Quick Look Nursing: Legal and Ethical Issues, authored by two successful nurse attorneys, examines topics from basic legal foundations to complicated legal issues challenging nurses every day. Important topics chosen for the book include a wide range of legal and ethical issues from basic concepts, such as professional regulation of licensure, to bioethical issues, such as assisted suicide. It is written to provide nursing students, nursing faculty, and nursing professionals with an organized and manageable format covering the essential components of legal and ethical issues to make learning and teaching easier. Section One includes subjects related to legal risks in the nursing practice and presents a review of the legal system, negligence and malpractice, standards of care, insurance, regulation of practice and refusing an assignment. Section Two examines topics related to liability in patient care including confidential communications, informed consent pain control, patient teaching, clients with AIDS, and abusive situations. Documentation issues are presented in Section Three including computerized records, implementing orders incident reports, and forensics. Employment issues are dealt with in Section Four including contracts, unionization, employment status liability, sexual harassment, violence, and employees with AIDS and needlesticks. Section Five targets ethical issues including unethical conduct, patientsâ€™ rights, maternal vs. fetal rights, and assisted suicide. This extraordinary text is a concise yet scholarly presentation of material that is essential for professional practice. Each chapter condenses content that would normally be included in an hour lecture format and incorporates the essentials.

hearings before the Subcommittee on Labor Standards of the Committee on Education and Labor, House of Representatives, Ninety-sixth Congress, first session, hearings held in Washington, D.C., on November 13, 14, 15, 27, and December 6, 1979

"Nurses play a vital role in improving the safety and quality of patient care -- not only in the hospital or ambulatory treatment facility, but also of community-based care and the care performed by family members. Nurses need to know what proven techniques and interventions they can use to enhance patient outcomes. To address this need, the Agency for Healthcare Research and Quality (AHRQ), with additional funding from the Robert Wood Johnson Foundation, has prepared this comprehensive, 1,400-page, handbook for nurses on patient safety and quality -- Patient Safety and Quality: An Evidence-Based Handbook for Nurses. (AHRQ Publication No. 08-0043)."--Online AHRQ blurb, <http://www.ahrq.gov/qual/nursesdbk>.
