and cases in IR Guidance on how to evaluate the Opposing Opinions feature, supporting students to engage in nuanced debate over key policy challenges Interactive library of links to journal articles, blogs and video content to deepen students' understanding of key topics and explore their research interests Flashcard glossary to reinforce understanding of key terms Multiple choice questions for self-study help students to reinforce their understanding of the key points of each chapter Revision guide to consolidate understanding and revise key terms and themes Instructor Resources: Case studies help to contextualise and deepen theoretical understanding Test bank - fully customisable assessment questions to test and reinforce students' understanding of key concepts Question bank - a bank of short answer and essay questions to promote students' critical reflection on core issues and themes within each chapter Customisable PowerPoint slides help to support effective teaching preparation Figures and tables from the book allow clear presentation of key data and support students' data analysis

The 4th edition of this popular textbook has been fully revised and updated to match the requirements for the new A-level in government and politics for the Edexcel and AQA exam board specifications. Written by renowned author Andrew Heywood, this lively text expertly introduces A-level students to the basics of UK politics, and covers key areas including political parties, elections and referendums, voting behaviour and the media, the Constitution, Parliament, Judiciary and the European Union. Keeping pace with the tumultuousness of UK politics of the last few years, it incorporates coverage of the referendum on the UK's European Union membership in 2016 and its consequences as well as the 2017 general election. New to this Edition: - Content restructured to map on to the new A level specifications - 'Milestones': provides annotated timelines for the historical development of various issues - 'UK Politics in Action': places the focus on key events in British politics

"This book provides an engaging and intellectually challenging introduction to political ideologies, while at the same time giving an accessible route into the subject for those new to politics. Supported by an outstanding companion website, it has strong claims to be the best undergraduate textbook on ideologies on the market." Dr. Mike Gough, University of East Anglia Introduction to Political Theory is a text for the 21st century. It shows students why an understanding of theory is crucial to an understanding of issues and events in a rapidly shifting global political landscape. Bringing together classic and contemporary political concepts and ideologies into one book, this new text introduces the major approaches to political issues that have shaped the modern world, and the ideas that form the currency of political debate. Introduction to Political Theory relates political ideas to political realities through effective use of examples and cases studies making theory lively, contentious and relevant. This thoroughly revised and updated second edition contains new chapters on global justice and political violence, as well as an expanded treatment of globalisation and the state. A wide range of pedagogical features helps to clarify, extend and apply students' understanding of the fundamental ideologies and concepts. This is comprised of: · Case studies demonstrate how political ideas, concepts and issues manifest in the real world · 'Focus' boxes encourage students to appreciate alternative viewpoints · A range of thought provoking photographs challenge students to examine concepts from a different angle · Suggestions for further reading and weblinks are also provided to help students to further their understanding Introduction to Political Theory is accompanied by an innovative website with multiple choice questions, biographies of key figures in political theory, further case studies and an innovative 'how to read' feature which helps students get to grips with difficult primary texts.
